Utilities Continue to Show Strength

Automobile Production Is Lower; Retail Trade Gain Small

MARKETS AT A GLANCE

Stocks irregularly lower and quiet. Bonds lower; U. S. governments lower. Curb stocks irregular. Cotton firm. Wheat off 1/2 to 3/4; corn off 1/2 to 1 1/4. Silver unchanged in New York.

By Elmer C. Walzer

New York, March 21 (AP)—Stocks were irregularly lower in light trading today.

Strength continued in some utilities on belief that the senior securities of holding companies will be better off under integration plans than their present basis.

Leading steel, motor, farm equipment and electrical equipment stocks were steady. Coppers were held to slightly lower. Oils about steady their own. Rails were mixed.

Ward's Automotive Reports, Inc., reported a decrease in automobile production to 124,805 cars and trucks from 131,140 last week. This total compared with 103,395 units a year ago. Adverse weather and strikes were given as reasons for the decline. Dun & Bradstreet found retail trade 2 to 5 per cent over a year ago, a poorer showing than recently because of weather and the fact that present trade is being compared with the Easter season of a year ago.

Market men moved cautiously because of intensification of the air war over Britain and the Yugoslav situation.

Preferred issues of Engineers Public Service made new highs, gains ranging to more than 3 points in the 5 per cent stock. Two Standard Gas preferreds made new tops on gains ranging to more than a point.

Pere Marquette issues rose 1 to more than 2 points on reports the road plans to pay off arrearages on the prior preferred before the end of the year. Leading railroad common stocks held about steady. Bangor & Aroostook preferred rose more than 2 points in 10-share lot trading.

New highs for the year were made by Hawk Cigar, Brunswick

BOSTON WOOL

Boston, March 21 (AP)—Offerings of spot domestic wool were extremely limited, the U. S. agriculture department reported today. Interest in domestic wools was confined mostly to the resale of the fine wool contracted in the western states.

Demand for foreign wools continued good especially for the fine and 1/2 blood grades. Spot South American fine wools were quoted mostly around 95c, to \$1.03 secured basis duty paid. Sales of the fine Australian wools have been reported at \$1 to \$1.09 secured basis according to quality.
