

Brooks-Scanlon Takes Measure Of Fallbridge Team

REAL BASEBALL SHOWN TO FANS

Game Is Hitless for Two Innings

In a game which is conceded to be one of the best played in Central Oregon this season, Brooks-Scanlon won from the visiting Fallbridge nine on O'Donnell field Sunday afternoon, 7 to 4. The game was staged before a crowd of excited fans who filled the grandstand to capacity and overflowed into the bleachers.

Although victors, the locals did not have things all their own way during the entire game. Up to the seventh inning, the tralumen from the Columbia river country were leading, 4 to 2, and for a time it appeared as if the locals were outdistanced by the Fallbridge nine.

But in the seventh, with Kennedy, Fleck and Slate on bases, something happened. This "something" was a two-bagger by Bruns, scoring all men who were on bases. In this same inning, just previous to Bruns' timely hit, Woods crossed the home plate in a hit by Tetherow. No scores were made by either team after the seventh.

With neither team annexing a hit for the first two innings, the diamond fans realized early in the game that they were to see a real ball game.

In the third frame, Coleman of the visitors made first on an error, and continued to circle the bases when Hopkins got on without a hit. In a melee of errors and overthrows, both Hopkins and Coleman scored. Fallbridge made its other two runs in the fifth, when both Towne and Deegenmark connected with two baggers.

Tetherow in Form
Believed by many last week to have played his final game because of a dislocated elbow, the veteran Tetherow Sunday showed his old-time form. Not only did he strike out five of the opposing batters, but he connected with three hits in four trips to the bat. He is also credited with a sacrifice hit. Bruns was easily the star of the game, chalking up a three-bagger and a two-bagger. When Kennedy poked out a hit in the fifth, he brought home Woods and Porter.

Sunday's large crowd was attributable to the fact that the tralumen came to Bend with two cartloads of backers. The players and fans from Fallbridge arrived here Sunday morning, and Sunday afternoon, Metolius fans chartered a caboose and engine, making the run to Bend in time for the game.

Bushong and Stowe umpired the Sunday game. Porter, Brooks-Scanlon catcher, was forced to retire from the lineup in the eighth when one of his fingers was injured by a tossed ball. The box scores follow:

| Brooks-Scanlon | | Fallbridge | | | |
|----------------|----|------------|----|----|----|
| B. | H. | R. | O. | A. | E. |
| Kennedy, If | 5 | 1 | 1 | 0 | 0 |

Takes 12 Pound Dolly With 4 Ounce Fly Rod

Using a four ounce rod, with a leader and a light fly, Phil Philbrook Sunday afternoon caught the largest trout ever taken out of the Metolius river, so far as known, and the largest caught in any part of the Deschutes country this season. The trout, 33 inches long and weighing 12½ pounds, is a dolly varden.

After catching the prize trout, Philbrook, who was accompanied on his fishing trip by Pat Sullivan and Howard Young, battled for one and one-half hours before he was able to land his catch. As a result of his fight with the dolly varden, Philbrook acquired a "permanent wave" in his light rod.

Two Locomotives Haul Barnes Circus to Bend

Big Show Is Under Way This Afternoon In Tent City Built On O'Donnell Field—Camel Rumored Dead
Bend's first circus in many years, and the largest ever brought into the Central Oregon country from the main line, arrived here at 7:20 Sunday night on 30 cars, both freights and Pullmans, drawn up the Deschutes grade by two locomotives.

Shortly after the arrival of the Al G. Barnes circus train, the work of transforming the O'Donnell ball park into a tent city was under way.

This work lasted through the night, under the light of a moon nearing its full phase. Hundreds of Bend people remained late into the night watching the erection of the "big top" and the tent city.

That the coming of the circus to Bend is attracting considerable attention in the mid-astate country was made manifest early this morning with the arrival in town of many automobile loads of people from places as far distant as Madras on the north and La Pine and beyond on the south. The first performance of the big show started this afternoon at 2 o'clock. The final performance will be at 8 o'clock tonight.

When the circus train, preceding the O-W. R. & N. passenger train, arrived here Sunday evening, it was greeted at the local station by several hundred people. The first animals taken from the circus train were the four elephants, which were led under the yinout to the circus grounds. The work of transporting the circus equipment from the special train to the circus grounds continued through the night.

There was a rumor current around Bend this morning that one of the circus camels had died. This rumor was denied by an official of the circus, who states that all the animals, numbering about 2,000, and

LAWN TENNIS BODY IS AGAIN PACIFIED

Tilden Promises to Give Out No More Interviews

(U. P. Leased Wire to The Bend Bulletin)
NEW YORK, Aug. 3.—With his promise down in writing that he will be a good boy in the future and will not disobey the rules, William T. Tilden, national tennis champion has been forgiven again by the executive committee of the United States Lawn Tennis association. In a special session of the committee, the finding was handed down that Tilden had violated the amateur rule but that he would not be suspended.

Tilden admitted that he had allowed himself to be interviewed for his syndicate about the play in a St. Louis tournament but he insisted that he had not attempted to cheat the rule intentionally.

He was asked, it was understood, to put a promise in writing that he would respect the spirit as well as the letter of the amateur rule and when he agreed to do this, the committee voted favorably on a resolution to withhold the spanking until the next offense.

Muscles Depend on Nerves!

Monday Health Talk No. 31
By Roy Reynolds, D. C., Ph. C.

UNCLE BEN SAYS
"In spite of the wall about high prices, or maybe as a result of it, I notice that most anything that used to cost \$5 up can now be bought for \$1 down."

The muscles which accomplish our movements operate by expansion and contraction. In themselves they are powerless to act, but depend upon motor nerves to furnish the power of movement, and upon sensory nerves to control and direct that power.
