News Of The Markets

STOCK MARKET BADLY MIXED

Strength as Well as Selling Noted

(Wall Street Financial Review) NEW YORK, Aug. 6.—Today's stock market was decidedly mixed. Bursts of strength occurred in American Can, Mack Truck, General Railway Signal, Westinghouse Air Brake, and other high priced specialties, coincident with heavy selling in motors, rubbers and equipments, and in recent pool favorites like Foundation Company, Ward Baking "B" and independent Oil & Gas.

The customary Thursday attempt to create nervousness over the possibility of an increase in the local bank rate was early squelched by the reductions in the Bank of England rate from 5 to 4 1/2 per cent. British rates have been one and a half per cent higher than the New York discount rate of 3 1/2 per cent until the present reduction.

STUDEBAKER Standard Six Duplex-Phaeton \$475.00 Down and 12 monthly payments of \$81.20 each

A Year Ahead of Its Time The One-Profit Duplex—more up-to-date than the newest "yearly models"

THE Duplex BAKER, introduced by Studebaker in September, 1924, is a revolutionary new type open car—with advantages open cars have never possessed before. Within its steel-framed upper structure are concealed roller side enclosures which the driver may lower in 30 seconds without leaving his seat—giving instant protection from rain, snow, cold or wind. With equal ease the enclosures roll up out of sight.

So obvious are the advantages of the Duplex that Studebaker has become the outstanding leader in the open-car field among cars selling above \$1000.

Triumph of Studebaker Engineering Other manufacturers will undoubtedly have to follow in Studebaker's footsteps. For any open car today without this unique advantage is obsolete.

But at the time this advertisement is written, Studebaker—and Studebaker alone—offers you this double convenience.

Another important engineering advantage pioneered by Studebaker is the use of genuine, full-size balloon tires, with steering mechanism, fenders and body lines especially designed for them.

Other manufacturers are gradually following Studebaker's lead—but remember, Studebaker developed this important feature 11 months ago.
