

**TOTS TRAMPLED UNDER FOOT IN SUBWAY HORROR**

**Crazed Men and Women Fight in Darkness.**

**TRAINMEN SAVE MANY**

**Fire Caused by Short Circuit Is Extinguished, and Firemen and Police Rescue Hundreds from Trap.**

(By United Press to The Bend Bulletin.)  
NEW YORK, July 6.—Little children were trampled while men and women fought terrified in the darkness 35 feet underground today, when a short circuit in the Jerome avenue express train set the train on fire.

Black smoke billowed through the cars. Wipdows were broken as passengers battled. Children and women were passed to safety through broken window panes.

Clothing was torn and faces cut with glass and finger nails in struggles in the darkness.

The train crew put out the flames with extinguishers, and firemen and policemen descended into the subway depths to prevent panic and loss of life.

Hospitals quickly filled with injured and those overcome by smoke and fright. A police check showed none killed. About 100 were injured.

**COLLINS CALLS IRISH TO ARMS**

**Free Staters in Control, But See Need for a Clean Sweep.**

(By United Press to The Bend Bulletin.)  
DUBLIN, July 6.—Michael Collins, provisional head of the Irish Free State, today issued a call to arms to eject rebels from their three provincial strongholds.

Free Staters will march next on Donegal and Drogheda, where the forces of the rebels still hold out. Free Staters are in supreme control here.

**REVOLT'S END SEEN**  
LONDON, July 6.—Suppression of the Irish revolt which sprang up a week ago in Dublin is practically completed. Winston Churchill announced in the house of commons this afternoon.

**SOUTHWORTH GETS A TRIAL BY JURY**

A plea of not guilty to the charge of resisting an officer was made yesterday afternoon in city court by Roy Southworth, arrested Monday night by Chief of Police Willard Houston. A jury trial was set for next Monday. Charles W. Erskine is Southworth's attorney.

**MICKIE SAYS**

HEY, FOLKS, LISSEN! I'M OUT 'DAY LOOKIN' FER MONEY, SO IF YA SEE ANY BELONGIN' TO US, PLEASE RUN IT IN! WE DON'T KEER FER TH' DERN STUFF BUT WE GOT T' HAVE IT T' KEEP THIS GREAT FAMILY JOURNAL COMIN' TO YA! AN' PLEASE MENTION MY NAME!

**Crackers Ignite Auto Top; Motorist Pursues With an Extinguisher**

Firecrackers thrown by small boys set fire to J. H. McLelland's auto top, but destruction of the car was prevented by a motorist who followed the blazing car until close enough to bring an extinguisher into play. A trickle of liquid down the back of his neck gave the Bend man his first intimation of danger, and he finished putting out the fire with water from his canteen.

The blaze occurred on the Fourth, 20 miles beyond Portland, as McLelland was returning to Bend from a vacation spent at Vancouver, B. C., and Victoria. He completed the round trip yesterday afternoon.

**ROAR OF GUNS HEARD IN RIO**

**Revolutionists Hold Out One Day, Then Give Up Fight.**

(By United Press to The Bend Bulletin.)  
RIO DE JANEIRO, July 6.—The roar of heavy guns in Rio bay today told that insurgents who revolted yesterday are still holding out against much greater numbers of government troops.

Brazil's "embryonic revolution" still continues, although rebel surrender is believed at hand. Insurgents holding the fort at Copapabana were subjected to sporadic cannonading.

**GOVERNMENT PREVAILS**

BUENOS AIRES, July 6.—Private dispatches received here shortly before noon today announced that rebels holding Fort Copapabana surrendered to government forces at 10 o'clock this morning.

**BOND DEBT OF CITY REDUCED**

**\$16,221 Retired in Eighteen Months in Addition to Warrants.**

In addition to cancellation of warrant indebtedness amounting to \$37,000, Miss M. E. Coleman, city treasurer, has cut off \$16,221 of bonded indebtedness in the last year and one-half, a total reduction of \$53,221. The chief retirement of funded debt has been the purchase of \$10,000 worth of paying bonds, \$4,721 retiring sewer bonds, and \$1,500 for park bonds.

Bend's bonded indebtedness is at present \$277,255.66, which with outstanding warrants would bring the total obligation to a figure in excess of \$300,000. Nearly half of the bonds are non optional.

Many downtown paying payments are delinquent, stated Recorder Farnham today.

**OVERALL FACTORY IS PROPOSED HERE**

Bend has been chosen by the International Overall Co. of Chicago as the location of a factory planned for Oregon, according to a communication received today by the Bend Commercial club, in which an offer is made to build the factory here, providing a certain share of the financing may be done locally. The Commercial club decided to ask for further details before making a definite reply.

Factories are being located in each state for the reason that transportation rates on the finished product are high, while the raw materials are shipped at low cost. Cheap power and a central location caused Bend to be selected, according to the letter from the company.

**ANNIVERSARY BRINGS FREE MOVIE SHOWS**

Celebrating the anniversary of his first year's theater operation in Bend, J. B. Sparks announces a free show at both the Liberty and the Grand tonight. July 1 was the actual anniversary date, but because of the Chautauqua, Mr. Sparks postponed the time of open house until tonight. The regular two shows will be given at each theater.

**RECORD BROKEN IN LUMBER CAR DAILY AVERAGE**

**June Shipments From Bend Mills Heavy.**

**30.7 CARS OUT DAILY**

**Brooks-Scanlon Plant Breaks Record for Total Cars in Spite of One Less Working Day; Month's Total 799.**

Average daily shipments of lumber and other mill products from the Bend sawmill plants during June constitute a new record, according to figures given out by The Shevlin-Hixon Company and the Brooks-Scanlon Lumber Co. today. The new average is 30.7 cars per day, as against 30.5 in May, when the record for total cars shipped during one month was broken.

The total number of cars shipped in June was 799, less by 26 than in May; but since there was one less working day in June, the average is higher.

**Total Mark Raised**  
The Brooks-Scanlon plant created a new record for the number of cars shipped in a month, in spite of the shorter time. Lumber shipped amounted to 276 cars, while 31 cars of box shooks and 13 of shade roller pickets also left the plant. The total of 320 cars is six more than the former record, established in May. The Shevlin-Hixon Company shipped 442 cars from the planer and 37 from the factory during June, a total of 479, which is 32 less than in May, the difference being principally due to the shorter working time.

**SCOUTS PREPARING FOR NIGHT IN CAMP**

**Twenty Boys Make Trip to Elk Lake in Safety—Camp Is Located on Creek.**

Twenty Boy Scouts are settling themselves for their first night in camp at Elk lake tonight, under the supervision of Scoutmaster J. Edgar Purdy. All of the Scouts except the truck squad, which left yesterday, made the trip to the lake today, all arriving before noon. The camp was located about 150 yards from the lake, south of the same creek on which the Scout camp was built last year. The camp was practically completed this morning, according to R. S. McClure, who returned this afternoon after driving to the lake with a patrol of Scouts. The supply truck reached the lake without mishap last night. J. A. Eastes and J. O. Gibson drove their cars to the lake, taking a patrol of Scouts each.

**NEW STAGE LINE TO KLAMATH IS STARTED**

A new stage line between Bend and Klamath Falls is being started by W. R. Norton, who plans to make three round trips a week, leaving Bend on Tuesday, Thursday and Saturday. He will make his offices with the City Transfer Co., at 1051 Bond street.

**Tenants Direct Fire Against Soldiers; Lose Many in Return Volley**

(By United Press to The Bend Bulletin.)  
VERA CRUZ, July 5.—Twenty were killed and 75 wounded when soldiers sent to arrest Heron Proal, leader of the tenants' union, were attacked by Proal's adherents, who fired volley after volley into the soldiers' ranks. The soldiers returned the fire, most of those killed and injured being amongst the union members. Proal was finally arrested. Three soldiers were killed.

**MEN POISONED BY MOONSHINE**

**Holiday Demand Results in Sale of Dangerous Liquor—Cases Serious.**

People who sold alcoholic refreshments for the Fourth of July, and more particularly those who bought them, took long chances this year, according to local physicians. A number of serious cases of poisoning occurred, they report, most of them being among boys or young men.

The poison produced symptoms closely corresponding to those of strychnine poisoning, the patients having no trouble with their eyes, indicating that wood alcohol was not in use. All of the victims are now out of danger.

It was a case of a holiday demand greater than the supply of reasonably pure moonshine, and the vendors, to meet the demand, sold liquor which was unsafe, the physicians believe.

**PLAN TO PLANT MOOSE BLOCKED**

**Burghduff Still in Favor of Stocking, However, He Writes Lodge.**

After receiving from the Bend Moose lodge a letter of commendation for the action of the state game commission in making arrangements to stock the country about the headwaters of the Deschutes river with the animal from which the fraternal order takes its name, State Game Warden A. E. Burghduff has written the Bend lodge, stating that "someone has thrown a monkey wrench into his plans," and that as a result the bringing of moose to Central Oregon this year is extremely doubtful. He has not given up the plan, however, for he considers the moose to be one of America's most splendid game animals, and the country selected ideal for planting the nucleus of a herd.

**IRRIGATION CASE SET FOR JULY 14**

Final hearing in the case of the Squaw Creek irrigation district vs. H. Mamer, involving water rights, has been set by Circuit Judge T. E. J. Duffy for July 14.

**JEWELL READY TO CONFER ON STRIKE ISSUE**

**Union, Labor Board and Roads Hopeful**

**MANY TAKE BACK JOBS**

**Last Day on Which Pension and Pass Privileges May Be Saved Taken Advantage of in Coast Shops.**

(By United Press to The Bend Bulletin.)  
CHICAGO, July 6.—Bert Jewell, head of the shop crafts union, now on strike, announced today that he was willing and ready to confer on any reasonable basis. The railroads and the labor board know how to proceed if they want peace. It's their move, he said.

Hope for quick settlement of the strike was expressed by union, board and railroad officials.

**SHOP MEN RETURN**

SAN FRANCISCO, July 6.—Four hundred and thirty-four striking shopmen returned to their work in the Southern Pacific coast shops at Sacramento and Los Angeles this morning, thus saving their seniority, pensions and pass privileges, according to railroad officials' claims.

**SENIORITY RIGHTS SAVED**

PORTLAND, July 6.—Six hundred and seventy men were on the job today in the O.-W., S. P., and S. P. & S. shops here today. Approximately 1,000 are still out. Ten per cent of those on the jobs are strikebreakers. The railroads reported that many more men are dribbling back as the day advances. Today was the last day that the men could return with their seniority and pass privileges intact.

**SCHOOLS WILL DROP SUBJECTS**

**Economy Dictates Cut—Board Members Seek Way to Finance.**

Probability exists that four of the departments of the Bend scholastic last year will not be continued during the coming school year, although a determined effort will be made, it was indicated by several members of the school board at last night's meeting, to have manual training and domestic science on the course of study this fall. Discontinuance of these two departments, and in addition music and physical education, and of the position of school nurse, was decided on as an economy measure after the defeat of the last school budget.

The board confirmed its action at the last meeting in June to appeal the action for breach of contract in which judgment was given Frank I. Rockwell by Circuit Judge Robert G. Morrow. The board considered this action to be necessary to dispose definitely of the question of the board's legal right to retain the services of an athletic coach. Success of the appeal was predicted by R. S. Hamilton, counsel for the district.

Resignations of Miss Helen M. Abel and Miss Lois Kellogg from the local teaching staff were accepted.

**MOTORISTS FLIRTING WITH DEATH, STATED**

"Bend motorists who have a habit of disregarding the 'stop' signal at the Franklin avenue crossing may be interested to know that that was just what A. M. Garrett was doing in Portland Sunday when a train struck his bakery truck and killed him," was the warning issued by J. C. Wright, local station agent, today. Many local drivers make a practice of stepping on the gas when they see the warning, instead of stopping for the train to go by, Wright says.

**GARRETT FUNERAL IS AT SILVERTON**

Funeral services for William W. Garrett, shot and killed here Saturday night by Edward Halvorsen, were held yesterday in Silverton. The body was shipped there Monday night.

**FLAMES LEVEL WENDLING MILL, TOWN MENACED**

**Threatening Letter of Firebug Recalled.**

**TIMBER IS ATTACKED**

**Fire Eats Way Along 14 Mile Front in Tillamook County—Sawmill Loss of Three Days May Reach \$750,000.**

EUGENE, July 6.—The Booth-Kelly sawmill at Wendling burned to the ground this morning. Townspeople and employes fought desperately to save the planing mill and stored lumber. The town was threatened, and fire fighters were rushed from Springfield and other nearby towns.

That the fire which destroyed the Booth-Kelly plant at Wendling, one of the largest and most up to date in the northwest, may have been caused by an incendiary, is a possibility which officers from the state fire marshal's office may be called on to investigate. Last year mill officials received an anonymous communication threatening destruction by fire unless certain conditions were met by the company. A thorough probe was conducted at that time, state officers being assisted by Sheriff Stickles of Lane county. The identity of the author of the threat was not learned, however.

**FOREST FIRES RAGE**

PORTLAND, July 6.—Fires raged in three forest zones in the northwest today. In Oregon, fire on a 14-mile front bit its way into virgin stands of timber in Tillamook county. In Washington flames raged in the Olympic forest and north of Spokane, where they threatened the town of Ione. Three great sawmills were burned in Oregon in the last two days, totalling losses of \$750,000.

**GERMAN INDUSTRIES SEE WORLD MARKET**

**Plan To Develop Special Lines of Business To Supply All Nations.**

(By United Press to The Bend Bulletin.)  
BERLIN, July 6.—German dreams of a world business conquest have undergone radical alteration in the past year. The dream today is to develop certain special lines of business so that they can stand alone—able to meet any comers in the business field—rather than to try either for mass production, cheap goods, underselling those of other countries, or a flood of knick-knacks—like toys, cheap hosiery, chinaware, glass and a few other things for which the Germany of the past was noted.

So the electrical experts are planning on keeping up their present trade in Europe and at home, and developing certain specialized instruments requiring accuracy and precision in construction, in which German workers excel, and putting these on the world market. In certain of these lines, they would have almost

No other games.

**What Becomes Of White Trout? Many Hatched But None Caught; Life Of "Siamese Twins" Short**

What happens to albino trout? Do they develop pigment to tint them as other fish of their species are colored, or are they so conspicuous among others of their kind as to be quickly attacked and eaten by their cannibal brothers and sisters?

These are questions which Pearl Lynes, superintendent of the Tumalo hatchery, hopes to answer some day. At present he can't. In each strain of trout handled at the hatchery there are in every trough of eggs some which hatch albino minnows, entirely white with the exception of the eyes, which are pink. They are apparently as strong and vigorous as ordinary trout, and are planted in lakes and streams with the others. But no such colorless fish are ever caught by anglers, Lynes says. By segregating the albinos and watching their development over a

period of years instead of planting them, he hopes to find an answer to the puzzle.

This is not the only freak in fish life which comes to Lynes' attention, however. There are "Siamese" twins, two headed fish, and one eyed trout. These usually die after an existence spanning but a few days, says Lynes, but one two headed steelhead lived for three months.

In setting at Elk lake to take the spawn from adult trout, oddities are frequently found, such for instance as the fish with a fin joined direct to his body and without a true tail.

Rainbow eggs are now hatched at the plant on Tumalo creek, and more will be brought in shortly. Three hundred and forty thousand will be hatched at Odell lake and turned back at once to save transportation.
