He Leadeth Me:—I will bring the blind by a way that they know not; I will lead them in paths that they have not known: I will make darkness light before them, and crooked things straight. These things will I do unto them, and not forsake them. Isaiah 42:16.

"HICKTOWN INHABITANTS"

Last week we reprinted here the Salem Capital Journal's definition of a hick town. Here is its description of hicktown inhabitants.

"A hicktown banker is one who puts you under life obligation for loaning you other people's money and thinks he is a ponderous pillar of the community when he is only a leech sucking its life blood and sapping its vitality.

"A hicktown merchant is one who carries a little of everything, not much of anything, and that all mused up, who doesn't believe in publicity except when he has something to sell at a loss, when he peddles dodgers to newspaper readers because 'advertising doesn't pay,' yet like a faded strumpet, resorts to gaudy paint to attract suckers.

"A hicktown attorney (there are mighty few lawyers in hicktown or elsewhere) is one who when not engaged in hand-bagging owners of bad debts, is snigling, snitching and skinning clients by shysterish tactics and technicalities.

"A hicktown preacher is one who preaches politics, polywogs and perdition, and most anything else except the gospel in the pulpit, and brethren and sisterns the rams and lambs of his flock as he steps on the gas to bring home the bacon for the uplift.

"A hicktown hotel is its most characteristic possession, one where the faucets leak, and the beds creak, and the doors have gimlet holes for the sneaks to peek, where the slang of the waitress tunes with the slam of the dishes and jibes with the slap of the chef, one where 'unbidden guests, welcome when gone' hold merry midnight wassail with you and make you jovous to speed the farewell.

"A hicktown garage is one where they monkey with the carburetor and it takes them hours and costs you dollars to adjust it again, one where they pull the motor to pieces on suspicion, put it together upside down and repeat the process at \$1.50 an hour, and cost plus, one where you store it overnight for joy-riding apprentices to tune up and smash.

"A hicktown—well, you probably know about it, even if it is a thousand miles away. We'll tell you, maybe, more about it some day."

FIERCE MAGAZINES

The women of this well known land are on the path, a warlike band, to seal the doom of magazines which try to spill the moral beans. The magazines which claim to show that vice is wreck and death and woe by printing lewd and sinful tales in loudly illustrated bales. "We teach the young to sidestep sin, to dodge the pitfall and the gin," the spotless publishers proclaim, "by printing yarns of vice and shame; the children read and vow their vows to shun the joints where men carouse, where women play their wanton eyes, where all of worth and virtue dies." Each year these magazines grow worse, they have become the nation's curse. They're read by growing boys and girls who search their pages for those pearls of truth and wisdom, but in vain—such rot is death to heart and brain. And now the women take the path, inspired by high and noble wrath. They'll agitate and plan and work, and no endeavor will they shirk, until the last punk magazine is landed in the soup tureen. At such a time as this we think of one who knocked the demon drink, of Carrie Nation and her club that laid to waste the Kansas pub. With such a leader we'd expect quick action, deadly and correct. Some newer Carrie may arise to swat the sugar coated lies, the filthy tales in brave array, which tend to lead the young astray.

Scopes Defense Plan Changed, Is Reported

(U. P. Leased Wire to The Bend Bulletin)

NEW YORK, July 2.—A marked change in plans of the defense for the trial of Professor John T. Scopes in the Tennessee evolution case is believed to have been decided upon here today by counsel for Scopes.

According to one report the attorneys discussed taking the case into the federal court at Nashville, Tenn., and there seeking to enjoin the state from enforcing the anti evolution law on the grounds that it is unconstitutional. This would transfer the trial from Dayton to Nashville.

Participating in the conference were Clarence Darrow, Bainbridge Colby, Dudley Field Malone and John R. Neale of Knoxville. Strong intimation that a decision had been reached came from quarters in close touch with the case but at 3:30 this afternoon Darrow and Colby had not been reached for complete confirmation.
