

EUGENE CLASS TO CROSS PASS

Summer Students Due Here Next Week

Hike to be In Charge of Dr. John Bovard — to South Sister Later

EUGENE, July 10.—The summer lure of the Cascade mountains and the McKenzie River valley has stimulated two trips for Eugene summer session students: one to the summit of McKenzie pass, with a drive to Bend; the other, a climb to the summit of the Middle Sister, a jaunt for good hikers who are willing to rough it a bit for two and a half days.

Dean John F. Bovard, director of recreation of the University of Oregon summer session, announces Saturday and Sunday, July 18 and 19, have been marked on the calendar for the McKenzie pass trip. The little group of mountain climbers who expect to ascend the Cascade peak will leave a day earlier, however, departing from Eugene after luncheon, Friday, July 17, and returning here Sunday night at about 9:30 o'clock. The first stop will be at Lost creek, 60 miles from Eugene. Following a picnic luncheon, the party will hike three-fourths of a mile to Lost lake by easy trail. An attractive feature of this excursion is the view of Lost Creek falls, which tumbles from a

280 foot cliff into the body of water.

Camp Located

The next stop will be made at the summit of McKenzie pass, approximately 5,200 feet above sea level. From this vantage point an excellent view of the Sisters and the Cascade range can be obtained. Dean Bovard has scouted an excellent place off the main highway where camp will be made for a short time while the commissary chief prepares supper. A view of the lava beds at the summit will be one of the interesting features of the excursion to the summit.

Sunset in the mountains on a clear summer evening is an event for city bred folks. The start for Bend will not be made until after nightfall. The party will have accommodations at a leading hotel in Bend, and those who care for the climb will ascend Pilot butte, near the city, on Sunday morning. The return trip will be made so that the excursionists may be in Eugene early Sunday evening.

FIVE EXONERATED IN RUSTLING CASE

Harry Gooderham Alone to Face Grand Jury

With Harry Gooderham bound over to the federal jury on a charge of cattle rustling, five other men who were arrested in connection with the same offense have been exonerated and released. It was announced by Sheriff S. E. Roberts today.

They are Harry Wood, Henry Gohber, "Slim" Zimmerman, Jim Short and Harry Caton, all of whom had been engaged in driving the cattle north from Klamath county. Gooderham assumed the entire blame for the theft, and the sheriff's investigations confirmed his story to the effect that these men had all been hired after the cattle were stolen.

Short and Caton were taken into custody Thursday and released after only a short time.

Gooderham is being held in the county jail, pending the arrival of a United States deputy marshal to take him to Portland.

Divorces On Increase, Marriages Decreasing

(U. P. Leased Wire to The Bend Bulletin) WASHINGTON, July 10.—Divorces are increasing and marriages rapidly decreasing, reports to the department of commerce from nine representative states revealed today.

A matrimonial census showed that in the year 1924, divorces had generally increased a little more than 6 per cent, while marriages had decreased about 6 per cent.

Out of the nine states, Nebraska was the only one to show a decrease in divorces.

South Dakota was the only state reporting an increase in marriages for last year.

Dirigible Shenandoah Listed for War Game

WASHINGTON, July 10.—The big navy dirigible Shenandoah will take part next month in a series of war games off the Atlantic coast to determine her worth as a protector in time of war, the navy department announced today.

A battleship will be stationed at sea to represent an enemy raider, while the Shenandoah will be given orders to locate the "black" ship and furnish information of her movements to submarines and destroyers who will attempt to "destroy" the enemy ship.

CHURCH ANNOUNCEMENTS

TO CENTRAL OREGON LUTHERANS

The 100th anniversary of Norse immigration to America is being observed both in the church as well as

The "Flying Cloud" which broke the coast to coast record in 1854

THEN to one port in clipper ships NOW to homes of 29 states

On April 20, 1854, Captain Cressy made history when his good ship, "THE FLYING CLOUD" completed the fastest voyage ever made around the Horn—making the coast to coast "dash" in eighty-nine and one-third days.

And this was four years after J. A. Folger & Company began supplying coffee to the new Pacific Empire. Then the green coffee came to one port (San Francisco) in clipper ships; was roasted at Folger's Pioneer Coffee Mill, and distributed by boat and on wagon trains within a small radius of San Francisco.

Today Folger's Coffee, Spices, Teas and Extracts are in demand in 29 states. The early settlers did not forget the folks back home. They liked Folger's Products, and their endorsement led to calls for Folger-marked packages from the East, North and South. So great, in fact, was the call, that a modern branch was established at Kansas City, Missouri, and Dallas, Texas, in ad-

dition to the repeated enlargement of the pioneer plant at San Francisco.

On the label of our first package of roasted coffee were printed the words, "Our success is dependent upon quality." This holds good today.

On this our Diamond Jubilee we make this promise; that Folger Quality and Folger Service shall never change from the high ideals set by our founders; that products bearing the Folger name shall always be of the highest quality—just as they have been for these seventy-five years. With a background of 75 years' experience and with a will to apply that experience for the benefit of our customers, we look forward to serving many generations to come.

COFFEE · TEA · SPICES · EXTRACTS

in a civic way. Special services will therefore be conducted in the local Lutheran church at 11 a. m. Sunday, July 12.

Most Norsemen are Lutheran, and we deem it of more than passing interest for them to come and review the development of their church in organizing congregations, building churches and schools and carrying on mission work in the foreign field as well as in the home land.

We would especially enjoy to meet pioneer men and women who have put in many a long and hard day of work both in church and state.

Let us meet the Lord in His sanctuary Sunday and thank Him for His goodness.

"Bless the Lord, O my soul, and forget not all His benefits."

REV. R. BOGSTAD, Pastor Lutheran Church, Bend.

Queenie Slaughter, a 15 year old girl guide of Portsmouth, England, recently made her third rescue from drowning when she jumped into the harbor fully dressed and saved a child who had been carried out by the tide while paddling.
