

## PHONE COMPANY OUTLAY LARGE

\$20,000 BEING SPENT IN OUTSIDE WORK IN CONNECTION WITH NEW CENTRAL EXCHANGE OFFICE.

An expenditure of approximately \$20,000 for construction work in the city of Bend for new outside telephone plant is being carried on by the Pacific Telephone and Telegraph Company, J. L. Gaither, local manager, announced today. He explained that the new work has been found necessary in order to recenter the outside plant at the new central offices at 839 Bond street, placed in service on September 24.

The construction projects under way to provide for placing 200 additional poles throughout the city and stringing three miles of aerial cable containing a total of 540 miles of wire. This new work will not only rearrange the plant to meet the new central office location, but will provide additional facilities throughout the city necessary to care for the anticipated development for the next two or three years. The Telephone Company is looking for a considerable demand for telephone service at Bend. During the last two or three years there has been a shortage of facilities in various sections of the town and it is to relieve this condition and take care of the anticipated demand that the new work has been approved and is now under way.

## U. S. MONEY AIDING MANILA PLANTERS

\$4,000,000 Loan Will Tide Sugar Producers Over Period Following Heavy Slump.

MANILA, P. I., Sept. 29.—The Philippine government is preparing to loan \$4,000,000 to sugar planters in the islands to save their sugar crop. Most of last year's crop has not been sold and the planters need money to pay their workmen, whom they owe four months' wages. The annual production of sugar in the Philippines is approximately 225,000 tons, of which more than half goes to the United States.

The government investment in the industry consists of loans amounting to \$17,000,000 granted through the Philippine National Bank to six centrifugal mills organized by Filipino planters.

**Americans Have Prettiest Feet.**  
What country possesses women with the largest feet? This question arose from an inspection of women's feet in Bond street during the busiest hour of the morning. Women of many nationalities passed, displaying "understandings" that varied considerably in shape and size.

"Dutch and German women have the biggest feet in the world," said Robert Wortley, court chiropodist.

British women have the longest feet, but they are narrow; Japanese women have the smallest feet of all, and Americans the most beautiful, because they are well cared for from youth.

"After the American foot I award the beauty honor to the French woman, whose foot is a triumph of grace, while dancing has given a special attraction to the Spanish feminine foot."—London Daily Express.

**The Meaning of It.**  
Professor (pondering)—Now what was it that this knot in my handkerchief was to remind me of? Ah, yes! It was today that I was to jump into lake and end it all.—Houston Post.

Your Shoes will smile with satisfaction over the splendid job of repairing they will receive at our hands.

### The Quiet Life

When village clocks are striking nine, I to my room repair, and on my downy couch recline, and throw some nightmares there. And people say, "You miss so much, who sleep the hours away! You should wake up and keep in touch with night life, which is gay! Then all the live wires are on deck, and bands play jazzy tunes, and you should through the village trek, and blow in some doubloons." The lights are glaring white and red, throughout the noisy night, but I have parked myself in bed and there I'm sleeping tight. And in the morning when I read the night-life tales of crime, I say, "A man must sleep, indeed, to have a high class time. Bill Jimpson had his pockets picked while looking at a game, and Jasper Jinks was badly licked for smiling at a dame. I see that Boggs, whose car's a treat, it has such wondrous power, was pinched while coming down the street at forty miles an hour. And Mike was knifed and Pete was shot by gangsters, it is said; why should a man through dangers trot when he can sleep in bed? By night all perils dire are loosed, and evil runs amuck; sane is the wight who goes to roost when curfew's hour has struck."

### Eskimo Babies.

The Eskimo babies are seldom weaned till they are four or five years old, but are taught to chew tobacco and to swallow the juice between the ages of nine and twelve months.—Brooklyn Eagle.

### Good Judgment.

Husband—"The doctor has ordered me to observe the greatest possible quiet." Helpmate—"In that case, dear, don't you think it would be an ideal time to get back into business?"—Paris L'Illustration.

### Had It All Arranged.

Jack—"When I proposed to her the dear girl fell off, my breast and sobbed like a child, but finally put her arms around my neck and—" Madge—"Oh, yes, I know all about it. I rehearsed it with her."—Boston Transcript.

### Explaining Dream of Wolf.

To dream of a wolf signifies business relations with one who is unprincipled and cunning. To be pursued by one denotes much sickness to the house, but if by many long life and health.

## There Will Be No Unemployed

## Oregon Made Products

This week is particularly set aside for the display of Oregon Made Products in Bend. The object of the display is to show us all, the many and varied products produced right here in our own state for us to use. And we are all going to learn about some one thing, or perhaps a great many things that are made here in Oregon that we knew nothing of. It is up to us to use them if we want to **Keep Oregon Dollars In Oregon.**

Every one of course realizes that the local requirements of the state of Oregon could not possibly keep the many sawmills running. Oregon is one of the greatest, if not the greatest, lumbering states in our country. The annual output of forest products in Oregon runs into many millions of dollars. This means millions of dollars for pay rolls—outside money brought into Oregon—and then spent for labor. To keep this money in our state is one of the reasons for using Oregon Products not only this week, but next week and every week of every year.

In Bend when you think of Oregon Products your first thought naturally is of the sawmills. The continued operation of the mills has meant real things to you this year, probably more so than any other year since they have been running, and their continued operation means money in your pocket. Outside money converted to Pay Roll Dollars! Pay Roll Dollars are big dollars; the local pay roll means prosperity for you. The Pay Roll Dollars of all Oregon mean prosperity for Oregon. Treat the Pay Roll Dollars right and you can and will make more Pay Rolls, because you will patronize Oregon manufacturers to supply the needs of Oregon earned Pay Roll Dollars with Oregon Made Goods. As before noted, our output is sold largely outside of the state of Oregon. In fact only a very small percentage of our products can be disposed of locally—but the Pay Roll Dollars we disburse are all spent locally.

Think What This Means to You!

## Oregon Products Week

We believe in Oregon Products. We are probably handling a larger percentage of Oregon Made Goods than any other business house in Bend. As a matter of fact the percentage of products that we purchase outside the state of Oregon is so small that we might almost say that we handle nothing but Oregon Products. We take no particular credit to ourselves for this—it just happens that we are in the kind of business where all our requirements can be filled within the state of Oregon. But we do feel mighty glad to say that this buying of Oregon Made Goods to take care of the needs of our trade, is a consistent policy with us. We compare quality and service first and if we can get these two things from the Oregon manufacturers, we buy their product. So far we have never had occasion to go outside the state to make a purchase when it came to a consideration of these points.

And we carry this idea right down the line. Anything that can be purchased in Bend to fill our needs, is bought right here. If the article desired has to be purchased out of Bend we certainly get it from an Oregon dealer. We believe we have the right idea because we want Bend and Oregon to grow; just the same as you do. And that's about the only way either our town or our state or our country can grow.

Buy At Home. Buy In Bend When Possible.

Buy Oregon Made Goods Always.
