Better Pictures Goal Of Theatres In Bend

Better Pictures week, an annual event for theaters using Paramount service, begins at the local theaters on September 6. Coming attractions which will include Paramount features are:

For Tuesday, Wednesday and Thursday, "Tracked in the Snow Country" will feature the dog actor, Rin-Tin-Tin, as its hero. A number of the scenes in this story were taken in and around Klamath Falls. Friday and Saturday Harold Bell Wright's "When a Man's a Man" plays a return engagement by request, with "The Streets of Forgotten Men" on Sunday and Monday. "The Streets of Forgotten Men" is considered by critics to be one of the big pictures of the year.

Other billings are Zane Grey's "Light of Western Stars," on September 8, 9 and 10, and Richard Dix in "The Lucky Devil," on September 11 and 12.

An excellent lineup of pictures is offered at the Grand, beginning with "Eve's Secret," which showed last night for the first time and is continuing tonight. Others are "Single Shot Parker," featuring Tom Mix, on September 1 and 2; Harry Carey in "The Bad Lands," or September 3, 4 and 5; Rodolph Valentine in "Monsieur Beaucaire," on September 6 and 7, and Thomas Meighan in "Tongues of Flame," on September 8, 9 and 10.

Senators Again Picked As American Favorites

NEW YORK, Aug. 31.—Under the strain of a torrid baseball race, the Philadelphia Athletics have cracked and the Washington Senators are headed for another American league pennant, many smart baseball men believe.

The Senators are now leading by three and one-half games and the Athletics are still tied up by a terrible slump. They have lost six games in succession and have dropped 10 out of 12 games on the western trip. The pitching staff has gone to pieces and the club seems to be completely up in the air.

The series between the two teams, which starts tomorrow in Washington, will find the Senators in much better shape for the two games that in the end may decide the championship.

The Pittsburgh Pirates look to have the National league pennant just about cinched.

Crew of Amundsen Ship Read 3 Year Old Mail

(U. P. Leased Wire to The Bend Bulletin)
NOME, Alaska, Aug. 31.—Members of the crew of the Amundsen ship Maud, just returned after being locked in the arctic ice for three years, today were reveling in the first mail from home received since they headed out on their adventure.

The steamer Victoria arrived here yesterday from Seattle with letters of the Maud's six explorers, and work of discharging the vessel's cargo of arctic provisions was halted while the welcome missives were read.

The Maud expects to sail for San Francisco tomorrow, the voyage taking about 20 days. The vessel will be placed officially in charge of the Norwegian consul at San Francisco for the Norwegian court of bankruptcy.

At San Francisco all data on the polar trip will be shipped to Norway, according to Captain Westing, while the instruments loaned by the Carnegie Institute will be returned.

TASK OF UNION DIFFICULT ONE

Must Preserve Peace as Men Quit Work

Big Fuel Reserve Will Prevent Famine for Several Months, Is Estimate

(U. P. Leased Wire to The Bend Bulletin)
PHILADELPHIA, Aug. 31.—Union officials today faced the gigantic task of supervising the peaceful stoppage of production in the anthracite coal fields.

Like division commanders supervising an intricate military maneuver, district heads and international officers took their posts to direct final preparations for the cessation of work which will culminate at midnight tonight when 153,000 miners are expected to have thrown down their tools in an indefinite strike.

More than 50,000 workers have already walked out of the mines, not to return until their leaders have come to a satisfactory agreement with the owners of the 823 anthracite mines affected by the strike order.

How long the tie up will last until an agreement is reached or the government or public opinion intervenes to bring about a resumption of work, neither side could say. Close observers, however, have hazarded the prediction that the industry will be tied up from two to four months.

Early today it was estimated that there were 7,500,000 tons of anthracite coal in storage bins, railroad yards and tide water points in the middle Atlantic and New England states. This unusually large reserve will stave off a coal famine should the strike last in longer than a few months.

Probably the first who will feel the ill effects of the cessation will be 10,000 railroad workers in the car repair yards of the anthracite fields.

Travel
Although not every man travels all the way to Egypt to see a camel, everybody takes a trip sometime, if only to a neighboring state.

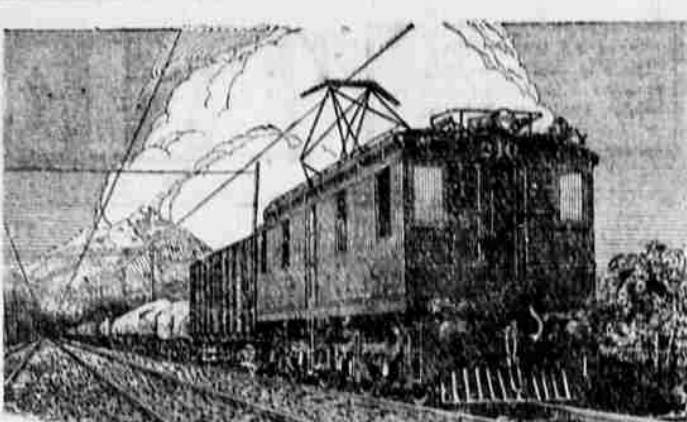

Probably that is why 727 Travelers accident policy holders were hurt during one year while travelling, and nearly 6% of all accident claims reported were based upon injuries received in this way.

The Paulista Railway in Brazil started electrification with 27 miles of track, and 12 locomotives with G-E motors. Its efficient did they prove that 35 more miles have been electrified, and the General Electric Company has furnished more locomotives and substation equipment.

Everybody is saving money here

Coal is scarce and expensive in Brazil. The Paulista Railway electrified in part. It now reports that the cost of electric power is only one-fourth the cost of coal.

What an object lesson for passengers, for freight shippers and for stockholders! How much money everybody could save by using electricity more freely to reduce costs!

The cutting off of the coal supply, it has been pointed out, is likely to cause illness among these workers.

Heavily attended meetings of union miners last night disclosed that the workers as a whole are optimistic of a speedy bringing to terms of the operators. Preparations for the walkout have been long in the making and reserves in money and supplies among the miners are sufficient for an extended hold out if necessary.
