

TUNNEL TO BE BOMB SHELTER

10,000 People, 1,500
Cars Is Capacity

World's Largest, Safest
Air-Raid Refuge
Furnished

By Percy Noel

(United Press Staff Correspondent)

Paris (U.P.)—Despite the war, French engineers under military control have sealed and lined a vehicular tunnel under the heights of St. Cloud park, just outside Paris.

Only a little more time is needed to complete the roadway and lighting arrangements. Besides being the entrance to the parkway, leading 17 miles into country to main highway for Deauville and Biarritz, the tunnel forms the world's largest and safest air-raid refuge.

One thousand to 1,500 motor cars and 5,000 people can be accommodated and still keep a lane of access and egress open. The mass of earth, stone and concrete above it varies from 100 to 300 feet thick. It is more than 3,000 feet long and wide enough to take seven files of cars. In this way it is also one of the widest tunnels of its length, comparable in Europe only to the tunnel under the Mersey at Liverpool and another at Antwerp.

Of course the tunnel was not built for war purposes, as its use was restricted to touring cars, but to promote automobile and tourist industries. Construction has not been retarded by mobilization, but work on the reinforced concrete parkway, which in France will be called an autostrade, is two months behind.

To Have Slow Limit
Although patterned after American parkways, the autostrade has some distinctive features. In the first place, there will be no toll to pay either for the tunnel or the open air, and there will be no speed limit. Instead there will be a slow limit.

To avoid intersections where the autostrade branches off, west and south, to meet the national highways,

Success every time with
Schilling BAKING
POWDER

You will bake finer textured cakes, that stay fresh longer, with Schilling Baking Powder. It assures a smoother, creamier batter. Double-acting, made with pure cream of tartar—never leaves that "baking powder taste!" Good cooks, for over half a century, have relied upon Schilling for successful baking and true economy!

Beauteous Portia
Admitted to Bar

Grace Tainish, once voted most beautiful co-ed at Washington Square College, N. Y. U., pictured as she was admitted to the bar of New York. Although fees as an artist's model helped pay her way through law school, she said: "Everybody has forgotten that beauty title by now."

An ingenious system of three stories of roads has been devised. This will obviate any reduction of speed or of hunting for the turnoff to take, both cars coming and going. This three-decker section is spread over three-quarters of a square mile.

Another novelty will be the use of a five-lane system in the tunnel, so arranged with light signals that, as required, any number of files or tracks can be set aside for either direction, going or coming. For example, when cars are returning to Paris, Sunday evenings, three or even four files can run in one direction—toward Paris—and one or two in the other. There will be no division between lanes except luminous lines.

Opens New Area
Engineers estimate that when the parkway is completed it will be possible to live 25 miles from Paris in the real country and yet drive into business in the center of Paris in 30 minutes easily.

The construction was facilitated by the fact that all the property traversed belongs to the state. The regions being the park and the forest of St. Cloud and the forest of Marly. The latter public forest has been comparatively little used by Parisians in the past because of the inconvenience in getting there. The autostrade will make it a playground in natural surroundings for anybody who has a car.

No landscape gardening has been needed along the route, as it cuts through a real forest with natural hills and vales. The bridges and tunnel entrances have been designed in a style similar to the architecture of the Versailles chateau.

Unless war interferes, the entire autostrade and tunnel will be open to the public this summer. Two lanes of the tunnel will be ready within a month.

Kordick to Assist as
Coach of St. Mary's

Omaha, Neb., March 21 (U.P.)—Marty Kordick, recently appointed assistant football coach at Creighton university, today was released from his contract to accept a similar post at St. Mary's college in California.

Kordick, a graduate of St. Mary's, had been scheduled to report for spring practice here next Monday. He asked to be relieved of his contract obligations because of the opportunity to coach on the west coast where he lives. Terms of his St. Mary's contract were not announced, except that it was for a longer period than the one offered at Creighton.

CALIFORNIA INCOME AT PEAK
Sacramento, Cal. (U.P.)—Statistics just completed show that California had the largest biennial income in its history during the fiscal period of June, 1937, to June, 1939. The total was \$512,493,662, or \$78,500,000 more than the previous high income of the 1935-1937 biennium.
