### WOMEN IN SPORTS IS FRENCH ISSUE

Few Athletic Activities Are Open for Gentler Sex, Is Expressed Belief.

(By United Press to The Bend Bulletin.)

PARIS, July 14.—Should women in France take up sports and if so to what extent?—That is the question which French women are now debating in the press.

It is a question that would have shocked the last generation and which this generation considers only with reserve, the general consensus of opinion being that the chief role of woman is in maternity, which prevents her partaking of violent exercise.

Some women have expressed the opinion that "sports spoil the figure and that it destroys a woman's grace and strips her of her feminine charms."

One woman asks: "What sports can a woman take up if she has servant trouble and the education of her children to look after, besides flirting and gossiping?"

Another believes that there are only a few sports which women should take up and enumerates them. Walking, running, swimming, rowing, bicycling, tennis and fencing.

A young girl writes that of 10 of her friends 7 have expressed a desire to take up sports, but 4 of these are forbidden to do so by their parents and the other 3 are too busy.

Only a few favor sports as beneficial to health and the welfare of the future generation.

### CONSIDERS ALBINO TROUT POSSIBILITY

Portland Fisherman Recalls Spear- ing of White Pickerel in Minnesota Lake.

Possibility that albino trout may be successfully brought to adult growth is indicated in a letter received today by Pearl Lynes, Tumalo hatchery superintendent, from S. T. O'Neill of Portland, based on a news story recently published to the effect that while albino trout are frequently hatched and planted, none so far as is known, have ever been caught.

"Noted your article in local paper," writes O'Neill, "and am interested due to the fact that I once speared a two pound albino pickerel.

"I think that you will find it possible to raise a species of albino trout by separating them from the others while young.

"The fish I speak of was silver scaled and pink eyed and was speared in Fort lake, Minnesota, about 1912."

### HATCHERY WILL GET MORE RAINBOW EGGS

One hundred and seventeen thousand rainbow trout eggs, brought by auto from Klamath, are now in the troughs at the Tumalo hatchery. Tuesday employees of the plant on the Tumalo will go again to Fort Klamath for a consignment of spawn at least as large.

### Aunt Mandy's Code.

In Georgia they tell of the old black cook who was horrified to discover that one of the younger negroes, a helper in the kitchen, had been caught stealing. "Now," said Aunt Mandy, "I don't believe in stealin'. I never takes nothin' 'cept it's something to eat, or something to wear, or something what I thinks de missus don't want, or something de boss is got too blind to miss!"—Harper's Magazine.
