MAY PASS 600 MARK

Second Request For Referendum On
Mayor's Waterworks Permit To
Go To Recorder By Monday—
Right To Vote Insisted On.

Already some 300 signatures have been appended to the second crop of referendum petitions asking that the question of the waterworks franchise granted Mayor E. D. Gilson by the council be submitted to a popular vote. The petitions were started by T. H. Foley, manager of the Bend Water, Light & Power Co., following the refusal of Recorder Ross Farnham to accept the former petition for filing. The new petitions contain no recommendations regarding time of the election, the point in the former petition on which the objection was raised.

Right to Vote Emphasized.
Mr. Foley expects that there will be fully as many signers as on the former request for a referendum, which bore the names of more than 600 Bend residents. The new petition will be submitted to the recorder for filing by Monday.

"I am going to insist that the people of Bend be given an opportunity to vote on this question," Mr. Foley declared this morning. "Even if it keeps me busy all summer getting out petitions," he added.

One will cover the Central Oregon district.

These men will be secret service operators to the nth degree, for they will be sent to districts where they are not known, and will be shifted from district to district so frequently as to avoid any information of their identity reaching the general public.

ICE FACTORY WILL BE HEAVY SHIPPER

Central Oregon Towns Outside of
Bend To Use 110 Tons—Short-
age Is Provided Against.

At least 110 tons of ice manufactured in Bend will be used in Central Oregon towns outside of Bend this summer, A. E. Anderson, in charge of sales for the Deschutes Ice Co., reported this morning after a trip to Prineville, Madras and other Central Oregon points.

What the total sales will be this year is impossible to forecast, Mr. Anderson declares. Last year's deliveries during the summer season averaged six tons, but the supply was inadequate. Improvements at the local factory should be ample provision against any shortage this year, he believes.

Twenty-five tons a month is the present consumption in Bend, although daily maximum temperatures are still averaging less than 65 degrees.

FISHING OPENS TOMORROW; ALL ANGLERS HAPPY

ONLY JURYMEN HELD
IN BEND

HUNDREDS MAY FISH

Twin Lakes, East Lake and Head-
waters of Metolius Lure Sons
of Walton—Cautions As To
Game Laws Are Given.

Fishing season opens officially at dawn tomorrow. Most of Bend's most ardent anglers—and they are many—will have left the city this evening, provided they are not on the jury list. Most of them have set their faces toward Twin lakes, East lake or the upper Metolius river.

Those who go to Twin lakes are advised by recent travelers in that region to go up the south side of the Deschutes until they reach the George Graf place, crossing there.

As the district has an aggressive game warden, some cautions for anglers are not amiss. Be sure you have your license with you. Return all fish under six inches in length to the water. Remember, the bag limit is 30 fish, or 20 pounds in one day, 50 fish or 40 pounds in seven consecutive days. Don't forget that it is unlawful to have more than 60 fish or 40 pounds in your possession.

Penalties Heavy.
It is also unlawful to fish by any means other than hook and line, to angle within 200 feet of any fishway, to sell or offer for sale, barter or exchange, game fish or parts thereof, to fish at night, to angle on lands without permission of the owner—remembering that every man's land is bounded by meander lines of streams or lakes, to resist game wardens or other officers charged with the enforcement of the game laws, to use powder or any poisonous substance, or to cause it to be placed in any waters.

Violation of any of these provisions of the game laws carries a penalty of not less than \$25, nor more than \$500 and costs, or imprisonment of from 30 days to six months.

DENTISTS ASSISTING IN HEALTH PROGRAM

Cooperate With County Nurse In
Survey of Rural Schools—Will
Do Work At Cost of Materials.

Dentists of Bend are cooperating with Miss Julia Clock, county nurse, in making a survey of the rural schools, inspecting the teeth of all pupils, and will also do dental work for the bare cost of materials. The dentists will take turns in making the inspection trips and will divide the work, which will be done in the Bend offices, if practicable, among their number. The first trip was made today by Dr. E. E. Gray, who made the trip to La Pine, where he will inspect conditions in the schools, assisted by Miss Clock. County Commissioner C. H. Miller also went to La Pine to see how the health work is being carried out.

If possible, the patients will be brought to Bend for dental treatment, but the dentists are willing to take a traveling outfit to the outlying communities, and will do so if the children find it impossible to make the trip to Bend.
