**Sir:**

## What About Your New Suit for Fall?

You're going to have one, yes, and that right soon. But where are you going to buy it? That depends on the kind of man you are and the sort of suit you want. If you're rather particular about your attire, won't just take anything that's a suit, don't want the kind of clothes that have only a veneer of good looks and no real intrinsic goodness to go with them—

**SAFETY FIRST**  
and last and all the time and a full and generous measure of satisfaction await you here in the store for men and young men at

THE BUSIEST CORNER IN BEND

### "FOOT-FITTERS"

Are the Right Shoes for Real Men—The Men who do things! They insure the correct walking position for the feet and thereby give the body perfect poise. Being combination in both last and pattern, they hug the foot all over without binding or pinching—they fit even the hardest-footed feet as they provide for even the slightest changes at heel, ball, toe, ball or arch!

The "Foot-Fitter" Sole Leather Box does not curl up or cause friction to toes or joints as it is very thinly skived at point of contact with vamp and is set far enough back to be caught by both rows of vamp stitching. That's one reason why the "Foot-Fitter" toe has all the advantages of a soft toe with none of its disadvantages!

### HOW TO WASH WOOLEN UNDERWEAR

#### How To Wash Woollen Overshirts

Soak one hour in soap suds, not too hot, put in a little ammonia; transfer to clean, warm soap suds and wash by stirring the garments around and squeezing the suds through. Do not use a wash board, rinse thoroughly in pure warm water to remove all traces of soap. Pass the garments through a wringer twice, then immediately lay them on a table flat and while damp stretch each garment to proper shape by hand, then hang up to dry in a warm room or out of doors if warm and dry. Hang up by top of garments. It is best not to iron woollen underwear. Use pure soap free from all alkali. Olive oil soap is best for all woollens.

#### Don'ts

DON'T wash in water used for other clothes. DON'T RUB SOAP on wool underwear or overshirts. DON'T use patent washing powders. DON'T use a washboard or put in a washing machine. DON'T use boiling water. DON'T hang out wool underwear in cold weather; always dry indoors. A poor laundry, or bad judgment in washing will ruin any woollen goods.

Remember—Rubbing soap on, or rubbing on a washboard, or suddenly changing temperature of water, or hanging out in the cold when wet, is a sure way to think woollen goods.
