

Boxing Commission May Declare Dempsey Title Vacant

WILLS-TUNNEY FIGHT LIKELY

Last Chance to Accept Challenge Given

(U. P. Leased Wire to The Bend Bulletin)
 NEW YORK, July 28.—Dempsey action will be taken against Jack Dempsey and Mickey Walker next Tuesday if they have not made known some definite plans for the defense of their titles. It was announced today after the meeting of the New York boxing commission.

Dempsey has been given until Tuesday to tell what he intends to do about the challenge of Harry Wills for the heavyweight championship and Walker must tell the commission then when he is to live up to his agreement to defend the welterweight championship against Dave Shade.

"We are going to do something definite next Tuesday and it will be interesting," James A. Farley, chairman of the commission, said.

When asked if he thought that Dempsey would return from California to appear at the meeting, Farley replied, "It is my personal opinion that he will not."

NEW YORK, July 28.—Jack Dempsey's heavyweight championship title will be declared vacant by the New York boxing commission and Harry Wills and Gene Tunney will be asked to fight it out to decide the successor if the champion ignores the commission again.

Dempsey has been given until August 4 to return before the commission or to notify the board members what plans he has made to accept the Wills challenge. This period of grace was granted by the commission in response to the plea of the champion that he had to go to California to protect some business interests that were endangered by his rupture with Jack Kearns, his manager.

Since then, it was learned today, the commission has heard from reliable sources that Dempsey does not intend to return to New York in the near future, that he does not intend to fight any dangerous opponents and that there is some talk in the Herald that he has been starting with Kearns.

The commission is being pained severely for the silk glove methods it has been using in handling the heavyweight championship situation and it has been pointed out that no other champion could get away with what Dempsey has without inviting the wrath of the fans.

The commission, however, is rather up against it because Dempsey has not a New York license and officially he is not under the jurisdiction of the New York board.

The situation, it is understood, will be discussed at today's meeting at the commission.

Fish In Closed Water, 2 Arrested and Fined

Brown, chief deputy game warden, on the same charge, was fined \$25. The difference in the fine is explained by Justice Gilson to be attributable to the opinion that Van Tassel is better acquainted with the waters of East lake than is Fowler. Also, it is explained that the three fish found in the boat of the two men had been caught by Van Tassel.

THE PITTSBURG WINDMILL

THE OUTSTANDING FREAK OF THE RING IS EAGER TO MEET BERLENBACH FOR THE LIGHT-HEAVY-WEIGHT CROWN

Harry Greb, the middle weight champion, is without doubt the greatest freak in the ring. We've had a few others like the ponderous Willard, the bounding little iron man, Dundee, but Harry wins the palm for all round freakishness. Here is a chap who fights any of them, big, small, short or tall—he cares not a whoop.

Greb has been doing his stuff in the ring for about 13 years and in that time has participated in over

250 battles, most of which have been with heavyweights and light heavies. Greb has licked such men as Tom Gibbons, Charley Weinert, Bartley Madden, Jimmy Slattery, Jack Renault, Gene Tunney, Kid Norfolk, Tiger Flowers and Johnny Wilson. He tips the scale anywhere from 159 to 175 pounds, depending on how heavy his opponent may be. Harry is one of the fastest men in the ring, keeping his mitts going all the time and by so doing has been nicknamed the "Pittsburg Windmill."

Greb held the American light heavyweight title until Tunney outpointed him a year or so ago. Now he is eager to grab the world's light heavyweight crown by mixing it with "Pop 'em Paul" Berlenbach. There's no stopping him. The only way Greb will be stopped is when his arms fall off.

Baldwin's intervention in the situation was generally regarded as a hopeful symptom but it was still too early to know whether his efforts would lead.
