FIRE DANGER SEEN IN THAWING PIPES

White cold weather is on, and water pipes are freezing with startling regularity in Bend houses, extreme care should be used in the manner of thawing if disastrous fires are to be avoided. Fire Chief Tom Carlson warns. Many people, he has ascertained are using the hazardous method of holding flaming paper, blow torches, or oil soaked rags used as torches, to the pipes, running serious danger of setting fire to ceiling or wall.

A better method, he suggests, is that of wrapping the pipe in rags, then pouring boiling water to saturate this covering. This eliminates danger of fire and of cracking pipes as well, he states.

The Cheney PHONOGRAPH

Let the clear tone of a Cheney sing a Merry Christmas Greeting to the happy family on Christmas morning.

Its quality of tone is so like the human voice and the instrumental reproductions are so natural, it is difficult to detect that it is mechanical at a distance.
