

LA PINE WOMAN PIONEER DEAD

MRS. W. H. HOLLINSHEAD, RESIDENT OF CENTRAL OREGON FOR THIRTY YEARS, IS LAID AT REST TODAY.

Mrs. W. H. Hollinshead, pioneer woman of Central Oregon, died yesterday at her home at La Pine at the age of 50, arterio sclerosis being the cause of death. She and her husband settled in the vicinity of what is now La Pine nearly 30 years ago.

Mrs. Hollinshead is survived by her husband and three sons, William, Cecil and Dean, all living at La Pine. Her girlhood home was at Independence, Ore., her maiden name being Ella Osborn.

The past winter Mrs. Hollinshead spent at Marcola, Ore., with her sister-in-law, Mrs. S. N. Templeton, who passed through Bend today on her way to attend the funeral. Mrs. Hollinshead was taken ill shortly after her return to La Pine, several weeks ago.

Funeral services were to be held this afternoon at La Pine.

MANY CHILDREN IN BEND ARE EXAMINED

County Nurse Conducts Campaign For Corrective Dental Work—First Aid Boxes May Be Installed

Two hundred and forty-one children in rural districts were examined by County Nurse Julia D. Clock during the month of March in her campaign for corrective dental work. Nine rural schools were visited. It was found that there are still many children in the county who are in need of dental work and the county nurse is working out a plan whereby children living in communities far removed from a dentist can be reached.

Classes in home care of the sick are being conducted in four communities and two new classes will probably be started early in April. Miss Clock is planning to visit the La Pine school about April 14 and will be glad to see any of the parents who wish to consult her at that time.

At the regular monthly executive committee meeting of the Deschutes County Public Health association, plans for installing first aid boxes in rural schools of the county were discussed and the county nurse was authorized to purchase the supplies necessary for equipping the boxes. They will be distributed to the schools as soon as they are ready.

On account of the large territory Miss Clock is obliged to cover in her work she plans on being in her Bend office only on Saturday mornings of each week.

MEETING PLACE OF SCOUTS IS CHANGED

Due to the objections of teachers in the Reid school, the Boy Scouts will discontinue their weekly meetings in the school building. Tomorrow afternoon at 4 o'clock the Scouts will meet at the baseball field, where the scoutmaster will announce a permanent place of meeting.

PHOTO SHOP ADDS ELECTRIC DRYER

Rapid Work Made Possible By Installation of New Equipment—Fan For Films Will Be Used.

Adding to their equipment for the rapid handling of photographic work, Symons Bros. today completed the installation of an electric dryer, which makes possible the delivery of prints four minutes after leaving the washing tank. A canvas carrier, on which the prints are fed, passes around a revolving drum, electrically heated, and in four minutes the finished print is dropped into a tray. A thermometer in constant contact with the canvas allows the operator to keep the temperature at the proper degree.

A printer with a capacity of 3000 a day has already been in use for some time, while the developer unit allows for 19 rolls of film being put through every 20 minutes. A heater and fan to make possible quicker drying of films will be installed in the near future.

GRAND JURY FROM LAST TERM MEETS

The grand jury, holding over from the last term of court, met this morning to consider all criminal cases now pending in the jurisdiction of the circuit court, which meets Monday. This was done this term for the first time, to expedite the handling of these cases.

The new grand jury will be drawn immediately after the roll call of the jury list at the opening of circuit court Monday morning.

PAUL REVERES ARE TREATED TO LUNCH

Following the business meeting of the Paul Reverses last night, they were entertained at a luncheon by Mrs. J. F. Arnold and Mrs. J. F. Morgan. Mrs. Albert Lesling and Mrs. Walker gave several musical numbers.

The Paul Reverses have now been assigned to patrols of six men each. Next Sunday they plan to hold a drill and short scouting expedition and will try to make practical use of the semaphore signaling which they have been studying.

REGULAR LEGION MEETING TONIGHT

Tonight's regular meeting of Percy A. Stevens post No. 4, American Legion, will be held in the Downing cafe balcony as usual, Commander F. R. Prince announces.

A new Legion bulletin board which has been installed on the wall at the postoffice is attracting much notice this week. It is an artistically framed blackboard, about 2½x4 feet in dimensions. It is planned to post all available information of interest to service men.

FALLS FROM AUTO, FRACTURES SKULL

OREGON CITY, April 7. — Jack Hamilton, traffic officer, suffered a fractured skull this morning when he fell from the running board of a machine which suddenly swerved on a downtown corner. His chances of recovery are said to be slight.

GENERAL WOOD ON WAY

(By United Press to The Bend Bulletin) SAN FRANCISCO, April 7.—Major General Wood is aboard the Oregon Limited, en route to Portland and Seattle. He left here last night.

AUTO LICENSE FEES RETURNED FOR ROAD USE, STATES REPORT

(Continued from Page 1.)

sion from the state highway departments.

States Use Funds.

In most states the motor vehicle revenues are devoted to maintenance and repair of the state roads or other improved highways. These states seemed to have solved fairly well the difficult problem of securing funds for the maintenance of the more important roads under the ever-increasing traffic requirements. As both the traffic and the revenues increase with the number of cars, there apparently exists a possibility of so adjusting the registration rates as to keep pace with the ever growing maintenance charges.

The most general practice seems to be toward definitely limiting the maximum total road weight of the vehicle and basing the registration fee on the capacity of the truck.

Some few states have adopted a scale of fees which in the actual practice serves to make the operating of very heavy trucks impracticable.

In Colorado, New Mexico and Oregon, in addition to the registration fees, a state tax on gasoline or other products used for the propulsion of motor vehicles is also levied. In some states motor cars are taxed as personal property in addition to the required registration fees. In Alabama, Delaware, Idaho, Iowa, Michigan, New Hampshire, New York, North Dakota, Oklahoma, Oregon, South Carolina, Pennsylvania, Tennessee and Vermont the registration fees are in lieu of all personal property.

ATTORNEYS AND C. O. I. COMPANY REDUCE CHARGE

(Continued from Page 1.)

the committeemen—or at least some of them—to understand that it would require more money. The board thereupon instructed their attorneys to prepare a new contract, embodying the changes agreed upon, which was done. Every possible effort was made to get the new contract at the old price, but the company made the price \$125,000, and told us to take it or leave it. The contract was thereupon signed by all parties and a bond election, to be held April 15, was agreed upon.

"We have done everything possible

to get the price reduced and as a result the company and attorneys have agreed to cut down so that the cost to the district is probably about the same as in the January contract. With the price practically the same and a new contract which meets all the objections of those opposed to the old contract, we sincerely hope that the good sense of the settlers will carry the bond election overwhelmingly, so that disaster on the project may be avoided and the troublesome question settled."

Making Good On Our Slogan

THAT'S WHAT SYMONS BROS. OF THE CENTRAL PHOTO CO., ARE DOING

Four years ago, we started in the photo business in Bend. "In at one, at five they're done" was the guarantee under which work was taken and put out. Our business grew rapidly, and soon we found that unless we were willing to sacrifice quality to speed we could not continue to make good on our slogan. This we were not willing to do, and our time guarantee was dropped.

Improved Methods

Are making it possible, however, for us to handle a much larger quantity of work with better results in less time. New equipment, the latest unit of which is an electric dryer, allows us to cut the entire operation of developing, printing, washing and drying to one hour and five minutes. Once more we can use our slogan and invite you to take advantage of our superior work and speed.

"In at one, at five they're done."

Cashman Store

An American Worker's Creed

"The Company for which I work is a mighty good employer and I think any employee who hasn't an interest in the success of his employer ought to quit or get fired. My idea is that when a man sells his services to an employer, he sells his loyalty at the same time. If he can't be loyal and give the best that is in him, he ought not to work for that particular employer. By being loyal I don't mean that one has to be a toady, or that he has to lose any of his independence. The most loyal may be the most independent, and usually is."

The Shevlin-Hixon Company

CREDIT IS OUR GREATEST ASSET

The commercial world is standing on the foundation of credit. Every individual is a cog in the great wheel. When one neglects his credit and fails to pay his honest obligations, he makes it impossible for some one else to meet theirs, therefore it is extremely vital that each and every one see to it that we
