

Pirates Conceded League Leaders For Balance Of Season

6 GAMES AHEAD OF THE GIANTS

They Feel Like Champions, Too

(U. P. Leased Wire to The Bend Bulletin.)
NEW YORK, Aug. 25.—Little is left now of the National league pennant race but the shouting that will acclaim the Pittsburgh Pirates as the new champions.

The Giants not only are six games behind the Pirates but they are only 2 1/2 games ahead of the Cincinnati Reds and may finish in third place.

The 1924 champions looked linked in yesterday's game when they were beaten badly for the fourth time in five games. They blew sky high.

On the other hand, although any good team looks good in victory, the Pirates looked like champions and played that way. There can be no doubt that it is the best team in the National league and the players have taken on that feeling of superiority that they lacked last year.

With a commanding lead of six games and a demoralized Giant team as its closest contender, the Pirates have little to worry about. They have only to play 500 baseball for the remainder of the season to force the Giants to win 23 out of 32 games to nose them out of the lead.

Mathematically the Pirates have a six-game lead, but actually they have a bigger advantage as the Giants have lost nine more games than they have and the Giants have six games less to play than the Pirates. They have won 12 out of 15 games played with the Giants and there are only three more games to be played with them.

With such a rich prize so close to their hands, the Pirates hardly will slow up in the stretch and it isn't likely that the club will fall into any slump that would make it possible for the Giants or the Reds to overtake them.

Injuries suffered by Harry E. Van Arsdale, director of the Bend Hardware Co., Sunday when he was hit on the temple by a golf ball will not prove serious, according to opinions expressed today. Although Van Arsdale rested well last night, a partial paralysis of his left arm was noticeable this morning.

Van Arsdale was injured Sunday when he was playing golf on an improvised course at Shevlin park. The ball which accidentally struck Van Arsdale on the temple, making him unconscious for a time, was hit by Paul F. Hampton, also an employee of the Bend Hardware Co.

After recovering consciousness, Van Arsdale was able to drive his machine back to Bend, where a physician was consulted. He is confined to his home under the care of a special nurse.

Failure to Recognize New Champion Angers

Americans Picked FOR DAVIS AWARD

(U. P. Leased Wire to The Bend Bulletin.)
LOS ANGELES, Aug. 25.—Local fighting experts were frankly indignant today at failure of the New York boxing commission to recognize Fidel La Barba, 19-year-old Los Angeles school boy, as the world flyweight champion.

"The kid won a clean-cut decision Saturday night from Frankie Genaro, recognized title holder," declared Donald, promoter of the bout. "No one, not even the New York boxing commissioners, have a right to deny him the championship."

"The California boxing commission now recognizes La Barba as the new champion and the public and sporting writers have accepted him. The New York athletic commissioners will look childish if they fail to fall into line."

Australians Will Stop After Beating France, Said

Brookes Believes That In Coming Struggle With France, Australia Will Win Even If Lacoste Is Able to Beat Both Anderson and Patterson in the Singles. The Australians Both of Them Can Beat Brugnon and Will Also Be Able to Capture the Doubles.

(U. P. Leased Wire to The Bend Bulletin.)
VANCOUVER, B. C., Aug. 25.—A special cable from Sydney quotes Brookes, the famous Australian tennis player, as of opinion that the Australian team has little chance to lift the Davis cup this year.

Brookes believes that in the coming struggle with France, Australia will win even if Lacoste is able to beat both Anderson and Patterson in the singles. The Australians both of them can beat Brugnon and will also be able to capture the doubles.

But when it comes to the American team, Brookes cannot see Tilden losing to either Anderson or Patterson. Anderson may beat Johnston but Brookes fails to see that Patterson has a chance against little Bill. Anderson and Patterson would have an outside chance with the doubles against the Americans, though Tilden and Johnston will put up a harder struggle than Lacoste and Borotra.

(U. P. Leased Wire to The Bend Bulletin.)
BROOKLINE, Mass., Aug. 25.—Ray Casey, San Francisco tennis star, who, paired with Nat W. Niles of Boston, won a first round match in the national doubles championship yesterday, was taken suddenly ill with acute appendicitis and operated on at Phillips house, Massachusetts General hospital, Boston.

His condition was reported "satisfactory" at the hospital today. "It is most unfortunate, but the rules of the championship call for a default in emergencies of this kind," Richard Bishop, a referee of the tournament, told the United Press.

Casey and Niles were to have met Lucien Williams and George M. Lott, Jr., of Chicago in the second round today. They defeated D. R. Sumner and E. M. Jonkkaas, England, in the opening round, 7-5, 6-4, 6-1.

(U. P. Leased Wire to The Bend Bulletin.)
LOS ANGELES, Aug. 25.—The story of Dr. Thomas W. Young's notorious "confession" to the dental gas murder of his wealthy society wife, was related on the witness stand by Mrs. Dorothy Leopold Mahan, the accused dentist's former assistant.

"I was alone in the district attorney's office with Dr. Young on the morning of June 13," said the pretty witness. "I told him they were digging for Mrs. Young's body near the cabin in Beverly Glen."

"When I told him they had started digging into the cistern in the basement, his hands turned white and he trembled. Shortly afterwards he broke down and confessed."

Mrs. Mahan's testimony was considered a heavy blow to the defense. The court allowed the evidence over objection of Dr. Young's counsel.

CHEAP ELECTRICITY

—a great achievement

THE CHANCES are you have not visited your electric light and power company. You may not even know where it is. But a great achievement has been going on inside its walls. Old machinery has been taken out, new machinery installed. In years when the cost of most commodities has risen, the cost of electricity has been kept down. It is lower now than before the war. This means lower manufacturing costs for your industries and better light for your homes. It means that the routine tasks of home life can be done by inexpensive little motors. It means conservation of the nation's coal supply.

To an industry in which such achievements are possible, the General Electric Company has made many contributions. It has built new and improved machinery for the electric light and power companies; and in its research laboratories it has developed better lamps, and other devices by which electricity is efficiently used. And day by day, progress continues. There are still millions of homes without electricity; still many tasks being done in factories and homes by human hands which electric motors ought to do. By cooperation on the part of all—manufacturer, public utility company, and public—this improvement will go on.
