"We know nowadays that even a universal education . . . supplies only the basis for a healthy republican state. Next to education there must come abundant, prompt, and truthful information of what is going on in the state, and frank and free discussion of the issues of the times." H. G. Wells, "The Outline of History."

### RECOMMENDATIONS

On the front page of today's paper we have made our recommendations to voters in respect to the city and county matters to be voted on tomorrow. We urge that the county measure be approved and that both city measures be disapproved. On the five state measures we recommend that a favorable vote be given.

The World war veterans' state aid fund bill, more familiarly known as the bonus bill, we have discussed. This is the most important of the measures to be voted on and we again urge its passage both in justice to the men who served in the war and as creating tremendous development possibilities in the state.

Vote 302 X Yes.  
The legislative regulation and compensation amendment we feel is needed so far as the compensation feature is concerned. The pay of our legislators should be increased. Whether or not it is necessary to lengthen legislative sessions we are not sure. The last session ran a few days over the 40 for which the members could draw pay, but those in touch with its work said it went along very slowly in the beginning. On the whole, however we think it better to approve than to reject this measure.

Vote 300 X Yes.  
The emergency clause veto is necessary and desirable in order to check an abuse of the legislative power. It makes the governor the representative of the people in this matter where now the people have no representation at all.

Vote 304 X Yes.  
We have previously argued in favor of the hygienic marriage bill. In view of the publicity given the measure during its author's stay here in March the arguments are well understood.

Vote 306 X Yes.  
Oregon has given women the vote. Women are claiming rights and privileges in common with men. At the same time they should be ready to perform all the duties of citizenship and one of these is jury duty. Adopt the women jurors and revised jury law and this will be possible.

Vote 308 X Yes.

### COMMUNICATIONS.

**HOTEL OWNER PRAISES WATER**  
To the Editor: If some of these people who are making such a fuss about Bend water could hear the remarks of strangers in a public dining room, they would certainly have to take a back seat. Invariably they remark about the good, clear water—and, think of it, cold enough with, out ice until the first of June and, some seasons, until the first of July! By using clean, clear glasses the writer has always been proud to serve this water to the public. Omaha, Neb., uses Missouri river water. Thing of the comparison.

### MEMORIAL CANNON FOR POST ARRIVES

The memorial cannon, which the city applied for some time ago on behalf of Percy A. Stevens post, American Legion, arrived by freight yesterday from Fort Stevens and will be moved tomorrow morning to the grounds of the fire house, where it will be kept temporarily. Legion volunteers to assist in moving are requested to meet at the fire house at

**Keep Your Word**  
You'll be rated as a bird, in the busy haunts of trade, if you always keep your word, never let a promise fade. If you promise you will pay for your wagonload of lime on the twenty-ninth of May, do your paying right on time. Then the smiling merchant prince will remark, with beaming eye, "It is many ages since I have seen so prompt a guy." And the merchant prince will say to the other princes near, "There is no more honest jay from Dansheba clear to Beer." If you promise you will meet James Adolphus Arthur Mix on the corner of the street at ten minutes after six, do not make Adolphus wait for the fraction of an hour, or he'll think you are a skate, and his spirit will be sour. And upon a future day, when you need him in your biz, and approach him, he will say, "Moly Hoses and Gee Whiz! Once I had a date with you, and you kept it—in a horn; so I naturally view you and all your works with scorn." One has great renown for wit, one can wrestle like a Gotch, and another makes a hit when he warbles "Larboard Watch"; one can write a classy ode, one can rear up and orate, one can scorch along the road at a Barney Oldfield gait. There are many kinds of fame, and some samples are absurd; but we all admire the game of the man who keeps his word. He is loaded to the guards with the laurel wreaths he's won, when the statesmen and the bards retail at ten cents a ton.

9 o'clock in the morning.  
The gun is a model 1900 field piece, caliber 2.24, mounted on a wheeled carriage, so that it may be used in parades. Being unsafe for firing, the breach has been sealed.

### LEAKY GAS TANK HARD ON PAVING

New Surfacing Crumbles As Gasoline Drips from Automobile, Dissolving Binding Material.

Every time some inventive genius puts forth an impenetrable armor plate, another genius with a mind ranking a few notches higher evolves a new explosive before which the armor plate crumbles. In the same way it remained for the Standard Oil Co. to evolve a solvent for the paving which is being laid on the streets of Bend. Gasoline does the trick.

The cause of a hole in the new surfacing in front of the Erickson grocery on Wall street aroused much speculation this morning until a block up the street, in front of the Sather building, the process of disintegration was seen going on. An automobile with a leaky gas tank was doing the mischief and, as the liquid fell drop by drop, a second hole in the pavement grew perceptibly.

Dissolving the material used to bind the mineral aggregate apparently was responsible for the crumbling away of the newly laid surfacing.

## SAYS GRANT OF WATER UNWISE

APPLICATION OF E. D. GILSON HELD UP SINCE MAY, 1919, BECAUSE OF IRRIGATION NEEDS, CUPPER WRITES.

Further confirmation of the statement by the Deschutes board, that Mayor E. D. Gilson has no rights on Spring river, making it impossible for him to furnish Spring river water to Bend, according to the terms of his franchise, which will be voted on here Tuesday, is contained in a letter from State Engineer Percy A. Cupper, written on June 1 to J. B. Miner, of this city.

"On May 22, 1919, Mr. E. D. Gilson filed application No. 6535, covering the appropriation of 192 second feet from this stream for power and domestic purposes, under which it is proposed to deliver water to the city of Bend," Mr. Cupper writes. "This application is still pending in this office, being held in abeyance, due to the fact that Spring river is located within the Benham Falls reservoir site, and it is deemed unwise to approve the application if the Benham Falls reservoir is to be constructed. The application is therefore before the office without any action having been taken."

### An American Worker's Creed

"The Company for which I work is a mighty good employer and I think any employe who hasn't an interest in the success of his employer ought to quit or get fired. My idea is that when a man sells his services to an employer, he sells his loyalty at the same time. If he can't be loyal and give the best that is in him, he ought not to work for that particular employer. By being loyal I don't mean that one has to be a toady, or that he has to lose any of his independence. The most loyal may be the most independent, and usually is."

## CREDIT IS OUR GREATEST ASSET

The commercial world is standing on the foundation of credit. Every individual is a cog in the great wheel. When one neglects his credit and fails to pay his honest obligations, he makes it impossible for some one else to meet theirs, therefore it is extremely vital that each and every one see to it that we
