**TIME FOR HOLIDAY  
IS BRIEF IN MILLS**

**Surplus of Labor Smaller  
As Season Advances**

(Special to The Bend Bulletin)

PORTLAND, June 30—The holiday close of pine mills of the Inland Empire for the Fourth will be even more brief than in the mills, reports indicate, and will average not more than three days. Condensed reports from the various pine and fir districts follow:

Portland—The Fourth of July shutdown of Portland and Columbia river sawmills will be brief and the logging camps which are now operating will also be closed but a few days. Almost no sawmills or camp jobs have been offered during the past week as men now working are holding fast until the holiday. There is a small surplus of laborers in Portland.

Raymond, Wash.—After several months of five day week operation nearly all sawmills on Willapa harbor have returned to full time cutting. Most logging camps are down but there are almost no loggers and very little help of any kind now out of work here.

Aberdeen—Labor turnover last week was at its lowest point of the year. About 50 per cent of logging camps on Grays harbor now closed down; others will close about July 3 for short period, probably not more than four days. All sawmills operating, and shutdown will be brief, it is reported. Few unemployed men here.

Tacoma—Little or no labor turnover in the logging or lumbering industries of this district last week. Shutdown of majority of Tacoma sawmills will be brief. A few unemployed loggers in town but not nearly so many as is usual at this time of year.

Seattle—Nearly all logging camps on Puget sound are closed for over the Fourth and resumption of operations will depend largely on weather conditions and the log market. There are few unemployed loggers in Seattle, Everett or Bellingham. Close to 1,000 berry pickers and canning factory help were sent to jobs from here last week. College and high school boys seeking work have created a slight surplus of help in this city.

Spokane—Large surplus common labor. A few logging camps have closed for over the Fourth and there is a considerable number of woodsmen in the city.

Walla Walla—Harvest starts late next week. More men than will be needed now in this district.

Pedilton—More men than jobs here but harvest which starts in about two weeks may take care of the balance.

Yakima, Toppenish—Large surplus of help. Migratory workers coming and going in large numbers.

Wenatchee—Small fruit picking finished. Plenty of men.

Palouse district—Outlook for harvest good. Enough men here.

Big Bend district—Enough men to get harvest started. May need some outside help within three weeks.

St. Maries—No shortage of men.

Elk River—Woods operations all running full handed.

Harvard still has a big lead in the number of intercollegiate track and field championships won. Forty-nine have been held since the first meet was staged in 1876 and Harvard has won 13.

**M.R. Matthew Not Dead  
Reports Benson Hotel**

A report given considerable credence locally that M. R. Matthew, known in many parts of the state as "Big Matt", had died today is untrue, it was definitely established shortly before 3 o'clock this afternoon by the United Press office in Portland.

All through the day telephone calls were received by The Bulletin, asking if the report of the death of Matthew were true. A telephone message to The Dalles brought the answer that Matthew was in Portland.

But the rumor persisted, and The Bulletin "queried" the United Press. Information from the Benson hotel, where Matthew is registered, is to the effect that he had stepped out of that hotel shortly before 2:30 this afternoon, very much alive.

**Police Officers Hurt  
When Building Falls**

SANTA BARBARA, Cal., June 30.—Three Los Angeles police officers were slightly injured today when part of the floor of the Arlington hotel, partially demolished in the earthquake, caved in, precipitating the men to the basement.

Detective Tom O'Brien was painfully cut and bruised and Captain W. A. Plummer and Detective Carl Williams were badly shaken and bruised.

The Los Angeles sleuths were aiding C. H. Fairbanks, an employe of Milner, Inc., Los Angeles jeweler, in recovering \$40,000 worth of jewelry partly buried in the debris and in danger of being lost in the wreckage. Practically all of the gems have been recovered.
