**LEGION MEN TO CHARTER TRAIN**

**Box Car Order Plans On More Luxurious Mode of Transportation.**

Plans for the chartering of a special train so that Central Oregon members of La Societe des 40 Hommes et 8 Chevaux and other legionnaires can attend in a body the state convention of both ex-service men's organizations, were launched last night at Redmond, when a meeting of Bend votture of the box car society was held. Some 25 members from here were in attendance last night.

M. Connolly was named captain of the wrecking crew which will have charge of the initiations at The Dalles during the convention, and Frank R. Prince was chosen chairman of a committee to decide on distinctive uniforms which will be secured by all 'forty and eights,' to be worn in The Dalles. Considerable paraphernalia has already been promised Connolly by the Portland votture for use in the initiation.

Dr. J. H. Vincent of Sisters was elected to take the place of W. T. McNulty, resigned, as a member of the executive board.

A competitive rifle drill between Prince and Lynn Coover was one of the entertainment features of the evening, Prince being declared the better drilled man.

Refreshments were furnished by the Redmond members.

**COSTLY FURS ARE USED IN PARAMOUNT FILM PLAY**

Probably the most costly array of furs ever seen in a Paramount picture is worn by the principal woman character in "Experience," which was produced under the direction of George Fitzmaurice and which shows at the Liberty theater tonight. Arrangements were made with a prominent Fifth avenue furrier for \$190,000 worth of fur coats, wraps, stoles and scarfs for use in the picture.

Yvonne Routon, as "Fashion"; Nita Naldi as "Passion"; Lilyan Tashman as "Pleasure," and Edna Wheaton, who plays "Beauty," appear gorgeously attired in furs that will give those who see the picture a glimpse of the latest styles in fur wears. In one scene "Pleasure" wears a \$3,500 Russian sable stole and in another a \$30,000 chinchilla coat. "Passion" appears in an ermine coat valued at \$20,000; "Fashion" displays several fur pieces of great value, and "Beauty" is attired in an evening cloak of manor velvet, embroidered in crystal and trimmed with Russian sable.

**AT THE CAMP GROUND**

Water pipe extension in the camp ground is being made today so that there will be six faucets for the use of the campers. There have been only two in the past. Caretaker Cleveland is proceeding with the work of laying off the camp in lots, which will be necessary this year because of the expected increase in the number of campers.

The grass sown last week is already pushing its way out of the soil, and with the frequent irrigation which Cleveland promises it, should make a creditable showing before many weeks.

**Pest Let Loose on Country.**

The gipsy moth was introduced into this country at Medford, Mass., in 1869, in connection with some experiments in hybridizing silkworms. A few specimens escaped, and about twenty years later the insect had become a serious pest. Between 1890 and 1900 the state of Massachusetts spent about a million dollars in combating the insect, which became scarce temporarily, but speedily resumed its depredations when the campaign against it was discontinued.
