### JAPAN'S NEWSPAPERS SCORE MISSIONARIES

Editors Suggest That Ministers of Christian Churches Should Be Excluded From Spreading Gospel.

TOKIO, Feb. 15.—The attention which has been called to the burning of certain missionary schools in the Chientao district on the Korean border which were suspected of being used as headquarters for insurgent Korean bands, has once more brought the missionary question to the fore in Japan.

The Hochi, a sensational sheet with considerable circulation, suggests that it may be best to exclude missionaries from Japan, just as the United States excludes Japanese laborers from her shores.

"Christian missionaries are disturbing the peace of the Orient," says the Hochi. "Not only do they instigate rebellion in China and Korea, but they dare do so even in this country. Should we not follow the example of America and prohibit the entry into this country of missionaries?"

Christianity is assailed from another angle by the Kokumin, which, as has several other papers, expresses the belief that this religion is becoming altogether too temporal.

#### Success and Genius

A common mistake among the young and inexperienced is that success in life comes only as the reward of flaming genius. The epochal events of the world, like the great accomplishments of nature, have been the result of slow but constant growth. Be thrifty with your time. Wasted hours are lost and gone forever, but the hours given to constructive labor or study will remain as faithful friends to help and strengthen you through all the years of your life.

#### Diplomatic Youngster.

Harold was often allowed to visit his grandmother, but was always told the hour he should return home. On arriving at his grandmother's one morning he was asked how long he could stay. "Well, grandmother, I don't remember whether mother said ten o'clock or three o'clock, but I'll go home after dinner and ask her."

#### Suicide Among Musicians Rare.

It has been found that suicide is very uncommon among musicians. Schumann attempted it, and it is also recorded of Tschalkowsky, but cases of musicians who have killed themselves are very rare. It is said that these facts are so, because of the mental composure and balance fostered by music.

to the legislature each session and, although she has filled the position of court stenographer and has led a very busy and useful life, she has raised a successful family and is now a grandmother.

From these reminiscences one may imagine what a vast change has taken place in the Oregon legislature during the past 22 years. Now there are scores of women clerks and other employes and they have received definite recognition as members of the house.

#### Pearl Fishers in Sea All Year.

The women pearl fishers of Japan commence their work at the age of fourteen and are in the water almost all the year round, except in the coldest season, from the end of December to the beginning of February.
