

News Of The Markets

STOCKS HOLD UPWARD TREND

American Can Continues to Near Record

(U. P. Leased Wire to The Bend Bulletin)
NEW YORK, July 16.—Stocks maintained an aggressive upward course today with the trading ranging in strength and volume. Buying operations spread rapidly from one group to another, resulting in substantial advances in widely varied classes and imparting a buoyant tone to the whole market.

American Can continued its uprush into record territory. Steel common also was impressively bought and the strength of these two leaders encouraged active bullish demonstrations throughout the general list. Oil shares were taken up in generous fashion after a reactionary period extending over the past several weeks. Profit taking which cropped out in the late afternoon was readily absorbed and the market retained spirited advancing tendencies to the close.

The market closed higher. Closing prices listed:

U. S. Steel 118 1/2, up 1/2; American Can 201 1/2, up 1 1/2; Dodge 28 1/2, off 1/2; General Motors 36; Mack Truck 18 1/2, up 1/2; North American 58 1/2, up 1/2; East Iron Pipe 158, up 4; Studebaker 48 1/2, up 1/2; Pan-American "B" 77 1/2, up 1 1/2; Texas Company 52 1/2, up 1/2; U. S. Rubber 63 1/2, off 1/2; Montana Power 88 1/2, up 1/2; Savage Arms 5 1/2, up 5/8; Air Reduction 104 1/2, up 1/2; Marland 44 1/2, up 1/2; Pennsylvania 46 1/2, up 1/2; Southern Railway 100, up 2 1/2; Wheeling 20 1/2, off 1/2; Rock Island 47, off 1/2; A. T. & T. 141, up 1/2; Electric Power 39 1/2.

WOOL CONTINUES GOOD

(U. P. Leased Wire to The Bend Bulletin)
BOSTON, July 16.—The wool market is fairly active, but there is a good deal of uncertainty as regards values. Western contracting continues active and in Montana contracts are being made with local dealers at 41 and 42 cents for medium quality and 45 cents for some of the fine clips. Finer qualities of fleece wools are in demand. Ohio delaines are quoted at 56 to 57 cents and Michigan delaines at 54 cents. Choice fine territory wool is quoted at \$1.20 clean, and half bloods slightly lower.

DAIRY AND POULTRY

(U. P. Leased Wire to The Bend Bulletin)
PORTLAND, July 16.—Butter—Cube extras 46 1/2c, standards 45c, prime firsts 43c, firsts 42c.

Eggs—Extras 36c, firsts 35c, pullets 33c, current receipts 31c.

Benefit Social Planned For Monday Evening

An ice cream social, with an elaborate musical program in which the city's leading musicians will participate, will be given Monday evening at the city park as the annual benefit for the Children's Farm Home at Corvallis, by the women's clubs of Bend. It was announced today.

The Shevlin-Hixon band will play several numbers as a part of this program. The general public is invited and urged to attend and support the Corvallis home, which receives all of its support from donations and benefit activities such as this. The Children's Farm Home is the only non-sectarian institution of its kind in the state, it is poluted out by local officers of the W. C. T. U., the state organization of which conducts the home.

New Plants Are Listed By University Botanist

Many interesting plants which he had not previously listed as a part of Central Oregon's flora, have been found in the vicinity of Sparks lake by Professor E. Morton Peck, head of the biology department of Williamette university, he stated before leaving Bend for other parts of Central Oregon. Professor and Mrs. Peck have spent several weeks in this vicinity. Mrs. Peck is also an instructor in the university biology department.

DRUNK JOINS ROAD CREW

Arrested last night on Greenwood avenue, charged with drunkenness, Dan Donovan was fined \$15 in Recorder Louis Bennett's court this morning. He did not pay the fine, and became a member of the county road crew today, together with Roy Johnson, who was sentenced for liquor possession Wednesday and who is working out a \$500 fine.

TAKE ALLEGED COINERS

(U. P. Leased Wire to The Bend Bulletin)
NEW YORK, July 16.—Eighty alleged counterfeiters, including 11 girls, all members of one gang, have been captured and are being questioned by secret service agents.

Now-a One-Profit Car in the Quality Field

STUDEBAKER has achieved one-profit manufacture in the quality field. This marks a new era in the automobile industry. Studebaker's achievement eliminates unnecessary profits running up to \$500 on a single car. It banishes double overhead. It results in quantity production of quality cars. It vitally affects pricing by establishing a new criterion of value in the fine car field.

TWENTY-FIVE years ago practically all "manufacturers" of automobiles were nothing more than assemblers. They purchased motors, bodies, tops, axles, etc., from parts makers who were the manufacturers in reality.

On this basis it was easy to become an automobile "manufacturer," and more than five hundred makes of automobiles have had their day in the American market and disappeared. They are represented only by "orphan cars" with practically no resale value.

Notwithstanding this writing on the wall many manufacturers still assemble their product, piling profit upon profit for the ultimate purchaser to pay. Each profit which a maker pays to a body builder or parts supplier enters into his costs just as though he had spent the money for steel or plate glass or upholstery. Although it represents no value he not only passes it on to the purchaser but figures his own profit on top of it.

The Ford is a one-profit car and reigns supreme in its field.

In the fine car field Studebaker—and Studebaker alone—now offers the American public one-profit values.

During the past seven years, when demand exceeded supply, Studebaker has been plowing earnings back into plants and machinery until we are now able to make this announcement.

Foundries, stamping mills, machine shops, are now complete. As final links in the chain of one-profit production, the enormous Studebaker body plants have been operating for months at peak capacity. Resources totaling one hundred million dollars are concentrated on the production of this one-profit car.

No other individual manufacturer in the world (except Ford) possesses such facilities for the complete manufacture of automobiles.

That is why Studebaker is able to put finer steel, finer wood, finer upholstery, better workmanship, hundreds of thousands of miles of re-

Why Studebaker is the "one-profit" car

There are more than 60 makes of passenger cars built in the United States, but very few are manufactured complete in the plants of the producers who sell them.

Only 42 build all their own motors—and one of the 42 is Studebaker. Of the 42 which claim to make their own motors only 14 make the iron castings, stampings and forgings which go into their motors—and one of the 14 is Studebaker.

Only 3 make all their own bodies and one of the 3 is Studebaker. Only 2 make all their own motors, bodies, clutches, springs, axles, gear sets, differentials and steering gear. One of these 2 is Studebaker and the other is Ford.

serve transportation; into every car—yet keep down the price to you.

This sound manufacturing principle not only holds down price, but it insures a better car regardless of price. The car is not a patchwork, but a unit.

Last year at the New York and Chicago automobile shows four well-known automobile manufacturers exhibited coaches mounted with the same body—a body made from the identical dies, jigs and fixtures. Certainly these manufacturers must have sacrificed engineering advantages in chassis construction to accommodate this "standardized" coach body built by an outside supplier.

Contrast this with Studebaker, where the entire car is designed and built as a unit—and engineered complete. This construction means (1) longer life—(2) greater comfort in riding—(3) greater freedom from repair expense—(4) greater resale value.

With the advent of this one-profit-one-overhead plan of motor car manufacture, it is folly today to buy a car by the same comparisons you used yesterday. Today you must measure all cars with this "one-profit" Studebaker.

One-fourth of all American passenger cars built today belong in the fine car field—a total of 57 different makes selling above one thousand dollars.

There are 21 Studebaker body styles available on three different chassis. The Standard Six Models, 113-inch wheelbase, 50 h.p. engine, \$1125 to \$1600 f.o.b. factory. The Special Six Models, 120-inch wheelbase, 65 h.p. engine, \$1450 to \$2120 f.o.b. factory. And the Big Six Models, 127-inch wheelbase, 75 h.p. engine, \$1875 to \$2650 f.o.b. factory.

And you may buy your Studebaker today with the assurance that it will not be arbitrarily "matimized" by any act of ours as a "last year's model." Instead of spectacular annual announcements of "new yearly models," Studebaker has adopted the policy of keeping its cars up-to-date in body styles and chassis design every day in the year. Therefore, buy your Studebaker now!

THIS IS A STUDEBAKER YEAR
