

Youth Of Connie Mack's Team Now Seen As Great Asset

PHILADELPHIA MAY GET FLAG

Athletics Draw Away In Second Spurt

(U. P. Leased Wire to The Bend Bulletin) NEW YORK, July 29.—Many smart baseball men favored the champion Washington Senators in a battle with the Philadelphia Athletics because of the youth of Connie Mack's aspiring team.

It was figured that in a hot pennant race, which may extend to the very last day of the season, the experience of the veteran players on the Washington club would keep them on the ground and that the young Athletics would be in danger of blowing up.

Twice this season the Athletics were so close to the exploding point that the critics warned "there they go. Didn't I tell you?" but they didn't go. On each occasion they recovered, just as they were going down, and came back with a rush.

They are just now out of their second serious slump and they are moving away from the Washington champions with so much steam that there are distinct whispers about a world's series in Philadelphia. There have been world's series games before in Philadelphia—many of them—and experienced fans know that it is not wise to claim the pennant until it can be worked out with pencil and paper.

It looks now as if the Senators have cracked. The pitching has gone to pieces momentarily and if Roger Peck's legs do not hold up, the club has not much of a chance to nose out Connie Mack's boys.

Mack had a great piece of luck when he picked old Jack Quinn off the ivory plie. This veteran has always been known as a great spring pitcher, but he never seemed to last. When the hot weather came the Red Sox put him on the market and no one wanted to keep him out of the minor leagues but Mack. He nabbed him for the waver price and he has won every game he started for the Athletics.

Paper rain coats and aprons, ranging from 14 to 59 cents, are being made by a Wisconsin paper company. The material is a patented one and absolutely waterproof.

Rumor Charge Brought Against William Tilden

(U. P. Leased Wire to The Bend Bulletin) NEW YORK, July 29.—William Tilden, tennis champion of the world, has been summoned to appear here Saturday night before the executive committee of the United States Lawn Tennis association and answer a charge that he has violated the section of the amateur rule which prohibits a player from writing comment on the play in a tournament in which he is competing. It was learned from a reliable source here today.

The association has nothing to say. It will not confirm or deny the report. E. B. Moss, executive secretary, said today.

Tilden is charged with a violation of the spirit of the rule in that he allowed himself to be interviewed by a reporter of the syndicate that employs him, instead of writing and signing the comment.

MAY TRY SATURDAY TO SWIM CHANNEL

Improvement In Weather Favors American Girl

(U. P. Leased Wire to The Bend Bulletin) CAPE GRIS-NEZ, France, July 29.—With an improvement in the weather and general conditions, Miss Gertrude Eberle, American star, today said she would take the water Saturday in her attempt to swim across the English channel.

"The weather must be favorable, of course, but it looks now as if I would not have to wait until next week to make the attempt," she said. Captain Jabez Wolff, her trainer, said he was willing that she make the attempt just as soon as the conditions were right.

It has not been decided at what hour of the day she will take the water. Powerful searchlights have been erected to be used in the event that she starts during the night.

Her menu will consist of beef tea, grapes and chocolate. She has had some difficulty in learning to take nourishment in the water as she had never done it before and it took some argument to convince her that it was necessary.

Goodyear Tires Are Still Low Priced

On June 1, 1924, rubber sold at about 20 cents per pound.

On July 1, 1925 it sold at 82 cents per pound, or over four times the price of a little over a year ago.

But we are selling GOODYEAR TIRES at about the same price as we did a year ago. This is made possible by the fact that GOODYEAR is giving you the benefit of rubber purchased previously at lower than present prices.

If GOODYEAR charged us on the basis of 82 cent rubber we would have to charge you much higher prices for GOODYEAR TIRES. But they are passing on to us and to you the benefits of former purchases and present factory economies.

So a 30x3 1/2 All-Weather Tread Clincher Fabric Casing costs you today 50 cents less than it did in the early months of 1924.

A 32x4 All-Weather Cord costs you only 20 cents more.

A 29-4.40 All-Weather Cord Balloon costs you 20 cents less.

We know of no other commodity where your dollar goes as far as for GOODYEAR TIRES. The average price of all commodities is about 56 percent above pre-war prices.

GOODYEAR prices are actually 36 percent below those of 1914.

The prices below will show you the excellent values in GOODYEAR TIRES NOW:

1924	1925
\$12.50 30x3 1/2 Wingfoot Fabric	\$11.60
\$18.50 30x3 1/2 All-Weather Cord	\$20.50
\$28.35 31x4 All-Weather Cord	\$25.85
\$31.20 32x4 All-Weather Cord	\$29.45
\$32.25 33x4 All-Weather Cord	\$30.45
\$33.05 34x4 All-Weather Cord	\$31.45
\$41.35 33x4 1/2 All-Weather Cord	\$39.85
