

STOCK TRADE LIGHT TODAY

Prices Are Irregular in Cautious Market

Business News Favorable But Traders Stay on Sidelines

MARKETS AT A GLANCE

Stocks firm in dull trading. Bonds irregularly higher; U. S. governments higher.

Foreign exchange easy. Cotton irregularly higher.

Wheat off 1/8-3/16; corn unchanged to off 1/4.

Rubber steady.

New York, April 21 (AP)—Stocks made an irregular advance today with volume around the lightest of the year.

Traders continued cautious in placing new commitments. Many withdrew to the sidelines for over the week-end and some planned to stay out of the market until after the rehashing meets a week from today.

Business news was mostly favorable. Automobile production reached 90,280 units this week, according to Ward's, the highest for any week since December 24.

Retail trade held a gain of 2 to 6 per cent over a year ago despite adverse weather in some sections.

Two major steel centers announced unchanged schedules for next week.

The market, however, ignored favorable news and trading was routine. Predictions were made that attendance would be very light in the street tomorrow because of the absence of interest pending a German reply to President Roosevelt's peace plans.

Leading issues moved irregularly. Steels registered small losses. Motors were firm. Rails dipped after small gains. Oils were firm. Alphas softened. Douglas lost a point.

Gains of a point or more were noted in American Can, Commonwealth & Southern preferred, Loew's, Melville Shoe, Philip Morris, U. S. Gypsum and Hiram Walker.

Westinghouse Electric touched 91 1/2, up 1, and then declined 2 points from the higher. General Electric held a small advance. Coppers were easier. Farm issues and some chemicals had small advances.

Trading continued dull up to closing time despite moderate profit-taking in the last few minutes of the session.

Dow Jones closing stock averages: Industrial, 128.71, up 0.30; rail, 25.75, off 0.11; utility, 22.37, up 0.12.

Sales approximated 390,000 shares, the smallest five-hour session since June 17, 1938, when 330,000 shares were traded and compared with 520,000 shares yesterday.

Curb stock sales were 96,000 shares against 86,000 in the previous session.
