New York, Oct. 21 (AP)—Stocks drifted irregularly lower today in the quietest trading in several weeks. Prices held in a narrow range after a slight easing in early dealings.

The American Iron & Steel Institute reported this week's steel activity at a record high on a tonnage basis.

The news had only minor effect on steel stocks, having been largely discounted.

Similarly, automobile shares showed little response to a Detroit report predicting that production this month and next may set new record highs because of huge backlogs.

Most leading stocks registered minor declines. Most issues were dull. U. S. Steel, Loft, Murray Corporation and Nash Kelvinator were exceptions.

Nash featured motors in volume and made a slight advance in contrast with losses in the leaders—General Motors and Chrysler.

New York Shipbuilding and International Mercantile Marine were active and firm. Douglas Aircraft gained more than a point. Air line issues were narrowly mixed.

New highs for the year were made by Pirelli of Italy at 72, up 2 and Bush Terminal Buildings Preferred certificates at 15 1/2, up 1/2.

Thatcher Preferred gained more than 3 and Keith-Albee-Orpheum Preferred more than 5 while gains of more than a point were made by International Business Machines, Interchemical Preferred and Collins & Aikman.

Commonwealth & Southern Preferred lost 2 points and losses of
