YEAR'S BIRTHS EXCEED DEATHS

RATIO IS NEARLY TWO TO ONE. VITAL STATISTICS SHOW—BOY BABIES ARE MORE NUMEROUS THAN GIRLS IN BEND.

An unusually good margin in the number of births in Bend for the year as compared with deaths is shown in vital statistics compiled this afternoon by Dr. C. A. Fowler, city physician. The ratio was nearly two to one, new arrivals totaling 157, while deaths were but 82.

If the present sex ratio continues, two decades from now may see a superabundance of bachelors, for the babies added to Bend's population in 1921, 87 were boys and 70 were girls.

MOVIES

"AFFAIRS OF ANATOL" IS UNUSUAL FILM PRODUCTION

Since the showing of "Kismet" Bend has not seen a more elaborate production of motion pictures than "The Affairs of Anatol" now showing at the Liberty theater. The splendor of costume and settings is wonderful, the direction, by Cecil De Mille is of his usual type, in a class by itself, the best stars on the screen make up the cast, and the plot is something different than is ordinarily seen in moving pictures. The picture could well be named "Women" as it deals altogether with the dispositions and characters of women found in all walks of life.

"The Affairs of Anatol" is a production well worth seeing.

Pure Anglo-Saxon Word.

One use of the word "wetkin" in modern English is the phrase "the wetkin" rings. The word is a good middle English one for sty or clouds; it is more commonly spelled welkas. The Anglo-Saxon word was "wotena." There is supposed to be a connection between "wetkin" and Anglo-Saxon "wealcen," to roll, but this has not been proved.

Classified advertising charge per issue 20 cents for 20 words or less. One cent per word for all over 20. All classified advertising strictly cash in advance.

RAILROAD BUILDER SUING FOR \$472,000

Strahorn Alleges Only \$100,000 Out of \$600,000 Paid Him For Franchises and Property Rights.

PORTLAND, Dec. 31.—Robert E. Strahorn is the plaintiff in a suit filed here to recover \$472,000 from the Oregon-California & Eastern Railroad Company. The plaintiff, in his allegations, sets forth that only some \$100,000 of a \$600,000 contract entered into with the railroad in May, 1919, whereby certain franchises and property rights of the plaintiff were to be transferred to the company, was paid to him.

The defendant, represented by James G. Wilson, contends that an amendment made to the interstate commerce act, effective June 29, 1920, prohibited such a transaction.

The Sorosis Club for Women. The Sorosis club, organized with 12 members in March, 1903, by Mrs. Jane Cunningham, Croly in New York, was the first woman's club in America. Its object is to further the educational and society activities of women, and to bring together for mutual helpfulness representative women of art, literature, science and kindred pursuits.

DUFFY KNORR WEDS REDMOND TEACHER

Hard Hitting Deschutes County Boxer Keeps Ring Date this Afternoon Before County Judge.

Floyd D. Knorr, better known as "Duffy," one of the scrappiest pugilists ever developed in Central Oregon, this afternoon married Miss Maude Butler, Redmond school teacher. County Judge R. W. Sawyer performed the marriage ceremony.

Knorr is from Terrebonne, but has fought in Bend a number of times, and is widely known in this city. The young couple had planned their wedding for Portland to be held following a fight for which "Duffy" was tentatively signed. Illness, however, prevented the Terrebonne boxer from filling one ring engagement, and the second ring date was changed to Bend.

The World and Art. People love pictures. That is apparent to every thoughtful man who visits an art gallery. It may be true that comparatively few understand all that the artists have said, but it is equally true that, in general, the people take delight from the work of art.
