MONDAY, JUNE 20, 1921.

"We know nowadays that even a universal education . . . supplies only the basis for a healthy republican state. Next to education there must come abundant, prompt, and truthful information of what is going on in the state, and frank and free discussion of the issues of the times." H. G. Wells, "The Outline of History."

### EARNING AN EDUCATION

Although the following paragraphs come to us as a news story, we want to use them here in the nature of a text. They are from the University of Oregon and read:

"Of the 230 students who are graduating this year from the University of Oregon, 80 per cent have earned more than a third of their own way during four years of study, according to statements made by members of the class this week. Twenty per cent have been entirely self-supporting.

"Many and interesting are the jobs which have yielded an income to these young men and women while they studied. The hop yards, logging camps, shipyards, fishing grounds, sawmills, highway construction, harvest fields, farms, warehouses, and the forest service—all have been the sources of pay checks carefully saved during the summer to pay school expenses in the winter. Dish-washing, mowing lawns, putting in wood, cooking, waiting on tables, sweeping floors, have been homely tasks willingly and even eagerly performed by the young men and women wearing caps and gowns on the campus this week.

"A graduate from Klamath Falls tells how he got up at 4 o'clock in the morning to do janitor work. A girl from Washington trolled for salmon in the Columbia. Another girl has been a cook for harvest hands. Two young men were oilers on a ship. Another was foreman of a 9000-acre farm. A girl carried the mail and earned 25 per cent of her own way. Still another girl worked at a soda fountain."

The text is longer than what we have to say on it. Indeed, all we wish to do is to get our young people to do a little thinking on the subject of college training. The three paragraphs above are the foundation for this thought. Here are reports from the graduating class of one college only. Of that class nearly 50 were entirely self-supporting. One hundred and eighty-four have earned more than a third of their way. They have done scores of different things to earn money, each of them adding to his self-reliance and his education for life.

Will the young people of Bend profit by this example? Some of them who have recently been graduated from the high school may feel that they cannot afford to go to college. We urge that they consider the achievements of these who have just been graduated from college. What these have done, they can do. A little hardship now; a little extra work, and they will have a better training for the business and the pleasure of life.

### Wolves and Foxes.

Each class has its troubles. Poor folk have the wolf at their door; rich folk generally have some woman snooping around trying to lure the cook away.

## The Bulletin Board

For only 20 cents for a Bulletin Want Ad you can tell over 3,000 people what you have to sell or want to buy.

### Flies In Ointment

Fame I've won in greater measure than I hoped for in my youth; I've acquired such worldly treasure as makes quite a roll, in sooth; but my voice, like rusty hinges, chants a dreary dirge of dole, for the fierce rheumatic twinges shake the sunshine from my soul. Feeling well is all that matters in the best world ever was; all the rest is rags and tatters, fame and wealth and men's applause. With your laurels you may crown me, speaking praises doubly sweet, but my briny tears will drown me if the gout is in my feet. Croesus sits among his plunder, glaring at his shining wealth, and he'd throw it all to thunder for a year of perfect health; for the ache is in his ankles and he fears he's going blind, and the thought of gold but rankles in the corners of his mind. Midas, of the storied fingers, which turn everything to gold, in his dim vaults sadly lingers, for his spacious feet are cold. For he's with an ague shaking, sometimes chilled and sometimes hot, and the pills he has been taking do not seem to hit the spot. And he'd swap his stacks of guilders for a night of such repose as restores the toiling builders, and such delegates as those. It should seem like empty spicing, all the talk of fame and gold, to the fellow who is feeling like a sorrel three-year-old.

### Loans Run 28 Years.

While the loans may run for 28 years, being amortized at two per cent yearly and four per cent being paid on interest, it is assumed that a great majority of the borrowers will repay in much less than the maximum time. If an ex-service man sells the home or farm in which he has invested his loan from the state, the interest rate immediately jumps to six per cent if he sells to someone not originally qualified for a loan. Further, in such case the loan must be reduced to 60 per cent of the amount originally loaned and must be entirely paid within five years.

Under the law, in the event that congress should provide for the payment of cash bonuses to persons qualified to receive bonuses under the Oregon act, on or before the date the Oregon amendment becomes effective, then any person qualified to receive a bonus from the government shall not be qualified to receive a bonus from the state. Service men who have benefited under the educational aid act of 1919 must refund to the state the amounts they have

### CASH BONUSES WILL BE READY IN SHORT TIME

(Continued from Page 1.)

only \$2000 and a tax of only one mill.

#### Loans Must Be Repaid.

The loans must be repaid to the state, and the applicant, his or her father, mother, wife or husband, child, sister or brother must secure such payment by a first mortgage on real estate seven per cent in value in excess of the amount loaned. The ex-service man or woman alone can secure the loan, but the relatives named can assist by supplying the necessary security. The applicant cannot have both a loan and the cash bonus. If he selects the bonus

ready to settle down to a life's occupation, will not apply for some years. Number Estimated at 25,000.

It has been estimated that 25,000 men and women will come within the benefits of the law. The number who will ask cash bonuses is estimated at 10,000 and those who will prefer loans at 15,000.

The assessed valuation of the state is \$1,040,839,049.12. Three per cent of this is \$31,225,177.47, the amount of the fund now created. The loans coming out of this sum will be repaid the state. While the cash bonus total, estimated at \$1,200,000, will not be repaid, the amount will be cared for by the one-mill levy. The one-mill levy on the basis of the present valuation will produce annually \$1.

## A Penny Still Has Value

Another electrical expert, figuring the cost of electricity at 10 cents per kilowatt hour, says that one cent's worth will:

- Operate a 6-pound flat iron 15 minutes.
- Drive an electric vacuum cleaner long enough to clean 450 square feet of carpet.
- Lift 100 gallons of water 100 feet.
- Run a 12-inch fan for two hours.
- Run a sewing machine two hours.
- Keep a heating pad hot for two hours.
- Do a machine full of washing.
- Shell 8 bushels of corn.
- Thresh one bushel of barley.
- Separate 60 gallons of milk.
- Churn 33 pounds of butter.
- Groom two horses.
- Stuff 200 pounds of sausage.

received under the act before they shall be qualified to receive either a bonus or a loan under the new act.

Members of the commission created by the act serve without pay, except expenses incurred in the actual performance of their duties. Each of the county appraisers shall receive a fee of \$5 for each appraisal and each of the attorneys in the several counties shall receive a fee of \$10 for each title examined, the fees to be paid by the applicants for loans.

### COUNCILMAN TO BE ACTIVE AS FIREMAN

Councilman N. H. Gilbert will hereafter be an active member of the fire department, he declared yesterday after attending a drill. All of the members of the council are honorary firemen. Gilbert stated that he thought one of the city fathers should be in close touch with the

firemen, to promote better understanding and harmony.

Put It in The Bulletin.

Your Shoes will smile with satisfaction over the splendid job of repairing they will receive at our hands.

## The Brooks-Scanlon Lumber Co.

## FEDERAL TIRES

These men are discriminate buyers and when they spend their money, it is with the assurance that they are getting 100% value; experience has taught them that the cheaper article is just what its price implies "Cheap."

They figure cost per mile in buying tires just the same as you figure cost per pound when you buy sugar at your grocery, and they would not buy "Federal" if they were not getting more miles per dollar, because if there was any tire built that would give more miles per dollar investment that is what they would have.

The "Federal" will give you more miles, more life and more comfort than any other tire in the world, therefore it is economy to equip your car with "Federal." Ask any of the following, why they prefer "Federal"—they use them and they know.
