

# CENTENARY OF MRS. EDDY'S BIRTH PROMPT TRIBUTE OF FOLLOWERS

(By United Press to The Bend Bulletin.)  
BOSTON, July 16.—Today marked the 100th anniversary of the birth of Mary Baker Eddy, founder of Christian Science. On this occasion of the centenary Christian Scientists everywhere will pay tribute to the unique career of their leader. Born in a remote New Hampshire town, of typical New England parentage, Mary Baker Eddy has become known as the discoverer and founder of Christian Science, a religious movement comprising the mother church and more than 1800 branches which, in less than half a century, have entirely circled the globe with a membership that includes persons of many races and shades of religious belief.

Rearing in the atmosphere of a Puritan home, from childhood Mrs. Eddy manifested a spiritual quality of thought, and at an early age developed a precocious interest in physical science and metaphysical subjects. Even in her youth she displayed skill as a writer and later became known as a contributor of poetry and prose to current periodicals. In a volume of poetry by New Hampshire authors, published in 1856, appear two poems from her pen, meritorious both in thought and form of expression.

Physically delicate as a child, after reaching womanhood Mrs. Eddy passed through a long period of invalidism during which he unsuccessfully sought healing from various agencies. In 1856 she recovered from the results of a severe accident through the spiritual illumination gained in reading the scriptures. For the next three years she sought, through careful and persistent study

of the Bible, the principle and divine law which governed this experience. In 1875 she gave her belief to the world in the text book of Christian Science, "Science and Health, With Key to the Scriptures." To establish formally her movement and to disseminate its teachings, in 1879 she founded the mother church, the First Church of Christ, Scientist, in Boston. This was followed in 1881 by the opening of a metaphysical college chartered by the legislature of Massachusetts, which, after some 4000 students had been taught, and in the midst of great prosperity, she closed on the ground that it had fulfilled its purpose.

To disseminate further her teachings, in addition to the church services and Sunday school, she established a board of lectureship, a publishing society to publish various periodicals, including a monthly magazine, a weekly denominational paper and a daily newspaper, a board of education to prepare teachers of Christian Science and a committee on publication to correct misrepresentations of her teaching. Although her discovery of Christian Science was not made until after middle life, Mrs. Eddy lived to see it established throughout the United States and in many foreign countries.

Beside her chief work, "Science and Health," the text book of Christian Science, Mrs. Eddy wrote other volumes including "Miscellaneous Writings," "The First Church of Christ, Scientist and Miscellany," "Unity of God and other Writings," "Christian Healing and Other Writings," "The Church Manual," "Christ and Christmas," and a volume of poetry, all of which are widely read.

## SALARY SLASH FOR OFFICIALS OF CITY LOOMS

(Continued from Page 1.)

Overturf as to the advisability of spending the first money available on park property within the city limits. His suggestion for a cleanup at Shevlin park, using only volunteer labor, met with favor, the council unanimously endorsing a movement for such cooperative work.

E. L. Vinal, manager of the Central Oregon Associates, reminded the council of the agreement for securing the repair of the Third street grade crossing. He was informed by the recorder that the present crossing has no official standing and that a showing must be made to the public service commission before it can be officially designated. The city attorney has been instructed to make such a showing.

## SHERIFF CATCHES FEDERAL OFFICER

Gets Booze Clue And Makes Long Chase Only To Find Government Man With Confiscated Liquor.

ST. HELENS, July 16.—Sometimes an officer becomes too enthusiastic in the pursuit of his duty. At least that's what Sheriff Wellington thinks, following a stirring chase along the lower Columbia River Highway recently, when he was tipped off that a car containing liquor was headed this way. The car arrived and departed, with the sheriff in close pursuit. After a chase of several miles he managed to overhaul the car—and found United States government officers en route from Astoria to Portland with captured contraband.

## PORTLAND HELPS TO ESTABLISH CREDIT

(By United Press to The Bend Bulletin.)  
PORTLAND, July 16.—Following Friday's meeting, W. L. Thompson, vice president of the First National bank, announced that Portland has subscribed a half million as her share of the national pool to provide livestock men's credits.

## SAGE HEN SEASON IS EARLY IN LAKE

Lake county has the edge on the rest of Oregon east of the mountains, as far as sage hen hunting is concerned, the season having opened yesterday in Lake, says a telegram received this morning by District Game Warden Earl B. Houston. In all other counties the season begins on August 1.

Depends Somewhat.  
The old saying—"If you want anything done, do it yourself," is all right if you do not want too many things done.

## CALIFORNIA MAY GET HIGHEST DAM

5,000,000 Acres Could Be Irrigated  
By Storing Waters of The Colorado River, It Is Declared.

(By United Press to The Bend Bulletin.)  
SAN FRANCISCO, July 16.—More than 5,000,000 acres of barren desert can be turned into rich farming land by the construction of the

proposed Boulder Canyon dam across the Colorado river, according to J. B. Lippincott, reclamation engineer, formerly of the United States geological survey.

The proposed dam, to be the highest in the world, is to be 550 feet high, it is planned. It will be capable of storing 24,000,000 acre feet of water and will develop 1,000,000 horsepower, more than the total hydro-electric power now developed by California projects.

## NIPPONESE PEERS OPPOSED TO WOMEN

TOKIO, July 16.—The house of peers of Japan has rejected the bill permitting women to attend political meetings. This has caused great indignation in feminist circles.

## JOFFRE WILL PAY VISIT TO JAPAN

PARIS, July 16.—Marshal Joffre is understood to have informed Prince Hirohito that he will pay a visit to Japan within the next three months.

## WATERSPOUT TAKES PORTUGUESE HOMES

LISBON, July 16.—An enormous waterspout destroyed four parishes in the Mala district of the Douro province of Portugal, sweeping away houses and flooding railways. Many people are homeless.

**JUDGE GARY RECENTLY SAID:**

"Our resources are so great—our facilities for carrying on affairs so satisfactory we know that before us is the greatest prosperity this country has ever witnessed. This is the time for encouragement—a time to be hopeful—a time to be optimistic—and we'll all come out all right... I have never lost my faith in the future of the industry—or the future of America."
