RELICS OF EARLY DAYS GIVEN LEGION, WELL WORTH SEEING

Weapons, Indian Implements, Rare Books Collected by Pioneer Pastor.

Much interest is being displayed in the Mitchell collection of curios, relics of the Civil war and pioneer days, and rare volumes, which has just been turned over to Percy A. Stevens Post No. 4, American Legion, and is now on display in the bowling room at the Legion building. It was purchased for the Bend City Library from the late Rev. J. Anthony Mitchell, who was at one time pastor of the Presbyterian church here. When the county library was formed, this collection remained in the hands of the city, and was ordered turned over to the Legion by the last city administration. It is one of the two best collections in Central Oregon, the other belonging to Mrs. Ada B. Millican of Crook county.

Among the volumes are text books in Greek and foreign languages, printed more than 200 years ago. Many of them are probably the only remaining copies in existence. In addition to these volumes, there are a

number of scrap books which preserve chosen articles from newspapers of past years. Full collections of the works of a number of English authors are included; for Rev. Mitchell was known as a Shakespearean scholar of unusual attainments.

Weapons and accouterments of Civil war soldiers are among the interesting exhibits. Rusty swords and bayonets of unusual and deadly design draw much attention.

Somewhere in the interesting career which a biography of Rev. Mitchell would disclose if one had been written, he must have lived for some time on a rough frontier; for relics of Indian savagery, hunting and other phases of pioneer life are abundant. Among them are crude posters announcing a Shakespearean performance in a district where printing must have been unknown.

Numerous natural curios complete the collection, which is worth inspecting. At present it is in need of cataloguing and arranging, which the Legion members plan to do as soon as possible. Just where it will be kept in the Legion building has not been decided.

HELPS CHILDREN TO KEEP WELL

Look at children who get tea and coffee to drink instead of milk. Most of them are pale, sickly and puny.

Tea and coffee are NOT FOODS, but DRUGS.

They stimulate, but do not nourish. And children are better off without stimulants.

Give them fresh, clean milk and plenty of it.

Good milk will help them to grow up strong and well.

Save on other things if you must, but do not stint the growing children on milk.
