Men are dying...are you buying?

If you're inclined to say, "I can't afford any more Bonds," just take another look at the casualty lists. At least \$100 extra in Bonds—over and above your regular buying—is needed as your part in putting over the

Fourth War Loan. At least \$100, \$200, \$300, or \$500 if you can possibly scrape it up. Look at those grim lists in today's paper. Buy your Bonds while the names are still fresh in your mind.

Let's all BACK THE ATTACK! 4th WAR LOAN Symons Bros. Jewelry "The House of Beauty" 947 Wall Street Phone 175 This is an official U. S. Treasury advertisement—prepared under auspices of Treasury Department and War Advertising Council.

page 3 of the return form. However, persons filing the short-form return, Form 1040-A, need not compute the earned income credit, as this has been already deducted in the computation of the tax as tabulated on the back of the form to save figuring. Any individual whose total income for the year is not in excess of \$3,000 and was wholly from salary, wages, or other compensa-

tion for personal service, dividends, interest, or annuities, may use the short-form return. The earned income credit is 10 per cent of the earned net income, but not in excess of 10 per cent of the net income and is subject to certain limitations explained below. Earned net income is defined as the "earned income" less the "earned income deductions."

WHERE TO GO FOR FUN! War workers—Service Men—there's fun and relaxation from your wartime jobs in Bend. Get out and shake off the grind grinds! Here's where to go:

"Earned income" is earnings from employment, including earnings from wages, salaries, professional fees, tips, bonuses, and the like. The "earned income deductions" are the ordinary and necessary expenses incurred in connection with such employment. (The amount of such expenses must be explained by an itemized statement.)

Ordinarily, the earned net income is the amount listed as item 1 on the return. If, however, the taxpayer is in business for himself and is reporting most of his income in Schedule C(2), on page 2 of Form 1040—"Profit (or Loss) from Business or Profession"—a maximum of 20 per cent of his share of the net profits of such trade or business may be considered as earned income in determining the amount of earned net income.

Rules for determining the earned income credit on Form 1040 include: First, if the taxpayer's net income (that is, the amount shown on line 1, page 4 of the return) is not greater than \$3,000, then the earned income credit is 10 per cent of the net income; in such cases, the entire net income is considered as earned net income. Second, if the net income exceeds \$3,000, then the earned income credit is 10 per cent of the net income, or the earned net income, whichever is the smaller, but in any case it is at least \$300. Third, the maximum earned income credit which any taxpayer may take is \$1,400. This maximum would occur when both the net income and the earned net income were \$14,000 or more.

Deception of sound is the next step in fooling the enemy a scientist states; camouflage deceives the eye but not the ear.

Bar Axis From Air 50 Years, Urges Airman

Washington, Jan. 21 (AP)—Reuben H. Fleet, president-elect of the Institute of Aeronautical Sciences, proposed today that the allies bar Germany and Japan from the air for 50 years after the war.

Testifying at a postwar planning hearing of the house public buildings and grounds committee, Fleet said: "We should deny our present enemies for a time the right to make any type of aircraft, or weapon against aircraft, or the use of the air for the operation of any type of aircraft. "This denial should extend perhaps 50 years to give the temperament of their peoples a chance to change to the point where they learn to prefer peace

to war." Fleet, who is also senior consultant to Consolidated Vultee Aircraft corporation, recommended that at the peace table air power quotas be assigned to the allied nations. He recommended 30 per cent each for the United States and Russia, 20 per cent for Great Britain, and 20 per cent for the remaining nations.

DISTRIBUTED CHEER Salem, Ore. (AP)—State institution inmates received 3,000 pounds of mixed nuts, 400 cases of oranges and three tons of candy during the holiday period, the state purchasing department reported.

Some 3,000,000 gallons of alcohol will be produced each year in a new plant just opened in Australia; the product will be used mostly to blend with imported gasoline.
