Fifteen Years Ago

(From the columns of The Bulletin of July 27, 1906.)
 This week has seen much activity in local circles regarding the filing of homestead entries on land in Crane Prairie. Under the recent act of congress it is possible that this land will be thrown open to entry, and many local people have taken the necessary steps to have their claims considered.

Work in preparation for the Redmond fair to be held September 29 to 22, is going on merrily.

FEDERAL TIRES

These men are discriminators and when they spend their money, it is with the assurance that they are getting 100% value; experience has taught them that the cheaper article is just what its price implies "Cheap."

They figure cost per mile in buying tires just the same as you figure cost per pound when you buy sugar at your grocery, and they would not buy "Federal" if they were not getting more miles per dollar, because if there was any tire built that would give more miles per dollar investment that is what they would have.

The "Federal" will give you more miles, more life and more comfort than any other tire in the world, therefore it is economy to equip your car with "Federal."

Ask any of the following, why they prefer "Federal"—they use them and they know.

Buy a pipe—and some P.A.

Get the joy that's due you!

We print it right here that if you don't know the "feel" and the friendship of a joy'us jimmy pipe—GO GET ONE! And—get some Prince Albert and bang a howdy-do on the big smoke-gong!

For, Prince Albert's quality—flavor—coolness—fragrance—is in a class of its own! You never tasted such tobacco! Why—figure out what it alone means to your tongue and temper when we tell you that Prince Albert can't bite, can't parch! Our exclusive patented process fixes that!

Prince Albert is a revelation in a makin's cigarette! My, but how that delightful flavor makes a dent! And, how it does answer that hankering! Prince Albert rolls easy and stays put because it is crimped cut. And, say—oh, go on and get the papers or a pipe! Do it right now!
