

War Stocks Off Over Two Points

New York, Jan. 21 (AP)—War stocks dropped sharply today when Donald Nelson swept away the office of production management in the first broad move to bring the nation to an all-out war production program.

Losses in war issues ranged to more than two points, heavy chemicals leading the downturn. Steels had losses ranging to more than a point. Coppers were off fractions to a point. All major sections joined the decline, although some issues which had gained earlier held part of the rise.

Trading increased moderately but on the whole the day's total was small as compared with the markets of the latter part of 1941. Heaviest turnover was in rails which had been firm early. Near closing time the rails had losses ranging to nearly two points in Union Pacific.

New lows were made by Du Pont at 125 1/2, off 1 1/2, and Allied Chemical at 135, off 2. Eastman lost a point; Dow Chemical nearly 3 points; and Union Carbide more than a point.

United States Steel lost more than a point and other steels were off fractions. Wright Aero was off 3 points and Douglas Aircraft nearly 3 points.

Automobile shares held better than other kinds. General Motors yielded only a small fraction on a relatively large turnover.

YOUR FEDERAL INCOME TAX
A Series of Articles Prepared by the Bureau of Internal Revenue of the U. S. Treasury Department. City and State Tax. 48 Installments. No. 15

Normal Tax and Surplus Rates
Income taxes for 1941 are paid on normal tax net incomes and on surplus tax net incomes. A study of the instructions that accompany the income tax forms will show how to compute the tax on such incomes. This brief statement should serve to help to that end.

The internal revenue code, as amended, provides for only one normal tax rate, and that is 4 per cent. It is upon the normal tax net income—that is, the net income less the sum of (1) allowable personal exemption and credits for dependents, (2) the interest on obligations of the United States and its instrumentalities, and (3) an earned income credit of 10 per cent of the amount of the earned net income but not in excess of 10 per cent of the amount of the net income. If the net income is \$3,000, no more than \$300 earned net income credit would be deductible from the net income. The entire amount of the taxpayer's net income up to and including \$3,000, regardless of the source, is considered earned net income.

The surtax is imposed upon the entire amount of surtax net income. In the computation of the surtax net income the only credits allowable against net income are the personal exemption and the credit for dependents.

The rates of surtax increase as the amount of the surtax net income increases. For instance, if the surtax net income is not over \$2,000, the surtax is 6 per cent of the surtax net income. The surtax upon a surtax net income of \$2,000 is \$120; upon a surtax net income in excess of \$4,000, \$120 plus 9 per cent of the excess over \$2,000; upon a surtax net income of \$4,000, \$300; upon a surtax net income in excess of \$4,000 and not in excess of \$6,000, \$300 plus 13 per cent of the excess over \$4,000;

upon a surtax net income of \$6,000, \$560; and upon a surtax net income in excess of \$6,000 and not in excess of \$8,000, \$560 plus 17 per cent of the excess over \$6,000. Thus the rates are increased from 6 per cent on the first \$2,000 to 77 per cent on the excess of surtax net income over \$5,000,000.

The maximum surtax rate is 77 per cent. On a surtax net income of \$5,000,000, the surtax is \$3,723,780. When the surtax net income exceeds \$5,000,000, the 77 per cent rate is applicable to such excess, in addition to the surtax of \$3,723,780.

County Seal Sale
Total Is \$1,700
The total money collected to date for the 1941 Christmas seal sale by the Deschutes county health association is over \$1,700, it was reported today by Mrs. C. I. Dunlap, county seal sale chairman.

Follow-up circulars, urging persons who have not paid yet for their seals to turn in the money as soon as possible, were being sent out today by Miss Marjorie Smith, health association secretary.

ENJOY A MOVIE and RELAX
Everyone needs diversion. This is particularly true in times of strain. One form of diversion that is accessible to all is the movies. Going to the movies is a splendid antidote for tension. The choice of screen entertainment is varied as to provide just the pick-up you need. When nerves are tense, go to see a movie and relax.

A MEASURE OF VALUE!
Today the public recognizes certain standards as a basis of comparing quality and performance in movies, furniture, clothing or what have you. This trend also applies to advertising and is responsible for the Audit Bureau of Circulations. Their reports furnish a true guide for advertisers. From an ABC audit users of space know that newspaper advertising reaches the right people and will get attention.
