GENERAL LIST MOVES AHEAD

Motor Shares Surpass Highs of Year

(Wall Street Journal Financial Review) NEW YORK, July 7.—Stocks made immediate response to the further bullish tips given by the advance of the industrial shares to record levels at yesterday's close. Lead by New York Central, American Can, General Motors, Dupont and other issues sponsored by Wall street's most powerful interests, the general list continued to move ahead, attaining marked aggressiveness on the upside during the day.

New high ground for the year was reached by an impressive list of stocks. In addition to General Motors, several other motor shares bettered their previous 1925 highs, including Studebaker, Pierce-Arrow common and Packard.

Most authorities believed normal July recessions would carry steel operations lower this month. Such, however, has not been the case. Instead, operations are increasing slightly, indicating that stocks of steel in consumers' hands are down to rock bottom.

The market closed higher. Closing prices included: U. S. Steel 116, up 1; Baldwin 116, up 3/4; American Can 195 1/2, off 1/4; Cast Iron Pipe 159, up 3/4; General Motors 86, up 1; Mack Truck 183 1/2, off 1/2; Pierce-Arrow 35 1/2, up 3/4; United Cigar Stores 90 1/2, up 3/4; Wabash 34, up 1/4; New York Central 119 1/2, up 1 1/2; Southern Railway 98 1/2, up 1/2; Wheeling 19 1/2, up 1/2; Frisco 85, up 1 1/2; Rock Island 45 1/2, up 1; A. T. & T. 140 1/2; Texas Company 51 1/2; Electric Power & Light 37 1/2.

Wool Market Better (U. P. Lensed Wire to The Bend Bulletin)
BOSTON, July 7.—Prices for the sixth week in succession in the wool market showed an upward tendency under influence of stronger foreign news, better demands for woolsens and scarcity of desirable stocks. Ohio delaines are still held at 57 cents for the better types. London opening showed a better tone with prices higher on buying for Italy, France and local houses. In the local market it is reported 12 months Texas wools are now up to \$1.40.

Tourists Attempt to Eat, Table Sways In Quake

Mr. and Mrs. M. A. Phillips of Los Angeles were among the visitors at the local camp ground last night. They came to Bend by way of the inland route, through Mount Shasta, Sacramento and Red Bluff.

Mr. and Mrs. Phillips told of eating breakfast about 100 miles from Santa Barbara at the time of the earthquake. They said that they could feel no distinct shocks, but that tables and chairs seemed to sway from side to side and that they experienced a feeling of seasickness.

They told of black bears at Crater Lake national park, so tame that they foraged around the camp at night for food and came up in daylight to within a few feet of the travelers.

Phillips said that they would continue their trip until they were in British Columbia.

Polo is claimed by some to be the oldest of athletic sports. It has been traced to 600 B. C.

TURNOVER IS LESS IN MILL INDUSTRY

Large Majority of Pine and Fir Plants Resume

PORTLAND, July 7.—Following the briefest Fourth of July shutdown in three years, 90 per cent of the fir sawmills on the west coast resumed cutting Monday morning, according to telegraphic reports from the various districts received at 41 headquarters here today. The labor turnover was one of the smallest experienced in years. Logging, however, is comparatively inactive, the reports show, and not more than 60 per cent of fir camps are operating.

Except for two plants all pine sawmills of the inland empire are again cutting lumber and a large majority of them were closed only Saturday and Sunday. Several woods operations in the pine country are reported temporarily closed. Reports from the various districts follow:

Portland—Fewer men are looking for work in Portland than at any time this year. Only one Portland sawmill that was operating before the Fourth is still closed and it resumed cutting today. Logging along the Columbia is at a low point and loggers are generally employed in other industries.

Aberdeen—Five logging camps reopened today and two or three others will resume next week. Four out of 15 sawmills on Grays harbor are down for repairs but will reopen very soon. No unemployment of any kind in this district. County and city work above average of past two years.

Tacoma—Nearly all sawmills in Tacoma and vicinity are operating after a brief holiday. Little change in crews is reported. Other than a small surplus of common labor there are no unemployed here. Most logging camps still down.

Seattle—Twenty per cent of Puget sound logging camps resumed logging today and several other companies have announced intention of putting on fallers and buckers immediately. General resumption of logging is still uncertain, however. It is reported, principally because of log freight rates. Practically all saw-

mills on the Sound are again cutting after a brief holiday. There are scarcely any unemployed men in Seattle.

Women are employed as prompters in many of the theaters in Germany.
