**"I WANT MY MAN"**

**"HE WAS A SLICK TALKER"**

"—For he talked me out of my savings, and he talked me into his worthless promotion. I had his guarantee that the company would buy back the stock at any time."

That is the experience of thousands of people—victims of the glib stock salesman.

Had they only known the facts—known that the promised big profits on a sure-thing promotion were only a dream, that dependable investment houses never "guarantee" to buy back their stock, they would never have lost their savings. But they didn't and they lost.

To those about to invest, the experience of others should serve as a warning. Know the facts—know for a certainty whether or not an investment is safe and the income assured. Consult your banker. He will assist you in making your investments.
