

INDIANS IN THE WORLD WAR

Ten Thousand Fullblooded Redskins Lie With American Dead in France.

How many people in this country were aware before they read a recent cable from London that 10,000 full-blooded Indians lie with the American dead in France? Honor of a conspicuous sort has been done to almost every class and group and race that contributed in any way to the allied victory before the world was reminded of the singular part played in the war by those Americans who may properly be called 100 per cent. The United States and all its people owe a debt to Dr. Joseph K. Dixon, of this city, and to the founder of the Wannamaker historical expeditions for the part they played in bringing recognition formally to the American Indian. Haig, Foch and Pershing found these tribesmen deserving of a place with the noblest soldiers of all time. They were cool, dispassionate fighters, invariably brave and marvelous as marksmen. Most of them were volunteers. The Indian in France may yet live in a great American epic. He never knew complete freedom, yet he went out to fight for it until he died.—Philadelphia Evening Ledger.

MINING COAL FROM RIVERBEDS

For a century the hard coal miners of eastern Pennsylvania have dumped "reject" or waste coal into the rivers. This coal was of supposedly poor quality, but geology scientists have discovered that after the waste coal has been washed down a river by the current, the grinding it received has made it better, in heat units, than the coal from the mines! Accordingly, the Susquehanna, Shamokin and other rivers are now dotted with scows on which are the best coal pumping machinery. The Shamokin gives up 750,000 tons a year.

Ten Thousand Theories.

Ten thousand beautiful theories for bettering one's fellow beings lie in wreckage along the shores of time. The fellow beings objected.

Artistic Temperament.

When a man is indulging his artistic temperament is a good time to go out and quietly close the door behind you.

NOTICE OF ELECTION

Notice is hereby given to the legal voters of School District No. 1 of Deschutes County, State of Oregon, that a school election of said district will be held from 2 p. m. to 7 p. m. on Saturday, December 17, 1921, at the high school building in the city of Bend for the purpose of voting upon the school tax for the coming year.

ORIGINAL ESTIMATE AND ACCOUNTING SHEET, SCHOOL DISTRICT NO. 1

This original estimate is made in compliance with section 231-A of the school laws of 1921 and shows in parallel columns the unit costs of the several services, material and supplies for the three fiscal years and the budget allowances and expenditures for six months of the current year. ("Six months of the current year" means six months of the last school year.)

ITEM	Estimated Exp. for the ensuing school year	EXPENDITURES		Expenditures for three fiscal years next preceding the last school year		
		Expenditures in detail 1921	Budget allowance in detail 1921	Detailed Exp. for last year of the 3 yr. period, 1920	Second year 1919	First year 1918

I, J. C. Rhodes, do hereby certify that the above estimate of expenditures for the year 1921-1922 was prepared by me and that the expenditures and budget allowance for six months of the current year and the expenditures for the three fiscal years next preceding the current year as shown above have been compiled from the records in my charge and are true and correct copies thereof.

J. C. RHODES, District Clerk.

NOTICE OF SCHOOL ELECTION TO INCREASE TAX MORE THAN SIX PER CENT OVER THAT OF THE PREVIOUS YEAR

Notice is hereby given to the legal voters of School District No. 1 of Deschutes County, State of Oregon, that an election will be held in said District at Bend on the 17th day of December, 1921, at 2 o'clock in the afternoon, to vote on the question of increasing the amount of the tax levy in said District for the year 1922 by more than six per cent over the amount of such levy for the year immediately preceding.

It is necessary to raise this additional amount by special levy for the following reasons:

The six per cent limitation would fix the levy at only \$39,722.47 which amount would not be sufficient to maintain and operate the schools during the year 1922.

Dated this 26th day of November, 1921.

Attest: J. C. RHODES, District Clerk.

L. M. FOSS, Chairman Board of Directors.

NOTICE OF SCHOOL ELECTION

Notice is hereby given to the legal voters of School District No. 1 of Deschutes County, State of Oregon, that a school meeting of said district will be held at High School, on the 17th day of December, 1921, from 2 p. m. until 7 p. m. for the purpose of voting upon the school district tax for the coming year. The total amount of money needed by the said school district during the fiscal year beginning on June 30, 1921, and ending June 30, 1922, is estimated in the following budget and includes the amounts to be received from the county school fund, state school fund, elementary school fund, special district tax, and all other moneys of the district:

Budget		ESTIMATED EXPENDITURES

Total Estimated Receipts, not including proposed tax \$ 51,979.85

RECAPITULATION

Total Estimated Expenses for the year	\$176,910.00
Total Estimated Receipts not including proposed tax	51,979.85

Balance, amount to be raised by district tax \$124,930.15

Dated this 26th day of November, 1921.

Attest: J. C. RHODES, District Clerk.

L. M. FOSS, Chairman Board of Directors.

When a Range is Too Big

In almost every home there are important heating requirements in kitchen, laundry, or nursery, that are large enough to justify an investment in additional electrical heating equipment, even though another range would be too big.

It is for such uses that

Westinghouse

Hot Plates have been designed. These devices are efficient, practical, and of extreme convenience. They are not too large to be moved in case of necessity, and they are neat, clean, and economical.

Deflector plates underneath prevent any danger of scorching the support on which the hot-plate may be placed. This is further obviated by the design of the heaters, which concentrate the heat directly underneath the vessel. Each heater has three-heat control, the left-hand heater being equipped with three separate switches, the right hand with a single three-heat switch. They are made also in single-heater sizes.

Westinghouse Hot Plates possess advantages of convenience and economy which many people will readily appreciate.
