

REDMOND GETS CHAMPIONSHIP

DEFEATS WEAKENED BEND HIGH TEAM IN ROUGH CONTEST—3 BASKETS PREVENTED BY REFEREE'S WHISLE.

Bend high school's basketball team, weakened by the illness of several regular players, was last night defeated in the deciding game of the season by Redmond high, which took a firm grasp on the championship at the same time that it took an 18 to 9 victory over Bend.

Three times Bend high located the basket just a fraction of a second after Referee Weigand had called a foul on Redmond. While it was the opinion of local fans that at least one of these baskets should have counted, it is not likely that a protest will be made, as the points thus acquired would not change the result.

The game was one of the roughest seen on the local floor this year. Gates of Redmond was disqualified with four personal fouls against him, and two of his team mates had three each. Redmond's football tactics were partly responsible for the fact that Bend acquired but two field baskets, Johnson getting both.

Prineville last night defeated Madras high at Madras by a score of 44 to 29. This leaves Bend and Madras tied for second place, if Bend defeats Culver here tonight.

Last night's lineup and scores were:

The teams: Bend— forwards, Orrell (4), Johnson (5); center, Norcott; guards, Kohfeld, Philbrook; substitute, Claypool; Redmond— forwards, Bartou (3), Galbraith (6); center, Holloway (9); guards, Van Meter, Gates; substitute, Bates. Referee, Weigand.

SCOUT TROOP HAS BASKETBALL TEAM

The Boy Scout troop of Bend has organized a basketball team, and challenges any team under 100 pounds to games. A game will soon be played with the Prineville Scouts. Anyone wanting games with the team here is asked to call the assistant Scoutmaster at The Bulletin office.

Pauline was having it, all right. She had thought it would be wonderful to come of age and inherit her money and enjoy a little freedom and fun after Aunt Emma's stern rule. Cutting Window Glass.
Window glass is blown in the shape of long cylinders, which are cut open along one side and then placed on a stone in a hot furnace, where they gradually flatten out into a big sheet of glass. Often the glass breaks during this process, or even explodes, forming thousands of pieces, which fly in all directions, sometimes endangering the workers.
