regularly. Otherwise we will not be re-  
sponsible for copies missed.  
Make all checks and orders payable to  
The Bend Bulletin.

WEDNESDAY, JULY 20, 1921.

"We know nowadays that even  
a universal education \* \* \*  
supplies only the basis for a  
healthy republican state. Next  
to education there must come  
abundant, prompt, and truthful  
information of what is going on  
in the state, and frank and free  
discussion of the issues of the  
times." H. G. Wells, "The Out-  
line of History."

### THE SCOUT LEADER

The recent successful outing en-  
joyed by the Boy Scouts of Bend  
should not pass without recognition  
of the part played in it, and the boy  
scout work in general, by Rev. J.  
Edgar Purdy. Ever since he took  
charge of this activity on behalf of  
the younger boys of Bend Mr. Purdy  
has given freely of his time and en-  
ergy without thought of compensa-  
tion other than that which comes  
from the satisfaction of knowing he  
was doing something for the benefit  
of others and for the general good  
of the community. He is entitled to  
great credit for his success.

The human boy is a restless young  
animal. Scientists tell us that from  
the embryo to youth we pass through  
stages representing the development  
of mankind through the ages. That  
is why most boys are at some time  
young savages concerned only with  
play, hunting and out-of-door activ-  
ity. The restraints of the home are  
irksome. They must always be doing  
something to work off their spirits  
and unless properly guided this  
something is too often likely to be  
of a mischievous nature.

Here, then, is the opportunity for  
the boy scout organization. The  
idea back of it is to take this rest-  
less activity of the growing young  
male and turn it into right channels.  
The growth of the movement is its  
index of success. And the biggest  
part of the success comes from lead-  
ers like Mr. Purdy.

We feel it a privilege to be able  
thus publicly to praise his work and  
to thank him for the effort he puts  
in it.

imum use measured on the land,  
while the contracts with the com-  
pany provided for measurement at  
or within one-half of a mile. Also  
by this decree, it is provided that the

### The Bulletin Board

A clean, light and airy shop  
means good printing. That is  
The Bulletin kind.

Representing, as we do, the  
best companies in the world,  
we are well able to write the  
insurance you need in what-  
ever amount you wish.

### The Fiction Solace

Time never drags along with me; my days are  
bright as days can be. When I have done my daily  
task I get a book and loll and bask in comfort in  
my easy chair, and bid good-by to every care. The  
rain may fall, the wind may blow, there may be  
nineteen kinds of snow, the storm fiend may be on  
a toot, but I don't care a single hoot. Tomorrow  
may have griefs to burn, some new distress at every  
turn; but future woe can't make me quail, for I've  
a fine jim-corking tale, of camps and courts and by-  
gone kings, and swords and guns and kindred  
things. And I am living in a day that's dim with  
dust and far away, and I forget while reading thus  
the workday world with all its fuss, and all its  
problems and its ills, its taxes and its doctor bills.  
I know so many friends who yawn when evening  
hours are drawing on, they know not how they'll  
kill the time, whose dragging gait appears a crime.  
They're tired of everything in sight; there's not a  
thing to do at night; they're tired of going to the  
shows, and clubdom has its drouthy woes, they're  
tired of cards and crokinole, and there is sorrow in  
each soul. And so they gasp and groan and yawn,  
while I read on, and on, and on.

actual seepage losses are allowed.

**Prior Rights Assured**  
"By this decree also the district  
and the holders of contracts upon  
the segregation receive a prior right  
for water for the amount provided  
in the decree over any rights of the  
company, and the relative rights of  
the company and the district are  
very firmly and clearly established.  
By the decree also, the company is  
prohibited from selling, and the desert  
land board prohibited from ap-  
proving any further contracts for the  
sale of water rights that will be a  
burden upon the system, and the  
company is commanded to turn the  
system over free and clear of any  
bonds, mortgages or other liens. The  
company has the right to sell the ex-  
cess acreage and collect for some and  
to collect all due unpaid mainten-  
ance fees at the time of the turn-  
over, leaving the last half of the 1921  
maintenance on all contracts that  
are payable in two installments, to  
go to the district.

**Unpaid Fees Looked to**  
"This unpaid maintenance that  
will be payable to the district will  
probably be sufficient to enable the  
board to continue the operation of  
the system for the balance of this  
season. But changing ownership in  
the midst of the irrigation season  
renders it a difficult task at best,  
and in order to enable the district  
to continue the operation of the sys-  
tem during this season, it will be  
necessary for complete harmony and  
co-operation between the settlers and  
the board. We respectfully call upon

### FEDERAL TIRES

These men are discriminate buyers and when they spend their money, it is with  
the assurance that they are getting value; experience has taught them that  
the cheaper article is just what its price implies "Cheap."  
They figure cost per mile in buying tires just the same as you figure cost per  
pound when you buy sugar at your grocery, and they would not buy "Federal"  
if they were not getting more miles per dollar, because if there was any tire built  
that would give more miles per dollar investment that is what they would have.  
The "Federal" will give you more miles, more life and more comfort than any  
other tire in the world, therefore it is economy to equip your car with "Federal."  
Ask any of the following, why they prefer "Federal"—they use them and they  
know.

### MORE DURABLE WORK ON PROJECT PLANNED

C. O. I. Engineer Unable To Set  
Time For Starting Reclamation of  
North Canal Unit—Plans Drawn

That reclamation of the North  
canal unit will be characterized by  
construction work of a more substan-  
tial nature than that on the C. O. I.  
project, was the declaration this  
morning of C. M. Redfield, engineer  
for the irrigation company, in the  
course of a visit to Bend.  
The improvement is bound to  
come, Mr. Redfield said, although he  
was unable to give any definite in-  
formation as to when the beginning  
might be made. His plans are ready  
—in fact he has drawn and redrawn  
them many times during the last 15  
years—but there might be changes  
even from the last set, he mentioned.

Put It in The Bulletin.

### HOLSTEIN FANCIERS ASSEMBLE IN LANE

Breeders' Association Members Visit  
Farms Near Eugene—Judging  
Demonstration Is Staged.

(By United Press to The Bend Bulletin.)  
EUGENE, Ore., July 20.—Lane  
county bovines are all pepped up to-  
day with the start of the Holstein  
tour and picnic from the Coburg  
high school grounds. Linn and Ben-  
ton county Holstein fanciers are  
also attending the Lane county jubi-  
lee. Lunch boxes and baskets are  
to be seen on every hand, but the  
Lane County Breeders' association  
is furnishing a very appropriate  
dessert—ice cream.

The Holsteiners set out at 9  
o'clock to visit the Swengo farm,  
going from there to the Myers &  
Blachly farm, at Springfield. Lunch-

con was served at Robinson's grove.  
Following luncheon, the tourers  
visited Arp's dairy, where a judging  
demonstration was staged. The  
tour wound up at the Dunlap farm,  
near Meadowview, where the herd  
and buildings were inspected.
