## THUNDER STORM BRINGS RELIEF FROM THE HEAT

### More Than 200 Death Toll for Month

## FORECAST FAVORS

### Lower Temperature to Be General Within 48 Hours, Prediction Made

(U. P. Leased Wire to The Bend Bulletin)  
First break in the terrific heat wave which has blanketed the eastern half of the United States since Monday came late today in Pennsylvania, where a rainstorm drove the temperature from 92 to 77 in two hours. About the same time, Eastern Ohio was hit by a heavy thunder storm.

The same relief is predicted by the weather bureau for other eastern sections within the next 48 hours.

While Pittsburgh was enjoying the first relief from the stuffy blanket of heat, other eastern cities reported continued hot weather and additional deaths that brought the total for the last 24 hours well above 100. More than 200 have died from the heat since last Monday.

A survey at 3 p. m. by the United Press showed the following deaths from the heat in the past 24 hours: Greater New York, 31; Philadelphia, 25; New Haven, Conn., 19; Pittsburgh, 5; Detroit, 5; Chicago, 4; Baltimore, 4; Wilmington, Del., 2; Cleveland, 6; Albany, N. Y., 4; Milwaukee, 1; Indianapolis, 4; Boston, 2.

## MORE RECORDS BROKEN

INDIANAPOLIS, Ind., June 6.—The heat wave claimed four more lives in Indiana during the last 24 hours. Two deaths were reported earlier in the week. A score or more persons were prostrated yesterday.

MILWAUKEE, Wis., June 6.—One person was killed and seven were overcome by the heat of the past 24 hours. The mercury reached 94, never before touched so early in the season.

CLEVELAND, June 6.—Ohio heat deaths mounted to 34 today. Heat caused the deaths of two in Cleveland yesterday, as the temperature rose to 95.

DETROIT, June 6.—Thousands of Detroiters were leaving the city by boat, rail and automobile as the sixth day of heat began. Many concerns shut down after two hours this morning and others did not open. Yesterday, five lives was the sweltering heat's toll. This ran the week's total to nine.

OKLAHOMA CITY, Okla., June 6.—With a strong wind blowing, no suffering from the heat has been reported. The temperature for the most part has remained under 90 throughout the week.

KANSAS CITY, Mo., June 6.—Kansas and Western Missouri continued to slowly sizzle under a blazing sun today. Temperatures ranked in the 80's yesterday with no relief promised over the week end.

## Surveys Are Started, Strahorn Announces

(U. P. Leased Wire to The Bend Bulletin)  
KLAMATH FALLS, June 6.—Robert E. Strahorn, president of the Oregon, California and Eastern railway, announced today that surveys are being started between Klamath Falls and Malin, in the Tule lake region, a distance of 30 miles.

The survey commission has been given permission to use financial aid by Strahorn Southern Pacific backing his plan.

## Mans Charged ar Driver

(U. P. Leased Wire to The Bend Bulletin)  
TACOMA, Wash., June 6.—Investigative officers of the Tacoma police department today charged a man with driving a car recklessly and endangering the lives of others. The man, who was driving a car on the highway, was arrested after a collision with a car.

## Boxer Makes Weight; Saves Huge Forfeit

### Salvadore Signs Agreement For Exact Poundage

### Flashy Western Fighter Posts Certified Check to Make 136 Pounds Or Lose \$2,500

(U. P. Leased Wire to The Bend Bulletin)  
LOS ANGELES, June 6.—Phil Salvadore, flashy western lightweight, who meets Sammy Mandell of Rockford, Ill., in a 10 round bout at Ascot Park tonight, saved a \$2,500 forfeit late today by fulfilling one of the most unusual weight agreements ever made. Salvadore weighed in before Seth Strelinger, president of the California boxing commission, at exactly 136 pounds.

Under the terms of an agreement he signed with Mandell, the Sacramento Italian had posted a \$2,500 certified check that he would come in at exactly that weight.

The three remaining principals on the Ascot card also made the required weight. The poundage of Mandell was announced at 135½ pounds. Ace Hudkins, sensational Nebraska lightweight, who will meet Tommy O'Brien, weighed 135 pounds, while O'Brien topped the beam at 134.

## Springs From Precipice Overhanging Willamette

(U. P. Leased Wire to The Bend Bulletin)  
PORTLAND, June 6.—Ralph Waldo Elden, advertising man and graduate of Northwestern university, chose to commit a dramatic suicide when he sprang from a 300 foot precipice at Elk Rock near here to the Willamette river below.

After his disappearance, the first clue to his whereabouts developed when his automobile was found near the top of the bluff. Harbor police then dragged the river and found his body.

## Tourist Business Is Good At Elk Lake, Host Reports

The biggest tourist business which the Elk lake resort has ever had at this time of year, is now being enjoyed. Manager Allen Wilcoxen reported while in Bend today. Last Saturday 70 people took dinner at the resort.

The fishing is good at Elk lake, Wilcoxen says.

## Beach Crowds Gasp At Film Stars' New Pajamas

### They're Worn Over Bathing Suits But Los Angeles Convention Delegates Linger Longer

(By United Press Leased Wire to The Bend Bulletin)  
HOLLYWOOD, June 6.—Wearing hand painted pajamas on the beaches is the latest Hollywood sensation.

Gloria Swanson and other noted studio beauties started the silk fad today.

Throngs of week end beach goers gasped at the display. Visiting shriners scheduled to board eastbound trains, cancelled their reservations and flocked to the watering places where the pajama clad stars were strutting the new mode.

The pajamas, of vivid hue, hand painted and cubistic in effect, were worn as lounging suits on the sand. They are of silk texture, of course, and buttoned in front.

Underneath, for actual swimming, the stars wore the usual abbreviated bathing suits, one piece and tight fitting.

Lido, Italy, smartest of continent board walks, gave birth to hand painted beach pajamas, according to Howard Greer, noted designer of screen fashions. Gloria Swanson, let it be known, brought them to California beaches with a special dash. Gloria's pajamas are a parody on the old fashioned kimono, painted with gay squares in cubistic design and lined with soft wool kasha. She and the Marquis de La Falais, her new imported husband, were at the exclusive Del Coronado beach today, sporting with other film notables, pajama clad also.

One of the most striking effects seen was worn by Esther Rabston at Santa Monica beach. Miss Rabston wore an imported pair of pajamas, painted with a maze of bright triangles, in vari shaded blue, green and orange, Chinese in effect.

Greta Nansen, Norwegian beauty, recently elevated to film fame, and a number of friends in her party at Santa Monica, wore pajama clad. She wore yellow trousers with a white jacket, painted with huge red roses. Betty Compton, who, with her husband, James Cruze, entertained a number of film friends, wore a pair of gay men's silk pajamas of solid color, embroidered with freakish animal designs—elephants, fish, dogs and pelicans.

Bessie Love wore a striking pair of lavender pajamas with a long jacket and extra wide trousers. She carried a crimson muffler of fuchsia shade about her shoulders and added a boyish effect to the costume by carrying a silk handkerchief in the breast pocket.

## STATE TO TEST REBATE ON TAX IN HIGH COURT

## Mandamus Action Filed In Coos County

### MAY AFFECT HERE

### Deschutes County Court to Consider Local Bearing Of Case At Meeting

(U. P. Leased Wire to The Bend Bulletin)  
SALEM, June 6.—Mandamus proceedings to compel the county court of Coos county to remit the interest, penalty and costs on the 1921 taxes on a certain piece of land in that county on which the state land board holds a mortgage was filed in the supreme court here by the state land board.

The case is to test out the act of 1925 providing for the remission of penalty and interest on the 1921 tax.

That the test case will be considered in its relation to the policy adopted by a majority of the Deschutes county court in following the attorney general's opinion that remission of tax penalties and interest is mandatory, was stated this afternoon by the two members of the court who could be reached, County Judge R. W. Sawyer and Commissioner J. S. Innes. A possibility exists that the order of the court made on the vote of Innes and George Sedgwick may be held up until a supreme court decision is returned.

### Favors Suspending Order

Innes stated that he is now rather in favor of allowing the order to continue, although he feels that so little is involved that he would be willing to vote to suspend if the majority of the court desired.

Sawyer pointed out that he had already expressed a wish that the law be not considered mandatory until a test case could be decided by the supreme court. He will favor such suspension when the next meeting of the court is held.

## Hindenburg Will Aid In Disarming Nation

### Allies Demands Can Be Easily Met, Believed

### Worst Difficulties Will Come Over Economic Questions, Indicated On Wilhelmstrasse

(U. P. Leased Wire to The Bend Bulletin)  
BERLIN, June 6.—President Von Hindenburg, once a big cog in the military machine the allies want properly disarmed, believes that the military clauses of their note can be "swiftly adjusted."

Breaking the silence he has hitherto maintained concerning the allied demands, Hindenburg today told an intimate circle of friends he regarded the purely military phases of the message as of small significance. At the same time, he indicated there need be no undue difficulty in meeting these. How he feels about the economic phases of the disarmament was not revealed, but remarks of Wilhelmstrasse authorities close to him indicated that on these will come the chief rub.

It is learned that General Von Seeckt, chief of the German reichswehr, is contemplating resignation—ostensibly in connection with the note which wants him out, but in reality because of old time differences with Hindenburg over war command matters. General Von Lohberg, commander of the Berlin district of the reichswehr and war time quartermaster, is mentioned as his successor.

Germany will undoubtedly accept the allies' disarmament demands—eventually.

## Seeks Effects In Fire, Roomer Loses His Life

(U. P. Leased Wire to The Bend Bulletin)  
PORTLAND, June 6.—Because he ran back into a burning hotel to get some of his personal effects, Joseph Jefferson, about 36, lost his life last night at Linton, the coroner learned today.

A fire swept through an old four story frame building that housed about two dozen mill workers. Jefferson was on the front porch when the alarm sounded. He ran inside to save some valuables but never reappeared.

Andrew Charles, an Indian resident, thought the proprietor of the place, a 74 year old woman named Mrs. Marguerite Jetto, was in the building. He rushed into the fire and was trapped and badly burned, but managed to escape by sliding down a rope from an upper window.

## University and Aggies May Reach Compromise

(U. P. Leased Wire to The Bend Bulletin)  
PORTLAND, June 6.—Representatives of the board of regents of the University of Oregon and Oregon Agricultural college will meet July 11 to resume consideration of the controversy over duplication of work offered by the two institutions.

Dr. J. C. Smith, chairman of the board of higher curricula, which met with the regents, announced that a compromise was being worked out and a definite decision would be forthcoming next month. The meeting of regents and the board of higher curricula adjourned late yesterday after an all day session.

## Aged Texan Now Pursues Last of Confidence Gang

(U. P. Leased Wire to The Bend Bulletin)  
KANSAS CITY, Kan., June 6.—J. Frank Norfleet, 60, a Texan, who has spent six years chasing a bunch of confidence men around the world after he had been swindled out of \$45,000, today prepared to start legal proceedings to get the last of the band, W. B. Spencer, federal convict, back to Texas.

In six years Norfleet has rounded up 70 of the confidence men and has spent \$17,000 in doing it. If Spencer is sent to the Texas penitentiary, Norfleet plans to retire to his ranch.

## Session of State Grange In Favor of Child Labor

(U. P. Leased Wire to The Bend Bulletin)  
DALLAS, Ore., June 6.—The Oregon State Grange adjourned its annual session at 1:30 a. m. today, after some wrangling and discordant debate which took the participants well into the night.

The grange went on record as against the proposed child labor amendment to the federal constitution, and passed a resolution authorizing joint action with the Washington State Grange looking toward the abolishment of fish wheels in the Columbia river.

## GOULD TO GIVE WALKS PROGRAM FOR CITY'S USE

## Use of Bancroft Bonds Is Suggested

## SPRINKLING ASKED

## More Petitions Required Before Action Can Be Undertaken Economically

A sidewalk construction program for Bend which will mean the replacing of wooden walks, a district at a time, by concrete walks, will be launched by the city council if it is found that Bancroft bonding will apply to such a plan. City Engineer R. B. Gould is now looking into the question of whether or not such procedure is possible, and is under instruction from the council to submit a definite report at the next regular meeting. In the meantime, it was decided at last night's session, construction will be started on a number of walks where the property value will guarantee money back to the city from the owner.

Discussion of health measures took up considerable time at the meeting, following a recommendation by Dr. C. A. Fowler, city health officer, that the milk inspection ordinance be made operative, and that a meat inspection ordinance be enacted. The questions raised were eventually referred to the health committee.

Despite heavy rains of the last 30 days, residents of Portland avenue from West Third street to the county bridge had a petition before the council asking for sprinkling on the street for this year, and for all years to come until a permanent surfacing is laid. The petition was tabled until enough more sprinkling in the same general locality is asked to make the work possible without excessive cost to the individual property owners. Another petition, from Mrs. J. S. (Continued on Page 6.)

## "Dickie" In Delirium, Insanity Is Feared

### Measles Declares Cause of Temporary State

### Strapped to Cot In Joliet Hospital, He Calls For "Buddy"—Darrow Hopes He'll Die

(U. P. Leased Wire to The Bend Bulletin)  
JOLIET, Ill., June 6.—Richard Loeb, millionaire's son, who is serving life and 99 years for the murder of Bobby Franks, school boy, is in a delirium in the Joliet penitentiary hospital today. "Dickie" has been violent for much of the past 36 hours. It was revealed and prison physicians fear for his sanity.

Attorney Clarence Darrow, who saved Loeb and Nathan Leopold, his companion in the murder, from the gallows, prophesied that Loeb would become insane inside of five years.

Dr. Herman Adler, prison surgeon, who has Loeb under observation, said today that the youth's mind was temporarily unbalanced. The present case grew out of an attack of measles.

For a time Dr. Adler and prison officials thought Loeb was shamming. He threw articles at guards and raved for hours, calling for "Buddy."

"Buddy" is "Patches" Reinhart, Loeb's girl companion on many of his night forays prior to the murder.

CHICAGO, June 6.—Clarence Darrow, attorney, the man who saved Richard Loeb from death on the gallows, now hopes Dick will die.

"I hope he dies," Darrow said. "He would be better off. Our experts after examining him gave him five years to live under prison routine. He may go quicker."

## Work Will Not Have Time To Visit Central Oregon

(U. P. Leased Wire to The Bend Bulletin)  
SALEM, June 6.—The limited time at the disposal of Secretary of the Interior Work and Reclamation Commissioner Elwood Meade will permit them to visit Central Oregon, Governor Pierce was advised by a telegram today. Only the proposed new projects of Baker, Owyhee and Vale will be visited on the trip of the interior department officials to this state in July.

## Two Bank Bandits Killed, Four Suspects Held

### Loot of \$3,000 Is Not Recovered; Bodies Are Found With Blood Stained Automobile Near Everett

(By United Press Leased Wire to The Bend Bulletin)  
SEATTLE, June 6.—Four youths are being held today for questioning in connection with the hold up of the Bothell state bank near here.

Two other youths are dead, shot by employees of the bank. Their bodies were found abandoned by the bandits near Everett. The loot, \$3,000, has not been recovered. John Pollock, 21, Everett high school football star, is held here.

## Sting Takes Handicap Run On Belmont Track

(U. P. Leased Wire to The Bend Bulletin)  
BELMONT PARK, June 6.—James Butler's Sting today won the historic suburban handicap which had a gross value of \$15,000. The Greentree stable's Cherry Pie, coupled in the betting with Stirrup Cup, finished second and the Hancocas stable's Mad Play got third money.

Altwood, crack distance runner from the stable of J. E. Widener, was never prominent in the running of the race and finished unplaced.

Sting jumped into the lead at the start and was never headed although Catalan got on almost even terms when Ambrose made his bid at the three quarters pole.

Mad Play was always well up and held on with good courage during the furious stretch drive. Cherry Pie came with a rush right at the finish and was going very fast at the end.

Sting was piloted by Benny Bruening. He stepped the mile and a quarter in 2:04 1-5, which is four and one-fifth seconds slower than the track record.

## Traffic Officer Houston Given Rank of Sergeant

State Traffic Officer Earl B. Houston appeared this morning wearing a uniform of a new and attractive design, and he also acquired this week a new title, that of sergeant. Houston has charge of a large area of Eastern Oregon, and has two officers under his supervision; Walter Foster of Redmond and G. W. Robertson of Ontario.

## MICHIGAN WINS MEET

(U. P. Leased Wire to The Bend Bulletin)  
OHIO STADIUM, Columbus, O., June 6.—The University of Michigan this afternoon won the western conference track and field meet.

## Terminal Site Purchase Made For Hill Road

### Price of \$140,000 Paid In Klamath Falls

## S. P. LOSES IN DEAL

## Both Railroads After Same Location—Northern Engineers Reach Bend

(U. P. Leased Wire to The Bend Bulletin)  
KLAMATH FALLS, June 6.—The Hill Lines have acquired 160 acres of land here for a terminal site. It became known here today when deeds were filed with the county clerk.

The property was purchased from Charles Wood Eberlein, Klamath Falls capitalist, and stamps attached indicated the purchase price was approximately \$140,000.

It is understood the Southern Pacific negotiated with Everlein for part of this land but that the two parties were unable to agree.

Work on the surveys of the proposed Oregon Trunk lines south from Bend to Klamath Falls is progressing most favorably, according to members of the group of northern line officials who arrived here late yesterday evening from the south, leaving for the main line on their special car last night.

Contrary to expectations, L. C. Gilman of Seattle, vice president of the Great Northern, did not come to Bend from the south last night. It is explained by G. V. Lintner, construction engineer of the S. P. & S. system, who accompanied the rail officials here from the south, that Gilman had his own private car in Klamath Falls.

Among the engineers arriving here last night by automobile from Klamath Falls were A. J. Witchel, chief engineer of the Great Northern; P. E. Thian, assistant chief engineer of the Northern Pacific, and Lintner. Witchel and members of his party of engineers arrived in Bend from the main line Monday morning, leaving at once for the interior. Their private car was returned to the main line. It was brought back to Bend yesterday morning, and was awaiting the engineers here when they returned from Klamath Falls last night.

## Second Mud Flow Due For California Town

(U. P. Leased Wire to The Bend Bulletin)  
MCCLOUD, Cal., June 6.—Warned by two floods in Mud creek already this season, McCLOUD is preparing for a repetition of the glacial flow that came down the eastern slope of Mount Shasta late last summer.

Mud creek in its rampages caused by melted snow water from the slopes of the peak, has twice washed out the county road to Bartle. The McCLOUD railroad, running between McCLOUD and Bartle, is now being raised three feet to get it out of the danger of this summer's glacial flow, which is considered inevitable.

Last year's flow of mud and boulders buried several square miles of flat country eight to 10 feet deep when melting snows exposed a glacier which dissipated under the sun's rays. With only a small snow cap on Mount Shasta already melting, exposure of the glacier and resumption of the flow is expected soon.

## Morse Reports Increase In Enrollment of Boys

### The enrollment of boy scouts in Bend has increased from 57 to 75 in recent weeks, according to a report made this afternoon by W. Bernard Morse, scout executive of the area council. Troop No. 2, sponsored by the Baptist church, has just been registered with the council. This troop has nine boys to start. Byron McDonald is scout master and Ralph Haynie is assistant scout master.

## \$2500 Worth of Boy's Life Marshfield Jurors Decide

(U. P. Leased Wire to The Bend Bulletin)  
MARSHFIELD, June 6.—Bandon must pay \$2,500 to Axel Sandstrom for the death of his 13 year old son last November, according to the verdict returned by a circuit court jury last night. Sandstrom sued for \$7,500. The young boy was electrocuted when he came in contact with a live wire.
