\$128,000 IS DELINQUENT

Bend School District Gets \$35,541.69 And City \$13,599.21 - Ratio of Collections Nearly Same As That of Last Year.

Final turnover of tax money for the year was made yesterday afternoon by Chief Deputy Sheriff C. T. Terril when he transferred \$135,489.43, representing the last half of 1921 collections, to County Treasurer Clyde M. McKay. This means \$370,000 in round numbers taken during the year; out of a total levy of \$499,470.83, leaving approximately \$128,000 delinquent. The ratio of taxes collected to the total levy is only slightly less than that of 1920, Terril said.

Included in the distribution of funds made available is listed \$35,541.69 for school district No. 1, \$13,599.21 for the city of Bend, \$1,985.74 for the city of Redmond, and \$2,917.56 for the Redmond union high school district.

Rats By Hundreds of Thousands Infest Portland Water Front - Blamed For Dock Collapse.

PORTLAND, Ore., Nov. 3.—It may be unemployment in their usual fields of endeavor, and it may be that they are merely "in town for the winter." The fact remains that Portland's waterfront is infested with a delegation of rats variously estimated at from 350,000 to 400,000. In some instances the rats are said to be doing material damage to docks and warehouses along Portland's water shipping front.

River men insist that the collapse of the old Gas company's dock near the railroad bridge at the foot of Flanders street was caused by the rats. Continual gnawing at the bases of the spiles and heavy supporting timbers caused the old dock's downfall, they maintain.

In view of the excellent showing made by Deschutes county tubers at the national potato show recently held in Duluth, Coe and Jamison believe that the display should be in line for awards at Portland.

DISTRICT MINE BOARD TO CALL WALKOUT SOON

OBEYING INJUNCTION MEANS STRIKE

SITUATION IS GRAVE

Operators Apparently Welcome The Strike—28000 Men Out In Indiana And 40000 Ready To Quit Their Work In Pennsylvania Field.

(By United Press to The Bend Bulletin.) COLUMBUS, Nov. 3.—The district executive board of the United Mine workers today decided it would call a strike if the operators observed the Anderson check off injunction.

With a probable general strike to be called in the Central coal field on the next payday, November 10, the situation loomed grave today with operators apparently welcoming a strike.

The strike cause is given as Judge A. N. Anderson's Indianapolis injunction prohibiting collection of dues by employers withholding assessments from the miners' pay, and turning it into the union treasury.

In Indiana 25,000 miners are striking, with union officials meeting at Indianapolis.

Frank Farrington, continuing his opposition to President Lewis, of the miners' union, is ordering the men to return to work in Illinois.

Several hundred miners are out in Ohio, 40,000 ready to strike in Pennsylvania, and a strike seems certain in Iowa.

"NEVER AGAIN WAR," NEW GERMAN SLOGAN

Present Generation Has No Desire For Conflict - French Fears Held Not Based On Fact.

NEW YORK, Nov. 3.—"Nie wieder Krieg"—"never again war." This is the slogan of an ever-increasing army in Germany, the cry of men who have come to a realization finally that war is a losing game for all concerned; the appeal of women who suffered through the German "turnip winter;" the call of children cheated of their rightful heritage—a sound body—through war shortages.

Germany, as a whole, doesn't want any more war—not this generation at least. It is fed up on war.

This is my firm conviction after talks with men in all walks of life in Germany the past two years and a careful observation of the trend of thought and affairs in the new Germany.

France's alleged fear of a new German invasion is, at the moment, a senseless bugaboo, according not only to Germans, but also to English officers.

CHILE PRICES LOW, TIMES BECOME HARD

Financial Crisis In Southern Republic May Eliminate Winter Operatic Season.

(By United Press to The Bend Bulletin.) SANTIAGO, Chile, Nov. 3.—It begins to look as if the present financial crisis will deprive Santiago of its annual grand opera season. The Chilean, shares with his brother Latin an intensive love for grand opera, but it is apparent that this passion is not equal to pawing the limousine or the family jewels in order to support an operatic season during a period of slack business.

The jewelry and art goods business here has also practically stopped. The only ones who appear to be buying diamonds and other precious stones are speculators or well fixed bargain hunters, few in number, who are taking advantage in the fall of prices. Many wealthy and moderately-circumstanced Chilean families have placed their family jewelry with jewelers for sale. It is possible to obtain one-carat white diamonds as low as ninety or one hundred dollars in American money.

Well made men's shoes on snappy American style lasts sell from \$4 to \$6 a pair; tailor made suits of good woolen cloth at from \$20 to \$30, with overcoats at the same price; shirts of good materials at \$1.50 to \$2, and made to measure in the best shops for from \$3 to \$4. In spite of the low prices of clothing there is comparatively little buying. The period of business depression has caused much unemployment and wages are low.

PAULSON TRANSCRIPT GIVEN BY BOARD

NIGHT CLASSES LIGHT

Inability of State Vocational Training Board To Aid Handicaps School - Readjustment Probable Within A Short Time.

Request for a transcript of the proceedings of the Bend school board bearing on the dismissal of Mark A. Paulson, recently removed as principal of the high school on charges of insubordination and failure to maintain proper discipline, was made last night by County Superintendent J. Alton Thompson in a letter to the directors. The request is based on Paulson's appeal to the county superintendent from the board's action, and was granted by the board, Clerk J. C. Rhodes being instructed to transmit today a copy of the transcript—containing approximately 15,000 words.

Attendance at night school is considerably smaller than that of last year, resulting in a decrease in the amount of fees received, while the school is further handicapped by the inability of the state board of vocational training to offer financial assistance. City Superintendent S. W. Moore stated in his monthly report. This alone cuts down the revenue of the school by more than \$400, he explained. To reduce expenses, it is probable that a readjustment will be made at the end of the first month, involving the elimination of the smaller classes and the dropping of several instructors.

Dining Room Needed

The superintendent mentioned the need of a dining room in connection with the domestic science department of the high school, and the matter was turned over to the building and grounds committee with power to act. The improvement will cost in the neighborhood of \$200, it is estimated.

TEAM TO BANQUET IF GAME IS WON

Moore Offers Bend Players Entertainment and Holiday, If They Defeat Redmond Armistice Day.

An added incentive, if any were needed, to the members of the Bend football team in their game against the Redmond high school to be played here on Armistice Day, is given in the proposal by Superintendent S. W. Moore to entertain the players at a banquet in the event of their victory over the visitors, the banquet to be given at the end of the season when strict training rules need no longer be observed.
