

DRY WEATHER BRINGS FIRE DANGER ANEW

Towns Menaced in Oregon and Washington.

RUSH PLANES TO AID

Mather Field Sends Seven Craft to Patrol Timber—Controlled Fires May Break Out Again, Feared.

(By United Press to The Bend Bulletin.) PORTLAND, July 15.—Forest fires spotted in the northwest again today are the result of continued dry weather.

Timber in all parts of western Washington is menaced by new blazes. Logging companies report camps destroyed or threatened in Grays Harbor county, Washington.

Seven army airplanes were sent northward from Mather field, Sacramento, Cal., and were to land at Eugene this afternoon and be given routes for patrolling fire stricken sections of the northwest.

Logging Trestle Burns

Fire near Powers destroyed a thousand feet of logging road trestle and burned a million feet of felled logs.

A serious fire rages in the Gold Mountain district in this section. In northwestern Oregon the Hammond and Wheeler lumber companies report the situation the same, with danger of controlled fires spreading from a stiff breeze.

WORK TO BEGIN IN TWO WEEKS

Tumalo Job to Employ 400 Men, Is Announced by Contractor Welton.

Work on the diversion canal for the Tumalo project will be begun in the next two weeks, was the statement today of A. J. Welton of the United Contracting Co., which holds the contract.

Transfer of bonds amounting to \$350,000 for the construction of the Tumalo project was being made by the Deschutes County Municipal Improvement district to the United Contracting Co. today, the bonds being signed by district officials and County Treasurer Clyde M. McKay.

The remaining \$200,000 worth of bonds has not been sold, it was stated today by Fred N. Wallace, district secretary. The bonds are being held for the successful bidder on the Crescent lake contract, according to Wallace. Bids were to have been opened today.

MASONIC BUILDING SITE IS SELECTED

Lot Is Opposite the Hippodrome—Building Association for Order Is Named.

A lot on the corner of Louisiana and Wall streets was definitely chosen this week as the site for the proposed Masonic temple, it was announced today. The lot is directly across Wall street from the Hippodrome and is 100 by 150 feet in dimensions.

A permanent building association was named, each Masonic body of Bend being represented, as follows: A. Schilling, J. C. Rhodes, A. A. Anderson, K. E. Sawyer and Mrs. J. C. Vandeventer.

FIND LOST MAN FROM LA PINE AFTER 7 DAYS

Cavanaugh to Recover from Exposure and Long Fast.

CONDITION IS SERIOUS

Barber Taken Ill While in Bend, Starts Walking Home, Falls Near Arnold Ditch, Memory Is Faint.

Nearly seven days of exposure, without food, will be survived by Henry Cavanaugh, La Pine barber, who was found this morning on the road three miles south of Bend, near the spot where he had lain, ill and most of the time unconscious, since last Saturday. During all that time he has been missing from La Pine. He was found by W. H. Hollinshead, who was accompanied by Mrs. Cavanaugh, early this morning.

Cavanaugh came to Bend last Friday. On Saturday at 2 o'clock, renouncing a ride with a stranger who was driving toward La Pine, he started to walk in that direction. He got no further than the Douglas Johnson ranch, three miles from Bend and just south of the Arnold ditch, where he evidently became too ill to travel farther, and lay down in a concealed spot among the trees and brush.

Memory Fails

When found today, Cavanaugh could tell nothing of his experiences. He thought he had been there only four days. Hollinshead and Mrs. Cavanaugh had come to Bend last night after searching along the road and had started back toward La Pine, almost despairing of success, when they encountered the missing man.

Cavanaugh was taken to La Pine, where it was declared that while his condition is serious, he will live. He had sustained no injuries.

G. A. R. COMMANDER OF OREGON HERE

Duncan L. McKay Visits with Son—Will Meet Local Veterans at Banquet Tonight.

Commander Duncan L. McKay of the department of Oregon, G. A. R., arrived in Bend last night and will meet with the Civil war veterans of Bend tonight in a banquet at the Pilot Butte Inn. The newly elected commander is visiting with his son, Clyde M. McKay.

Duncan L. McKay entered the army at the age of 16, shortly after his arrival in the United States from Scotland, and served with the 99th New York volunteers until he was taken prisoner in Virginia in 1864, spending 15 months in confederate prisons.

HUGE POWER PLANT TO BE READY SOON

(By United Press to The Bend Bulletin.) REDDING, Cal., July 15.—"Pit Number One," the largest hydro-electric power plant in America, will be in operation in September, according to present plans of the Pacific Gas & Electric company.

The plant is on the Pit river in Shasta county. Its electric capacity will be 93,000 horsepower, which will deliver 220,000 volts to San Francisco and the bay region for industrial purposes. The daily output of energy will be 350,000 kilowatts, which is enough energy to drive 50 per cent of the passenger trains in the country.

HAY RATE CASE TO BE DECIDED SOON

A decision in the freight rate case in which the Oregon Hay Growers' Cooperative association, and Redmond and Bend sought to overcome rate discrimination alleged against growers in Central Oregon, is expected within six weeks, according to a letter received this morning by Secretary L. Antles of the Bend Commercial club from L. A. Hunt, manager of the association.

MINE WORKERS GIVE NO HEED TO PRESIDENT

Administration Policy May Prove Inadequate.

SENATE BILL LOOMS

Coal Control Measure Empowering President to Take Over Mines, to Be Presented—Secretaries Confer.

(By United Press to The Bend Bulletin.)

WASHINGTON, July 15.—Despite President Harding's threat that the federal government would seize and operate the mines and the railroads should the industrial situation become sufficiently grave to warrant it, the administration's policy seemed doomed to failure today.

The united mine workers' policy committee, meeting here, seemed certain to reject the proposal to arbitrate the coal strike by a commission. The emergency coal control bill, empowering the president to take over and operate the mines until the country's winter needs have been provided for, may be presented to the senate within a few days.

May Modify Policy

Meanwhile, the government is marking time on its threat to use federal troops in handling the rail strike situation.

President Harding called Secretaries Hoover, Davis and Fall into conference this afternoon. It was believed that this involves modification of the administration's "standpat" policy on the settlement of the coal strike. There is renewed hope that a settlement may be effected.

MILL CHANGES AID EFFICIENCY

New Moulding Equipment on Way—Relieve Planer Congestion.

Relieving congestion in the Brooks-Seanlon planing mill, moulding machinery is being moved from that department, this change, with introduction of new moulding machinery of the latest and most up-to-date type necessitating an enlargement of the factory building. One of the new machines is already here, and another, now on the way, will be received in about a week.

A change in the arrangement of machinery in the box factory will be involved.

With the introduction of new equipment, which will include additional band rip saws, all to be installed in the west end of the box factory building, the Brooks-Seanlon Lumber Co. will have the best and most up-to-date moulding department in the west, General Manager H. K. Brooks stated today.

He added that a number of other changes in various departments of the plant which will result in greater efficiency, are under consideration.

MURDER OF WOMAN PROBED BY POLICE

Mrs. Clara Phillips, Arrested in Tucson, to Be Arraigned in Los Angeles.

(By United Press to The Bend Bulletin.)

LOS ANGELES, July 15.—Police are thoroughly investigating events leading up to the bloody hammer murder, when Mrs. Clara Phillips, according to her husband's confession, killed Mrs. Alberta Meadows, charging her husband with improper relations with her victim.

Mrs. Phillips was arrested in Tucson and will be brought here for arraignment only.

SAGE HEN SEASON OPENING IS TODAY

Today marked the opening of the sage hen season, with an abundance of birds reported in the Wagon tire mountain country. In Long Hollow, hitherto one of the best hunting grounds for sage hens, few birds are to be found, according to Herbert Angell, Crooked river rancher, who was through that section this week.

La Pine Population Goes To Portland; Will Testify In Federal Court Case Charging E. L. Clark With Conspiracy

The population of La Pine is in Portland or on its way there today to give testimony in the case of E. L. Clark, La Pine merchant who is charged in federal court with conspiracy to defraud the government. Allegedly "padded" statements to the forest service for supplies are the basis of the charges. Burton Oney, former forest ranger at La Pine, is named as a defendant on a like charge. The trial is to start Monday.

Matt Raber, and W. R. Riley, of Bend, and Frank Sellman of Grandview, all witnesses subpoenaed in the case are of La Pine. Residents of that town who will attend the trial are Douglas Johnson and family, William Foss, E. L. Clark, E. K. White, Felix Springstube, Carl Wise, John Blew, W. G. Fordham, Fred Shintaffer, W. E. Beasley, Burton Oney, Glen Howard, J. L. Howard, James Black, Arthur Waters, N. E. Jones and Mrs. J. S. Berge. Three families are left in La Pine today.

MILL OFFICIALS SEE DISASTER IF FIRE VOLUNTEERS DISRUPTED

Milwaukee Bandits Use Sawed Off Shotguns to Get Factory's Payroll

(By United Press to The Bend Bulletin.) MILWAUKEE, Wis., July 15. Five bandits armed with sawed off shotguns and automatic pistols held up and robbed the paymaster of the Edmonds Shoe company here today. They escaped with a \$12,000 payroll.

Efficiency Great Asset to Town and Plants, Says Brooks.

Declaring that it would be nothing short of a catastrophe to allow anything which could be adjusted to interfere with the efficiency of the Bend volunteer fire department, H. K. Brooks, general manager of the Brooks-Seanlon Lumber Co., when interviewed this morning, expressed appreciation of the department's work. He voiced also his hope that nothing would occur as the result of the recent demand for a separation of the police and fire departments which would tend to break down the organization perfected by the fire fighters.

BUILDING HERE AT HIGH MARK

Theater Started—Work in Downtown District Is Greatest in Years.

Commencement of construction on the Carmody theater building today marks a period of the greatest amount of downtown building which Bend has experienced for a number of years. In addition to the theater building, the largest started here in several years, a number of other business structures are under construction, among them the new home for the Bend Water Light & Power Co., walls of which are going up; the Dragich building on Bond street, on which all of the walls except the front were completed today; the American Express office and store-room near the union station, the frame and roof of which have been completed.

While the amount of building shown on the permits issued during June and the early part of July is not so great as that earlier in the year, it is probable that more artisans are employed here at present than at any time during the year. Work is progressing rapidly on the new Methodist church, and the construction of the new kilns at the Shevlin-Hixon plant employs a number of men.

Clyde Weittenhiller is building a three room frame dwelling at 15 River Terrace, which will cost \$1500. L. F. Douthit, F. H. St. Clair and C. C. Brown are all building additions to their garages.

RADIO EQUIPMENT FOR LEGION COMING

Complete Set Will Be in Operation Within Three Weeks, Says Chairman McLelland.

After what has seemed an interminable delay, the final equipment for the American Legion radio set, part of which has already been put up at the Legion building, will arrive here next week, according to word received by J. H. McLelland, chairman of the Legion committee in charge. By ten days later it will be installed, McLelland stated today.

The equipment coming consists of a detector, power amplifier, magnavox, transformers and power tubes. C. G. Seward and Carl Austin will be in charge of installation.

GUARDS FIRE UPON JAILED INSURGENTS

(By United Press to The Bend Bulletin.) DUBLIN, July 15.—Several jailed insurgents were wounded today when guards fired into them to quell an ineffectual rebellion in the Mount Joy prison.

FINISH FIGHT PROSPECT IN SHOP STRIKE

Opposing Forces Irreconcilable, Feared.

HOOPER WORKING ON

Chief of Railway Labor Board Continuing Conferences, But Little Hope of Industrial Peace Is Seen.

(By United Press to The Bend Bulletin.)

CHICAGO, July 15.—Fight to a finish between railroad shop men and employers is in prospect today. The two forces are irreconcilably opposed and no settlement of labor difficulties can possibly be effected before an extended battle is finished, according to the highest authority here.

Railroads are going ahead with plans to operate their shops with strikebreakers on a greater scale. Labor agencies are flooded with requests for men. Unions are organizing their "fighting force" in preparation for a long struggle.

CHICAGO, July 15.—Ben Hooper, chairman of the United States railroad labor board, today continued his conferences with railroad executives and union heads to effect a strike settlement. Hopes of his success are slim.

The union is preparing for a long drawn out strike.

The prevailing opinion is that either the roads or the unions must relinquish their uncompromising attitude before there will be any chance for a settlement.

SCOUTS RETURN FROM ELK LAKE

Boys Slide Down Broken Top—Clear Century Drive While on Outing.

Members of the Boy Scout encampment, except Scoutmaster J. Edgar Purdy and four Scouts who stayed with him to assist in loading the camp equipment onto the truck which will bring it back to Bend, have all returned from Elk lake, where they spent the last 10 days in hiking, fishing, swimming and a general good time. They were brought back by K. B. Weil, C. P. Niswonger and Lloyd Craven.

Yesterday was spent in a hike to (Continued on Page 4.)

MAJOR LEAGUE SCORES

Table with columns for National League and American League, listing teams and scores.
