

TURTLE TRAPPERS COVER BIG AREA

Girl Joins Parents In Nation Wide Hunt

Detroit (UP)—Somewhere in the middle west or south are the Peacocks, trapper camping near lakes and bays, setting their traps for turtles. They travel 35,000 miles a year through Michigan, Illinois, Wisconsin, Indiana, Missouri, Arkansas, Mississippi and Florida, through Kentucky and Tennessee, stopping to kill for fees the turtles that destroy fish and ducks, studying the turtles' habits, looking for the commercially valuable snapping and other edible specimens.

The Peacocks are Mr. and Mrs. Ralph A. Peacocks and their young dark-haired daughter, Anne, believed to be the only American woman engaged in commercial turtle trapping. Anne has accompanied her parents during most of the 25 years they have traveled the country contracting to trap turtles in lakes and rivers.

and from her early experiences grew her interest in turtles that has resulted in her collection of materials for several universities, high schools and state conservation departments. Anne and Ralph Peacocks average from \$5,000 to \$8,000 a year from their work while Mrs. Peacocks travels with them to keep house in their trailer. They set hoop-shaped traps, baited with melon rinds, fish, or snake, in the water near shore at night and then wait until early morning to take in their catch. The largest they ever made during one night was five tons, captured in Mississippi. Anne has no fear of handling large, vicious snapping turtles, which the Peacocks usually ship alive in barrels to Akron, O. Her turtle lore is now so complete that she has turned to a study of poisonous spiders to occupy her spare time.

EGYPT BUILDS ARMS CAVES
Cairo, Egypt (UP)—A railway line which will be used exclusively to carry munitions from Cairo to caves four miles away is being built by the Egyptian government. The caves, many of which are air-conditioned and supplied with electricity, can withstand the most powerful bombs.

School Exhibit

EDUCATIONAL

Exhibits shall consist of any line of work regularly offered in the High School, Grade School or Rural School making the exhibit, and shall be bona fide products of students who were in regular attendance in the exhibiting school during the school year beginning last September.

In making the awards the judges will give due consideration to there being a proper proportion between the academic and vocational subjects.

Entry	First	Second
207. Best High School Exhibit	Cup, Ribbon	
208. Best Grade School Exhibit	Cup, Ribbon	
209. Best Rural School Exhibit, over 1 room	Cup, Ribbon	
210. Best Rural School Exhibit, only 1 room	Cup, Ribbon	

Beautiful silver trophies first contested for in 1933 will be awarded to the winners in each of the above classes. These trophies, with the names of the winners suitably engraved, will be delivered to the winners following the fair, and at the end of the year shall be returned to the fair management to be again exhibited and awarded at the following fair. The school first receiving the award three times becomes the permanent possessor of the trophy.

SMITH-HUGHES AGRICULTURAL EXHIBITS

BORDEN F. BECK, Superintendent

All exhibits under the following classes must be projects in the vocational agricultural department under the Smith-Hughes requirements. All exhibits must be accompanied by project books. The boys must own the animals on exhibit. The exhibit may be entered in the open class but not in club work.

211. DAIRY ANIMALS

1. One cow over two years old	\$3.00	\$2.00	\$1.00
2. One heifer under two years	2.50	2.00	1.00
3. One or more calves	2.50	2.00	1.00

212. SWINE PROJECTS

1. One sow	\$1.00	.50
2. One sow and litter	1.00	.50
3. One pig or more (10 weeks old or more)	1.00	.50

212. A

1. Pure bred, registered boar over 1 year	\$1.50	.75
2. Pure bred, registered boar 6 months to 1 year	1.50	.75
3. Pure bred, registered boar, under 6 months	1.00	.75
4. Pure bred, registered sow, over 1 year	1.50	.75
5. Pure bred, registered sow, 6 months to 1 year	1.50	.75
6. Pure bred, registered sow, under 6 months	1.00	.75

Boys' and Girls' 4-H Club Work Exhibit

GUS HAGGLUND and MRS. SARAH WERTZ, Superintendents
All members competing in the following classes must be members of standard clubs organized under the state and national requirements, or individual members.

Basis of Award

The following basis of award shall be used in the judging of all projects. The final report must accompany each individual exhibit.

(a) Exhibit	.75
(b) Report	.25
Possible score	1.00

animals. If the animals are purebred, registration papers must be in the name of the member.
Heifers that have freshened will show in the cow class.

Exhibit

Producing cow dropped before July 1, 1937.
Yearling heifer dropped between July 1, 1937, and July 1, 1938.
Heifer calf dropped since July 1, 1938.

Basis of Awards

(a) Best animal according to breed	.75
(b) Handling of animal in show ring	.10
(c) Completeness and accuracy of record book	.15
Total	1.00

HOLSTEINS

A. Producing Cow—Registered.	
Prizes:	
1st, \$3.00; 2d, \$2.50; 3d, \$2.00; 4th, \$1.50; 5th, \$1.25; 6th, \$1.00; 7th, 75c	
B. Producing Cow—Grade.	
Prizes:	
1st, \$3.00; 2d, \$2.50; 3d, \$2.00; 4th, \$1.50; 5th, \$1.25; 6th, \$1.00; 7th, 75c	
C. Yearling Heifer—Registered.	
Prizes:	
1st, \$2.50; 2d, \$2.00; 3d, \$1.50; 4th, \$1.25; 5th, \$1.00; 6th, 75c; 7th, 50c	
D. Yearling Heifer—Grade.	
Prizes:	
1st, \$2.50; 2d, \$2.00; 3d, \$1.50; 4th, \$1.25; 5th, \$1.00; 6th, 75c; 7th, 50c	
E. Heifer Calf—Registered.	
Prizes:	
1st, \$2.50; 2d, \$2.00; 3d, \$1.50; 4th, \$1.25; 5th, \$1.00; 6th, 75c; 7th, 50c	
F. Heifer Calf—Grade.	
Prizes:	
1st, \$2.50; 2d, \$2.00; 3d, \$1.50; 4th, \$1.25; 5th, \$1.00; 6th, 75c; 7th, 50c	

For the Jersey breed, exhibits of grade animals dropped since July 1, 1938, shall be as follows:
Senior heifer calf, dropped between July 1, 1938, and January 1, 1939.
Junior heifer calf, dropped since January 1, 1939.

A. Producing Cow—Registered.	
Prizes:	
1st, \$3.00; 2d, \$2.50; 3d, \$2.00; 4th, \$1.50; 5th, \$1.25; 6th, \$1.00; 7th, 75c	
B. Producing Cow—Grade.	
Prizes:	
1st, \$3.00; 2d, \$2.50; 3d, \$2.00; 4th, \$1.50; 5th, \$1.25; 6th, \$1.00; 7th, 75c	
C. Yearling Heifer—Registered.	
Prizes:	
1st, \$2.50; 2d, \$2.00; 3d, \$1.50; 4th, \$1.25; 5th, \$1.00; 6th, 75c; 7th, 50c	
D. Yearling Heifer—Grade.	
Prizes:	
1st, \$2.50; 2d, \$2.00; 3d, \$1.50; 4th, \$1.25; 5th, \$1.00; 6th, 75c; 7th, 50c	
E. Heifer Calf—Registered.	
Prizes:	
1st, \$2.50; 2d, \$2.00; 3d, \$1.50; 4th, \$1.25; 5th, \$1.00; 6th, 75c; 7th, 50c	
F. Senior Heifer Calf—Grade.	
Prizes:	
1st, \$2.50; 2d, \$2.00; 3d, \$1.50; 4th, \$1.25; 5th, \$1.00; 6th, 75c; 7th, 50c	
G. Junior Heifer Calf—Grade.	
Prizes:	
1st, \$2.50; 2d, \$2.00; 3d, \$1.50; 4th, \$1.25; 5th, \$1.00; 6th, 75c; 7th, 50c	

GUERNSEYS

Same classes and awards as Holsteins.

MILKING SHORTHORNS

Same classes and awards as Holsteins.

CO-OP AWARD

The Central Oregon Co-operative Creamery will award \$35.00 to be used only toward the purchase of a registered heifer calf of a recognized dairy breed to be selected by a representative of the creamery and the County Agricultural Agent, to the boy or girl in Central Oregon who is a standard 4-H Club member of a dairy club who scores the highest on the following points:

Animal	10%
Showmanship	30%
Herdsman'ship	30%
Records	30%

The breed of calf awarded will be the breed that the winner chooses. While the winner will be determined at the County Fair the animal will be awarded and delivered in the spring of 1940 with the understanding that the calf will be shown at the 1940 Deschutes County Fair. A scoring will be made by the dairy judge.

238. POTATO PROJECT	
The exhibit shall consist of one peck of market potatoes grown and selected by club members.	
(a) Exhibit	.75
(b) Final report:	
Best yield	1.00

Best profit on investment
Completeness and accuracy of report

Best profit on investment	10
Completeness and accuracy of report	5 25
Possible score	100

Prizes:

1st, \$2.00; 2d, \$1.50; 3d, \$1.25; 4th, \$1.00; 5th, 50c; 6th, 50c; 7th, 50c

239. HOG PROJECT

The exhibit shall consist of one animal farrowed since March 1, 1939.

A. Gilt for Breeding.

Prizes:

1st, \$2.50; 2d, \$2.00; 3d, \$1.50; 4th, \$1.25; 5th, \$1.00; 6th, 75c; 7th, 50c

B. Fat Hog for Market.

Prizes:

1st, \$2.50; 2d, \$2.00; 3d, \$1.50; 4th, \$1.25; 5th, \$1.00; 6th, 75c; 7th, 50c

240. SHEEP PROJECT

The exhibit shall consist of one animal.

A. Yearling Ewe for Breeding.

Prizes:

1st, \$2.50; 2d, \$2.00; 3d, \$1.50; 4th, \$1.25; 5th, \$1.00; 6th, 75c; 7th, 50c

B. Ewe Lamb for Breeding.

Prizes:

1st, \$2.50; 2d, \$2.00; 3d, \$1.50; 4th, \$1.25; 5th, \$1.00; 6th, 75c; 7th, 50c

C. Netted Lamb for Market.

Prizes:

1st, \$2.50; 2d, \$2.00; 3d, \$1.50; 4th, \$1.25; 5th, \$1.00; 6th, 75c; 7th, 50c

241. WEED PROJECT

Exhibit shall consist of weed mounts prepared by club members, including White Top, Russian Knap Weed, Wild Morning Glory, Canada Thistle, Quack Grass and five other weeds of club member's selection.

Prizes:

1st, \$2.00; 2d, \$1.50; 3d, \$1.25; 4th, \$1.00; 5th, 75c; 6th, 50c; 7th, 50c

242. BUILDINGS

The exhibit shall consist of all buildings constructed by the builders club.

Prizes:

1st, \$2.50; 2nd, \$1.50.

(Continued on Page 7)

Home Economic Work For County Reviewed

(Continued from page one)

for 15 minutes on some phase of homemaking. The recreation program has many features, including a homemaker's vacation camp which was held this year at Suttle lake for Central Oregon homemakers. The winter program calls for training schools in social recreation and dramatics, the first of which will be held October 5 and 6. Office callers were frequent, asking for assistance in planning outdoor and indoor parties and games. There have been 132 office callers since January 1. The home demonstration agent has prepared 62 circular letters and has made 33 radio talks and furnished 80 news articles to the paper. The agent is also responsible for the planning of the Central Oregon 4-H club camp, which was attended by 145 4-H club boys and girls during August of this year.

About one-third of the year's time is devoted to 4-H club work with boys and girls of the county. From June until September the major portion of the agent's time is given over to the 4-H clubs. There are 232 4-H club girls and boys enrolled in home economic projects in Deschutes county, ranging in age from 9 to 16 years. Many of the boys and girls carry two or three projects. Their summer activities have included achievement days held in their communities and the home demonstration summer school at Corvallis, which was attended by 10 boys and 21 girls on scholarship contributed by business men of Bend and Redmond. During the month of August 4-H girls and boys have been trained in judging and in team demonstrations. Fourteen girls and fourteen boys attended the state fair in Salem this month to participate in 4-H club activities there.

During October and November, 4-H club members will complete their records and a county-wide achievement day is an annual event in October, attended last year by 180 4-H boys and girls and their parents. Following the achievement day, new groups are organized and a new year begins for 4-H club members.

Mrs. Sara H. Wertz, Deschutes county home demonstration agent, returned to her duties here the first of July after a year's leave of absence for special study at Cornell university in New York. During her absence, Mrs. Dorothy Bishop served as home demonstration agent for this county. Mrs. Bishop is now in Pendleton where she is the acting home demonstration agent for Umatilla county.

Puzzling Rock Wall Found in Arkansas

Little Rock, Ark. (UP)—Arkansas historians and archaeologists are puzzling over theories as to the origin of a massive stone wall which has been discovered in an almost inaccessible ravine of the Ozarks.

Apparently hundreds of years old, the wall is more than 400 feet long, 9 feet high, and 4 feet thick. It is built of huge sandstone blocks, some of which weigh four or five tons. It stretches across the ravine at the foot of a 600-foot precipice and might have served originally as a breakwater. A mountain stream flows nearby and the stone shows traces of erosion from swirling water currents.

The wall was discovered by a district supervisor of the Arkansas mineral survey. He explored the vicinity, finding traces of what appeared to be a primitive mine shaft about the middle of the wall. Assays of ore samples from the ravine revealed nothing of value.

Archaeologists, unable to find any record of mining operations in the region, were stumped. Cutting and laying of the blocks, they say, would be a sizeable job for expert masons with housing machinery.

Anthracite coal, if oxidized by heat or by weathering, may lose some of its heating value.

Roads are about one-third more slippery under a light shower than under a downpour of rain, according to a fire company's research.

Serving Central Oregon

This thirty-two year old Oregon institution is in a better position than ever before to serve the vast Central Oregon empire.

With our new and modern warehouse, completed only sixty days ago, we have every facility to take care of the wholesale grocery needs of Central Oregonians.

Hudson-Duncan & Company stocks of Oregon-produced goods are among the largest in the state. We pack Oregon products that are distributed over the entire United States.

Hudson-Duncan & Company is a large user of WOODEN BOXES produced in Bend Mills. Annually we purchase approximately 60,000 boxes to pack our Oregon grown products. Famous Deschutes Netted Gems are also marketed in large quantities by our company.

Attend The County Fair!

With its varied exhibits, interesting programs and good fellowship, the County Fair merits the attendance of all Central Oregonians.
