BREAK UP MOBS WITH TEARS NOW

Rough-neck mobs and criminals beware! Clubs and guns may go into the discard, for the police have a new weapon in the form of gas bombs. It resembles very much the small hand-grenade used in the world war, but the gas contained, though not deadly, packs a knock-out for the strongest man. It is tear-producing, choking and nauseating, but does not leave any ill after-effects. In a trial test the other day on five strong policemen—they fled "weeping" from the scene.

PERSHING'S NIECE DESERTS ARMY

General Pershing's niece, Miss Helene G. Pershing, went outside of army circles to get her husband. She became the bride of E. A. Kraft, recently at Seattle, Wash., where her husband, a navy man, is a member of the American Legion. Kraft was a senior grade radio operator during the world war and was seriously injured when his boat, the "Westover," was torpedoed and sunk off the coast of France.

You Can't Afford To Have An Accident

If you are hurt and unable to work, your expenses are increased by doctor's bills—and you're fortunate if you come through by drawing on your savings alone, and not falling up to your neck in debt. It is this countless of accidents that makes Travelers Accident Insurance so popular. Carry this insurance and you know before your accident happens just how much it will cost you—merely the very reasonable sum that you have already paid as your premium. Wishing you had insured won't pay the bills after you are hurt. Get it today.

M'NAUGHT FUNERAL SUNDAY AFTERNOON

Many friends of the family attended the funeral of Mrs. W. F. McNaught, held yesterday afternoon at 2:30 o'clock from the Baptist church. Rev. F. H. Beard preached the funeral sermon. The Baptist choir sang two hymns and Mrs. C. B. Silvis sang "Face to Face." Interment was in Pilot Butte cemetery. Almost all of Mrs. McNaught's living relatives were here for the funeral.

What is Palladium?

Palladium is a rare metallic element of the platinum group, found native, and also alloyed with platinum and gold. Like platinum, it is silver white, ductile, malleable and permanent in the air, but lighter and more easily fusible. Its symbol is Pd. It was discovered in 1803 by Wollaston, who named it after the newly discovered asteroid Pallas. It has a remarkable power of occluding gases, absorbing hydrogen nearly a thousand times its own volume. It is used for graduated circles and verniers, for plating certain silver goods, and in dentistry. —Seattle Daily Times.

Shoes Worn by Chinese Women.

Many young Chinese women have adopted western shoes, but those who grew up in the days before foot binding were forbidden still wear the tiny, resplendent embroidered shoes that have no counterpart in all the world. Roughly, these shoes are of two types: one, which has a fair-sized heel made on the shoe for outdoor wear; and another, which has no heel, for indoor use. The latter, however, may be fitted with a loose heel held in position by tapes if the lady wishes to walk abroad.

A Hint to the Long-winded.

Among the guests at a dinner party was a clergyman who had a reputation for loquacity. To put matters right, the hostess turned toward him and remarked pleasantly, "Will you say grace, or do you prefer your soup hot?"

Witty Smile.

The last speaker of a long program at a recent banquet said: "My speech will be like modern style in woman's dress—long enough to cover the subject and short enough to be interesting."

H. W. BARR, Optometrist-Optician

Ten years secretary of the state board of optometry, 30 years in practice in Salem and three years in Portland, will open offices in the new Miner building on August 15.
