OREGON STATE GAME COMMISSION
 192-197c Portland, Oregon.

NOTICE

The Red Cross Shop will sell fancy work and canned fruits on a 10% commission at rooms 217-240 Miner Bldg. 192-195c

CONTRACT LET FOR REPAIR OF BUILDING

J. E. Albright Low Bidder On American Legion Roof Job—Repair of Alleys Begins Today.

A contract for the repair of the roof and balconies of the American Legion building was let last night to J. E. Albright, local contractor. The specifications were prepared by G. A. Horstkotte. Repair of the bowling alleys was begun today by Albright, on a different contract.

A definite policy in regard to renting the building in emergencies, when there is no opportunity to call the board of directors together, was laid down last night. In such a case the building is not to be opened unless the rental is paid in advance. If the board decides that the occasion was one in which the building should be used, rent free, the money will be refunded.

September bills were allowed at last night's meeting.

REMOVAL NOTICE
 To our Friends and Customers:
 We have moved our plumbing and heating establishment to our new location in the Spher building, 113 Minnesota avenue, just across the street from our old location. We are in position to take care of all classes of plumbing and heating and small repair work. Your patronage solicited.

199-195p PINNIGAN BROS.

MAGAZINES AT REST ROOM ARE POPULAR

Donations of Periodicals Wanted—New Location Attractive—Finds General Use.

The magazine exchange at the city rest room is proving popular, many of the magazines put there being taken away, which is the purpose of the exchange. Donations of magazines are requested. All that is necessary is to take them to the rest room and place them on the table.

The new rest room, on the north side of the Miner building next to the Red Cross and county nurse's offices, is much more attractive than the former room on Minnesota avenue. It is estimated that 75 people used the rest room last month.

Travel of Light and Sound.
 Sound is said to move at the rate of 36 miles a minute, and, compared to light, it is slower than a snail. If a minute after a clap of thunder half a minute after a flash of lightning, we could calculate that the discharge of electricity was about six and a half miles away.

LEGION TO DISCUSS DECORATING ROOMS

Meeting of Percy A. Stevens Post To Be Adjourned Early On Account of Melting Pot Dance

Furnishings of the American Legion clubrooms will be again discussed at tonight's meeting of Percy A. Stevens Post No. 4, which will precede the Melting Pot dance. It is planned to have the meeting over in time that the members may attend the dance.

At the last meeting the matter of financing the redecoration of the clubrooms was referred to the executive committee, which will report its findings tonight.

Cleans Silver.
 To keep plated silver clean and bright without constant cleaning, which is so injurious to plated articles, dissolve a small handful of borax in a basin with a little hot water and a little soap, put the silver in and let it stand for three or four hours; then pour off the suds, rinse with clean, cold water, and wipe with a soft cloth.

BLIND LECTURER HERE

Ward Abner Thompson, blind lecturer of Boston, who has been visiting with his sister, Mrs. Deslitz of Burns, was in Bend last night on his way to Bellingham, Wash.

Stop The Fires Before They Start
 Join in making this the most successful Fire Prevention Campaign
 Help To Make Bend Fireproof
 The Brooks-Scanlon Lumber Co.

Fire Prevention Is Fast Becoming the Most Effective Movement Ever Started—
 Since its origination in 1916 the elimination of fire has reached its highest percentage this year. Government reports of fires in the United States show a 52% decrease over 1916 and a 17½% decrease over last year.
 Monday is National Fire Prevention Day. Join the great movement and make Bend fireproof.

FEDERAL TIRES

These men are discriminate buyers and when they spend their money, it is with the assurance that they are getting 100% value; experience has taught them that the cheaper article is just what its price implies "Cheap."

They figure cost per mile in buying tires just the same as you figure cost per pound when you buy sugar at your grocery, and they would not buy "Federal" if they were not getting more miles per dollar, because if there was any tire built that would give more miles per dollar investment that is what they would have.

The "Federal" will give you more miles, more life and more comfort than any other tire in the world, therefore it is economy to equip your car with "Federal." Ask any of the following, why they prefer "Federal"—they use them and they know.
