

PROHIBITION FUND TO REMAIN INTACT

No Extraordinary Slashes Made By Congress

Washington, Jan. 21.—(AP)—An appropriation bill cutting \$14,000,000 from the combined funds of the state, justice, labor and commerce departments was reported favorably by the house appropriation committee today. Prohibition enforcement took a reduction proportionate with other activities.

It was held that greater reduction in prohibition enforcement funds would "undermine confidence in government and encourage lawlessness."

The bill carries a total for all expenditures of \$103,282,033. The department of justice received approximately \$42,000,000. The state department received \$12,177,464, a reduction of roughly \$1,500,000 under current appropriations; the labor department was cut \$238,000 to a total of \$12,682,060; the commerce department was reduced \$8,192,943 to a total of \$36,588,465.

In its position on prohibition enforcement, the congressional group, heavily democratic in control, sustained Attorney General Mitchell.

Mitchell in hearings before the committee made public today admitted the possibility of a swift change in the prohibition laws but argued that funds must be appropriated for enforcement until the statutes are moved from the books.

I have not the slightest doubt in my own mind," the cabinet officer said, "regardless of what the future has in store for the national prohibition system, that we ought to maintain our efforts unrelaxed, and that such changes as are to be made ought to be made in the substantive law before they are made by scuttling and nullifying the laws on the statute books, and leaving them there and then refusing to deal with them by adequate appropriations."

In explaining its general policies touching all four departments, the committee expressed the opinion that the incoming administration could be expected to do much toward eliminating and consolidating many agencies for which funds were carried.

Wool Market—Boston, Jan. 21.—(AP)—A slightly quieter trade on the whole was generally reported in the wool market. Slackening in sales was particularly noticeable on 66s and finer wools which in recent weeks have comprised the bulk of the business. Prices, however, continued quite firm on these wools. The slower trade in fine wools was partially offset by a more active demand for 48-56s wools of both fleece and territory lines, but the increased demand was accompanied by lower prices than had recently been quoted.

Bonds Feature Markets—New York, Jan. 21.—(AP)—Bonds featured markets in the short week-end session today with substantial gains, while stocks ruled steady in dull turnover and commodities fluctuated near previous closing levels. United States government issues were again prominent in the domestic issues where second grade rails also were strong. German bonds led the foreign section following a spurt in that group on the London stock exchange.

A firm tone prevailed for a time, but prices sagged from their highs in some instances and small losses were substituted. Steel common, American Telephone, Consolidated Gas, Union Pacific, North American, United Aircraft and New Haven were slightly lower.

Railroad shares for the most part were fractionally higher. Norfolk & Western, an exception, jumped 4 1/2 points to 123 1/2.

Homestake Mining had another of its characteristic advances in the gold mining division, but others of the group were practically unchanged. Homestake reached 150 1/2, up 3 points. General Motors met fair demand near the close and made a small gain. Oil shares were slightly higher.

Sales totaled 366,377 shares, against 360,910 shares a week ago.
