### Officers Allow Time Before Bond Decision

(Continued from page 1)  
E. L. Davis, C. I. Dunlap, R. H. Short, J. C. Shepard, T. A. Rutherford, M. W. Howard, C. H. Norcott, R. U. Flickinger, F. V. Swisher, C. N. Jones, J. L. Couch, J. H. Gonnason, Charles Uperافت, R. B. Yabb, George F. Thompson, A. F. Rennals, R. J. Collins, P. A. Lamb, H. O. Piercy, O. L. Jones, George W. Beir, C. H. Hatch, G. M. Couch, E. M. Wright and W. R. Gerking.

Aside from the speakers already mentioned, others who appeared on the luncheon program were Marshall Dana of the Oregon Journal, who spoke as a representative of the land settlement committee of the Portland Chamber of Commerce; N. G. Wallace, representing the Ochoco Irrigation district; Sam A. Kozer, secretary of state; J. N. Neal, representing a San Francisco bond house; D. J. McLellan, manager of the Tumalo project, and Rhea Laper, state engineer.

When visiting the project lands yesterday morning, the governor's party was met at the home of A. C. Kirksis, Tumalo berry grower, by a little girl, Zula Amel, who gave the governor a large bouquet of flowers, grown on the project. Governor Pierce accepted the flowers on behalf of the state of Oregon.

Following the Tumalo meeting, the governor's party left for the Ochoco project, planning to visit the Lone Pine district en route. Members of the party plan to return to Bend this evening.

Never put off till tomorrow what you should put over today.  
If you would be happy, let the other fellow do the worrying.

### Infant Born In Nest Near Tideland Slough

(U. P. Leased Wire to The Bend Bulletin)  
ASTORIA, Aug. 20.—A nameless babe, horn amid the rushes and rank undergrowth beside a tideland slough, was thriving brightly today with human care, as Clatsop county pondered over a world old elemental tragedy.  
Yesterday a young man reported to Sheriff H. J. Slusher that his sister had disappeared. She had been working in the field and had suddenly become ill. Starting up along a tangled byway, she had disappeared and though a night had passed she had not returned. An officer began the search and soon came upon the girl in a nest beaten down in the fern and rushes, a child in her arms, new born beside the waters of the slough.

### Regional Dry Directors To be Announced Friday

(U. P. Leased Wire to The Bend Bulletin)  
WASHINGTON, Aug. 20.—The 24 new regional directors who are to launch "the Andrews plan" of federal prohibition enforcement September 1, have been selected and their names will be announced tomorrow.  
Assistant Secretary of the Treasury Andrews completed the list this morning and will submit it to Secretary Mellon this afternoon for endorsement.

### SUGAR ADVANCES

(U. P. Leased Wire to The Bend Bulletin)  
SAN FRANCISCO, Aug. 20.—Two wholesale firms here today announced an increase of 10 cents a hundred pounds in the price of sugar, effective tomorrow. The new price will be \$5.85.

## News of the Markets

### PRICES MIXED ON EXCHANGE

#### Constructive Interests Still In Control

(U. P. Leased Wire to The Bend Bulletin)  
NEW YORK, Aug. 20.—Further corrective processes went ahead in parts of the list today, but at the same time operations for the rise progressed with considerable vigor in groups like the rails, metals, equipments and oils, creating a mixed price movement in the market as a whole.  
Rather sharp breaks in Mack Trucks, White and other recent favorites served a warning that the technical situation in these stocks had been impaired as a result of the perpendicular character of their recent advances. However, the fact that adequate support was met on the reaction demonstrated that constructive interests were still in the saddle and were not willing to allow the general list to run into an extensive setback at this stage of the speculative program.  
Ralls continued to be favored by the bulls, but the greatest opportunity on the side of rising prices.  
The market closed irregular. Closing prices included: U. S. Steel 122 1/2, up 1/2; Public Service Corporation, 83, up 1/2; Mack Trucks 218, off 1/2; White 98 1/2, off 3/4; General Electric, 329 1/2, up 1/2; Savage 65 1/2, up 1/2; Cast Iron Pipe 176 1/2, up 1 1/2; Universal Pipe, 37 1/2, up 1/2; Pan American, 65 1/2, up 1/2; Industrial Alcohol, 88 1/2, up 1/2; American Foreign Power 44 1/2, up 1/2; American Smelting, 119 1/2, N. & W. 138 1/2, off 1/2; New York Central 121 1/2, off 1/2; Frisco 95 1/2, up 1/2; Southern Railway 105 1/2.

FINE WOOLS IN DEMAND  
(U. P. Leased Wire to The Bend Bulletin)  
BOSTON, Aug. 20.—A fair business continues in fine wool, both domestic and foreign. Prices showed little change. Large dealers are refusing to grant lower prices. Mills are apparently still working on a hand-to-mouth basis. Considerable bargaining goes on. The sales of spring 1926 goods indicates worsteds have gained in favor. Ohio Delaines are unchanged at 54@55 cents; half blood stock 52@53c; foreign markets continue strong.

FOREIGN EXCHANGE  
(U. P. Leased Wire to The Bend Bulletin)  
NEW YORK, Aug. 20.—Foreign exchange closed irregular. Demand sterling 4.85 1/2, up 1/4; francs .468 1/2, off .0001; lire .936 1/2, up .0001 1/2; Belgium .945 1/2, off .0000 1/2; Holland .4927, off .0001; Sweden .2686; Norway .1867, up .0011.

FOR SALE—Light six for sale or trade for smaller car. Call at

# SAME FINE STUDEBAKERS Prices Reduced—Quality Maintained

THESE low prices are not for new cars built to sell at new prices. They are for Studebaker cars identical with those which have been in tremendous demand at higher prices during the past eleven months.

They are for Studebaker cars so well built of such high quality materials that net profits during the past six months have averaged only \$140.64 per car. The rest of the money the public paid us went into making a car with scores of thousands of miles of excess transportation.

These earnings are a triumph for the one-profit basis of manufacture. No manufacturer on a less efficient basis could have made a dollar selling cars of Studebaker quality at Studebaker prices.

Studebaker is the only one-profit car in the fine car field. Only Ford and Studebaker demand for all their cars all bodies, all engines, all gear sets, clutches, springs, differentials, axles, steering gears, gray iron castings and drop forgings.

Thus we save and pass on to purchasers profits which many other manufacturers must pay to outside parts and body makers.

No "yearly models" makes sales jump  
Thus we were able last January to reduce prices already low.

Then we announced that Studebaker would have no more "yearly models" to artificially depreciate cars in the hands of owners.

Sales instantly started to soar and have forced the vast Studebaker plants to maintain peak production throughout the summer, in the face of declining production for the industry in general.

To one-profit savings we thus add savings due to long continued peak production. These savings we share with customers in the price reduction announced August 1st.

We still use genuine leather, mohair upholstery, fine northern white ash and hard maple, tough extra gauge steel for which we pay premiums, plate glass, walnut inlaid with holly and other refinements. In short, these are the same fine cars in every particular—only the price has been reduced.

You can't appreciate what a bargain Studebaker cars are at these new prices until you compare them point by point with others.

Remember that Studebaker cars have been kept constantly up to date. Improvements have been made as soon as developed—not saved up for spectacular announcements under the guise of "new yearly models" designed to depreciate cars already in the hands of owners.

Superiorities—both hidden and obvious  
Many of the most important superiorities of Studebaker are hidden until revealed by thousands of miles of usage, but here are some you can check to prove our statement that every Studebaker is more up to date than the newest "yearly model."

On all present Studebaker models, you'll find an automatic spark control, safety lighting control on the steering wheel, 8-day clock and gasoline gauge on the dash, improved one-piece windshield, special coincidental lock of ignition and steering gear, fully machined crankshaft, coil ventilator, waterproof ignition and oil drain valve beside the engine.

Studebaker pioneered the steel-framed Duplex Top with roller side enclosures which gives enclosed car protection to open car models—in 30 seconds.

Studebaker pioneered the use of full-size balloon tires, for which steering mechanism, fenders and body lines have been especially designed.

Come in and see these sturdy, dependable "one-profit" cars. Today, more than ever before, every Studebaker is a big money's worth.

Ask about our liberal Budget Payment Plan.

### New Prices Effective August 1st

#### Standard Six Models

	New Price	Old Price	Saving
Country Club Coupe	\$1295	\$1345	\$ 50
