Dieters Wins Victory For Brooks-Scanlon Ball Players

HEAVY HITTING BACKS PITCHER

Game Is Won In Three Early Innings

Led by Pitcher Dieters, who struck out 11 batsmen and allowed only seven well scattered hits, and who also drove in three of his team's runs, the Brooks-Scanlon baseball team Sunday defeated the Shevlin-Hixon club 7 to 4, and evened up the honors between the two sawmill aggregations.

Russell, pitching for Shevlin-Hixon, had an off day, as may be seen from the five free passes he issued; but Brooks-Scanlon might have collected its 11 hits most any day, for the east siders have gathered together a mighty array of sluggers.

Brooks-Scanlon did all of its scoring in the second, third and fourth innings. In the second, Slate and Dieters hit two baggers in quick succession—Slate's was the longest left field hit made this season, as it hit the fence on the first bounce. Slate scored on Dieters' double.

In the third Cain walked, Stokoe doubled, Bruns flied out to right field, Slate walked, and then Dieters singled, the three men ahead of him scoring on the hit and a wild throw to third base.

In the fourth Oliver was safe on an error, going out on a fielder's choice and Swick reaching first. Grindle and Cain each singled, and Swick scored on Stokoe's infield out. Bruns then mopped up with a three base hit, scoring Grindle and Cain.

Shevlin-Hixon didn't get any runs until the sixth, when Hodgson singled, went to second on F. Russell's infield out, reached third on a wild pitch and scored on Workman's single.

In the seventh Stow was safe on an error, stole second, went to third on Gibson's infield out and scored on Allen's single. In the eighth Workman singled, W. Russell was safe on an error, and R. Russell scored them with a three base hit which struck near the left field foul line and rolled under the bleachers.

BETTING SHIFT PUZZLES

(U. P. Leased Wire to The Bend Bulletin)

SAN FRANCISCO, June 8.—George Godfrey's showing in his bout with Jack Renault here Saturday, although he won the verdict, has not entitled him to another big match soon, in the opinion of promoters and fans. Fight followers still are quizzically discussing the sudden switch in betting the day of the fight from Renault to Godfrey. The fight attendance was 11,122, with receipts of $26,759. The fighters received slightly over $6,000 each. Godfrey and Jimmy Dougherty, his manager, have gone to Los Angeles.

MACK'S MAIN-STAY

By DICK DORGAN

All last winter and most of the spring the fans have been "chinning" more or less about Connie Mack's big investment, Lefty Groves. They figured that if he came through with his new battery mate, Cochram, that the team had a good chance to cop the flag. Nobody was bothering about a certain young fellow who was on the team until the season started, when he was given his chance; and they haven't stopped talking about him since — Sammy Gray, the new sensation who leads both leagues with eight straight wins and no losses for a perfect average.

Sam broke into baseball three years ago with the Fort Worth team of the Texas league. In 1923 he played with Fort Worth and Beaumont, winning 11 and losing 10 games. That fall Mack drafted him from Fort Worth for a mere nothing. Last year with the Athletics, Sammy won eight games and lost seven. Mack has gone daffy over Samuel and predicts great things for him—

Gray possesses the most baffling curve ball since the balmy days of old Amos Rusie. He is a big fellow, weighing about 175 pounds all bone and muscle. With this strength he can toss a mean ball over the platter and mixes the speeder with his curve to very good advantage. Right now he is the main squeeze in Quaker town. Many experts who have seen Sam do his stuff claim that he is a cross between old Matty and Alex the great, while Connie himself says that he never discovered a greater right hander in all his years—and that boast includes his two greatest stars of long ago, Chief Bender and Jack Coombs. That's rather a compliment from the old boy.

RECORD OF GIANTS MOST UNUSUAL ONE

Lead Is Held By Team Wrecked By Injuries

(U. P. Leased Wire to The Bend Bulletin)

NEW YORK, June 8.—New York and Philadelphia, moving easily in the second inter sectional skirmishes of the season, are still holding first place and a comfortable advantage in the major league pennant races.

The performance of the Giants in holding a four and a half game lead in the National league with a team that has been almost wrecked by injuries has been the big feature of the season. At no time has the full strength of the four time champions been available for any protracted period. The reserve strength of the team became so exhausted that Pep Young, the star outfielder, had to be used at second base in several games but the Giants went on winning. This performance strengthens the opinion that the Giants will capture another pennant.

The Brooklyn Robins and the Pittsburgh Pirates are in good stride now and they will furnish what opposition McGraw's team may expect, but there are no grounds to believe that they will scare the champions when Frisch, Lindstrom, Kelly and the other disabled regulars get back in the game.

The Athletics are also showing class in fighting off the Senators with a team that has been crippled with heavy losses. Many critics thought the Athletics would take a flop when Sam Gray, one of the aces of the pitching staff broke his hand, but the spirit of the team has kept it going.

American league players believe that the Athletics are up around the top for the season but many of them believe that they will not be able to outlast the fine team that Bucky Harris has.

The New York Yanks are getting back into something like their old form since Miller Huggins heard the call of youth and benched four of his veterans. The former champions will have to display more consistency, however, if they are to figure at all in the pennant race.

MANDELL EASY WINNER

(U. P. Leased Wire to The Bend Bulletin)

LOS ANGELES, June 8.—Eddie Kane, manager of Sammy Mandell, arrived in Los Angeles today to begin negotiations with Dick Donald for a fight between Tommy O'Brien and Mandell at the Ascot speedway arena July 4. Mandell won a decisive victory over Phil Salvaldore, local lightweight, at Donald's show Saturday night. O'Brien won on a foul from Ace Hudkins in the fifth round of the second main event.

Spec Woods Gets Draw In Ring Bout At Salem

Spec Woods, veteran fighter who broke into the game in Bend, is still demonstrating the gameness which characterized his work in the ring here, according to the Salem Capital Journal of Saturday, which reports a draw fight between Woods and Frankie Lewis:

"Spec Woods and Frankie Lewis went 10 full rounds to a draw in the boxing show at the armory last night.

"It looked like Lewis would knock Woods out, as the Indian landed time after time with a heavy left, but Woods was propped up and managed to stay the limit, although most fighters would have gone down under such punishment. The fight was not as good as the first meet, although the boys fought all of the time. The final round was the best of the 10 with both battlers trying for a knockout. Lewis had Woods pretty groggy in this round, but the visiting battler hung on. Woods tipped the scales at 142 pounds and Lewis at 141."

THE LIFELESS ARM

Monday Health Talk No. 22

By Roy Reynolds, D. C., PH. C.

UNCLE BEN SAYS

"What makes the new born infant yell is hearing that the per capita tax is $150 and if it isn't that ask its ma and she'll tell you."

Not always are the effects of an accident visible, nor is their development immediate. That this is true is well illustrated by the case of Mr. Jsralewitz. Knocked from a bicycle in a collision with an auto, it was apparent that his arm was broken.

What was not apparent and was not learned for many months later was the fact that the jar of the accident had caused a slight movement of one of the bones of his spine; this bone then pressed upon the nerve leading to the broken arm.

When the broken arm had healed, the arm remained useless, in spite of regular continued treatment calculated to restore life to it. It was only when the spinal bone was adjusted back into position by a chiropractor and the nerve released from pressure, that he recovered the use of his arm.

ELECTRICITY FAILED—CHIROPRACTIC SUCCEEDS

"My arm, broken as the result of a fall from my bicycle when an auto ran into me, was set at the doctor's office. After removal of the cast I received daily electrical treatments and massage for eight or nine months, but the arm remained useless. I heard of Chiropractic and decided to investigate. After 12 adjustments from a chiropractor the hospital doctor told me that my arm was coming along nicely, and I only needed to return twice a week for treatment. Nine months of medical treatment failed, but after only twelve days adjusting I have a useful arm and can return to work."—Meyer Jsralewitz, Chiropractic Research Bureau, Statement No. 2105-K.
