

USE OF TROOPS DISPLEASING TO UNION LEADERS

Means of Backing Strikers Considered.

TEXAS TROOPS READY

Investigation to Be Made Before Preside. Gives Order—Shop Men Restrained from Hinder- ing Workers.

(By United Press to The Bend Bulletin.)

WASHINGTON, July 14.—American Federation of Labor heads will strongly oppose the use of federal troops in the rail strike, it was stated today. Labor leaders said that a specially called meeting of labor union presidents now in session here was certain to take a denunciatory vote on the Weeks policy.

While President Harding and the cabinet met at the White House to decide what further steps they should take to insure uninterrupted transportation of the mails and interstate commerce, and to end the mine strike, labor leaders were meeting a few blocks away, discussing means of backing up the strikers.

The American Federation of Labor apparently is anxious for the strike to succeed, from the workers' viewpoint.

Labor leaders generally believe that the use of troops will only aggravate the situation.

TROOPS IN READINESS

SAN ANTONIO, Texas, July 14.—Federal troops were held in readiness at Fort Sam Houston and Camp Travis today to enforce President Harding's proclamation against interference with the mails and interstate commerce. Orders to move into trouble centers are "expected any minute," according to Major General Hines, commanding.

According to information from Austin, Governor Neff has ordered an investigation as to the necessity for troops, state or federal, at Denison and other riot centers.

PROBE IS ORDERED

WASHINGTON, July 14.—President Harding, after a conference with Secretary Weeks, today ordered a federal investigation of the shop strike situation at Denison, Texas. Troops will not be sent unless the investigation determines that this is needed.

E. P. GIVEN INJUNCTION

CARSON CITY, Nev., July 14.—The federal court here today, on the plea of the Union Pacific railroad, granted an injunction restraining shop men from interfering with workers in the Union Pacific shops at Las Vegas, Nevada.

SUBPOENAS ARE OUT IN E. L. CLARK CASE

Burton Oney to Be Witness for Government at Hearing in Federal Court Monday.

Subpoenas in the case of E. L. Clark, La Pine merchant, charged with conspiracy to defraud the government, were being served yesterday by Lee Morelock, deputy United States marshal. Morelock leaves tonight for Portland.

Among witnesses for the prosecution is Burton Oney, former forest ranger at La Pine, against whom a charge similar to that against Clark is on file. Hearing in federal court is expected to begin Monday.

WILL BRING BACK BEND BOY SCOUTS

To bring back the Bend Boy Scout troop from Elk lake, where they have enjoyed a 10 day outing, five cars will leave tonight for the camp. Among those who will go are C. P. Niswonger and Lloyd Craven. The others have not been designated. They will be guests of the Scouts in camp over night, returning to Bend about noon tomorrow.

HIGHWAY COMMISSION DUE HERE SATURDAY

Newspaper reports of the progress of the state highway commission on its tour through Oregon indicate that the commission will reach Bend tomorrow, coming in from Lakeview.

Harding Has Power to Seize Coal Mines in Emergency, He Believes

WASHINGTON, July 14.—President Harding believes he has power to seize the nation's coal mines without further authority from congress in the event of a grave emergency arising from the coal famine, it was officially stated at the White House today.

It was indicated, however, that no such action is contemplated in the near future.

TUMALO WORK STARTS SOON

Contractor to Be in Tomorrow and Bond Sale Will Be Made.

Immediate action to start construction work on the new Tumalo feed canal is forecast in the announcement this morning by Fred N. Wallace, secretary of the Deschutes County Municipal Improvement district, formerly the Tumalo Irrigation district, that A. J. Welton, head of the United Contracting Co., contract holder on the work, will be in Bend tomorrow to go over the line which will be followed by the canal which is to divert water from the Deschutes river to the existing feed canal.

Tomorrow noon the district directors will open bids on the \$299,000 worth of bonds remaining unsold from the \$550,000 issue of last year, and on Wednesday, July 21, the contract is to be let for construction of the Crescent lake storage dam, which will provide the surplus flow which is to be taken out of the Deschutes river at Bend.

Planning a stay of several days in this vicinity, Percy A. Copper, state engineer, arrived in Bend this morning, the chief purpose of his visit being the inspection of Tumalo plans and surveys. He is also interested in the circuit court case of the Squaw Creek Irrigation district vs. H. Mamer.

WOMAN KILLED WIDOW, THEORY

Jealousy Caused Use of Hammer, According to Alleged Confession.

(By United Press to The Bend Bulletin.)
TUCSON, Ariz., July 14.—A woman believed to be Mrs. Clara Phillips, declared by her husband to have murdered Mrs. Alberta Meadows, a young widow, was arrested here today and held for the Los Angeles police.

According to an alleged confession by C. A. Phillips, her husband, the woman lured Mrs. Meadows, whom she accused of relations with her husband, to a lonely road and beat her to death with a hammer.

Then she confessed to her husband. He aided her to escape, then reported the details to the sheriff.

DEVICE RECEIVED TO CLEAN SEWERS

Brass Nozzle Furnishing Own Motive Power as It Washes Pipes, to Be Used.

A self propelling sewer cleaning device has been received by the streets committee of the city council and will be put into use as soon as a sufficient quantity of old hose can be secured.

The device consists of a brass nozzle, having less than a half inch hole. Back of this, four other holes send out jets of water to the sides and rear, cleaning the sides of the sewer pipe at the same time that they send the nozzle forward. The nozzle is attached to an ordinary two inch fire hose.

BEND TRAPSHOOTERS MAKE GOOD SHOWING

Bend's trapshooters gave a good account of themselves in the first day's shooting at the northwest handicap meet in Portland. In the opening practice shoot, L. P. Casselberry made 89 targets and S. T. Fox 92 out of 100, while Dr. W. G. Manning broke 46 birds out of 50.

BRIGHTER SIDE OF FIREMEN'S TROUBLE SEEN

Council Hopes to Preserve Efficiency.

SETTLEMENT SOUGHT

Committees from Volunteer Department and Council Meet—Would Avoid Drastic Action in Police Question.

Belief that an adjustment of fire department troubles can be made without lessening its efficiency or that of the police department, from which the volunteer fire fighters are asking an absolute divorce, was expressed this morning by members of the police and fire committee of the city council, following a meeting last night with a special committee of the volunteers, composed of Owen Hudson, Taylor Rhoads and Roy Loven. While no definite final agreement was reached last night, the firemen's committee decided to report back to the department in an endeavor to settle the question—whether or not Willard Houston shall be retained in office as chief of police—without drastic action.

Police and fire committee members—N. H. Gilbert, J. S. Innes and H. E. Nordeen—offered to see to it that all paid fire fighters should resign from the volunteer organization, but this failed to meet with the approval of the firemen's committee.

Expect Withdrawals

Firemen interviewed this morning were of the opinion that without the resignation of Houston, whose activities, it is claimed, have subjected the volunteers to criticism as "stool pigeons," a number of the older men in the department might be expected to turn in their equipment, even if an agreement were reached between the department and the council. At the same time, however, President Owen Hudson of the volunteers doubted the ability of the council to do anything until the financial rating of the city is stronger, recognizing the policy of combining the office of police chief and fire engineer as a necessary economy move.

"One thing I would like to have made very plain," he said. "The volunteers are not in any way connected with the police. They never have been, and they never will be, and they deeply resent any intimation that any such connection exists."

At the Tuesday night meeting of the fire department, it is expected that the question will be settled definitely, the special committee presenting its report at that time.

FAILS TO KILL FRENCH LEADER

Anarchist Picks Wrong Car in Attempt on Life of Millerand.

(By United Press to The Bend Bulletin.)
PARIS, July 14.—An attempt to assassinate President Millerand of France failed today when Gaston Bouvet, aged 23, a notorious radical and anarchist fired several bullets into the automobile occupied by Chief of Police Naudens, in which Bouvet thought Millerand was riding.

Naudens was uninjured, and no others were wounded. Millerand was participating in a military review in connection with the celebration of Bastille day.

Bouvet was arrested and is alleged to have confessed to a desire to kill Millerand.

HAY HARVESTING IN COUNTY AT HEIGHT

Hay cutting throughout the county is at its height, with the prospect of better than an average crop in most sections. Most farmers are working 12 to 15 hours a day in an attempt to keep ahead of the season. Most of them have sufficient help, according to Glenn A. Slack of the Arnold district and C. R. Geiger, who has a ranch east of Bend, who were in Bend today.

Peels Spuds and Asks for Senate Vote

From spuds to Senate is quite some hurdle, but the confident Mrs. Annie D. Olson, of Minnesota, is not afraid to pose in kitchen frock in asking the voters of the state to send her to the U. S. Senate in place of Frank B. Kellogg, the present Republican Senator. Mrs. Olson does not let her campaign interfere with housework, as one wide awake photographer found when he called at the home. Political wisecracks say Mrs. Olson is piling up hundreds of votes in her campaign.

Auto Wrecked, Sheriff Killed, Deputy Injured, Slayers Gain Freedom

NOGALES, Ariz., July 14.—Sheriff George White of Santa Cruz county was killed and Deputy Sheriff Leonard Smith seriously injured with the automobile in which they were conveying two convicted murderers to the penitentiary overturned on the Tucson-Nogales highway. Both prisoners escaped; posers are pursuing.

SEES NEED FOR WOMAN SOLON

Mrs. Ben Hooper, Wisconsin Candidate, Asks more Humane Outlook.

(By United Press to The Bend Bulletin.)
OSKOSH, Wis., July 14.—"I think there is a great need for women in the United States Senate."

This statement was made to the United Press by Mrs. Ben Hooper, who will be the Democratic candidate for United States senator from Wisconsin at the fall election.

Mrs. Hooper will run against either Robert S. La Follette or William Ganfield, who are contestants for the Republican nomination. Permanent world peace, protection of the home and harmony between all nations are the questions Mrs. Hooper will agitate if elected.

"Simply because it is a new thing for women to hold public office does not mean they are not fitted for it, or will be out of place," continued Mrs. Hooper. "What is needed today is more women holding public offices. I feel strongly the need of women in the senate. The woman's viewpoint is needed. A woman has ideas and views far different than those of men. I hardly know whether to call it a 'gentler' viewpoint. Perhaps it is just a more humane outlook."

"At any rate, women take more heed of the humane side of life; and that is sorely needed right now."

Country Needs Women

"The country needs a woman's viewpoint in many of the vital matters that are now before Congress. It is because of my desire to continue my work on world peace that I am willing to go into this fight and go into it with an idea of winning," she said.

Mrs. Hooper, extremely practical, businesslike, firm in her convictions and not over "sentimental," declared that she was in the fight to win and that she would give the opposition a hard run.

PLAN MANY FEATURES FOR EDITORS' MEETING

CORVALLIS, July 14.—An address by Roy Rodgers of the San Francisco Bulletin editorial staff, a free excursion to Newport, swimming in the college pool, and a banquet cooked and served by co-eds are among the entertainment features for the visiting editors of the state when they assemble for their annual convention July 21 to 23.

The summer session water carnival is booked for one of the evenings during the meetings of the scribes, and diving mermaids and several champions will perform for the visitors. The address by Rodgers on "The Newspaper as an Educator" will be given July 21, the speaker being obtained by the college, which is cooperating with the local newspapers and the Corvallis chamber of commerce in working out a program of interest. Dancing, swimming, fishing and seafood supper are offered as items of interest in the Newport trip, which comes at the end of the meeting.

Albert Bede, editor of the Cottage Grove Sentinel, and Hal E. Hoas of the Oregon City Enterprise, secretary, are arranging the program.

HOPE OF PEACE WITH STRIKERS HIT HARD BLOW

Stationary Firemen, Engi- neers to Quit Monday.

300,000 MAY WALK OUT

Maintenance of Way Men on Verge of Strike—Head of Union Seeks Amendment of Trans- portation Act.

(By United Press to The Bend Bulletin.)

CHICAGO, July 14.—Hopes for settlement of the rail strike failed today as 14,000 stationary firemen, engineers and oilers were ordered to be ready for a walkout at 8 o'clock Monday morning.

Edward Garble, head of the maintenance of way union, on leaving here for his Detroit headquarters, declared that unless the railroads cease ordering members of his union to do the work of strikers, a strike of his 300,000 membership is inevitable.

Garble conferred with both Jewell and Hooper regarding this situation.

Garble, after going to Detroit, said he would go to Washington and place the entire railroad labor situation before President Harding, members of congress, and the interstate commerce commission. Garble will work for an amendment of the transportation act which created the railroad labor board.

BUILDING RUSHED IN FIRE RAVAGED TOWN

Prineville Already Recovering from Effects of Disastrous Blaze of Last Month.

With three new buildings already more than half completed and work to start in the new Prineville hotel in 10 days, the Crook county seat is rapidly recovering from the disastrous fire of last month, declared Jay H. Upton of Prineville on a visit to Bend today.

A two story building belonging to Mrs. J. B. Shipp was left with two walls standing, which are now being used in new construction. Other buildings are one story structures being erected by Richard Spallinger and John Becass. Bend brick is being used.

GAMBLERS PREY ON NEW NAVY RECRUITS

(By United Press to The Bend Bulletin.)

VALLEJO, Cal., July 14.—Many pool hall dealers openly boast that they get the entire pay checks of new navy recruits, according to Admiral J. S. McKean, commandant of Mare Island, in a warning to sailors to stay away from pool halls in Vallejo operating gambling games in connection with the billiard attraction. He claims that many establishments exist through playing the enlisted man as a "sucker."
