VOLCANOES OF THE THREE SISTERS REGION
Oregon's high Cascades, crowned by massive snow-capped cones, hold age-old stories that have long intrigued geologists.

More recently, Dr. Howel Williams of the University of California, author of publications dealing with the geologic histories of Crater lake, Mt. Thielsen and Newberry crater, studied the Three Sisters area.

Dr. Williams believes that Dr. Hodge's ancestral Multnomah is a myth, and he has advanced a theory of mountain creation that does not set up a single massive prehistoric volcano, as does the Hodge theory.

Dr. Williams has determined that the mountains and cones of the Three Sisters group are of varying ages, dating back to broad shields of Pliocene times.

Dr. Williams' reference to the Mount Multnomah theory follows:

In Hodge's opinion, the central part of the area we have been considering was once occupied by a single, enormous volcano, Mount Multnomah.

It is no longer necessary to discuss the age assigned by Hodge to the oldest rocks of the region, for subsequent work has amply shown that none of the lavas of the High Cascades dates earlier than the Pliocene.

Perhaps his judgment was chiefly influenced by the roughly circular arrangement of the North Sister, Little Brother, Husband, Sphinx, Wife, and Broken Top, which suggested to him an ancient caldera rim.

Admittedly, much of the drainage in the region is approximately radial and some streams, in short stretches, follow a more or less annular course.

It seemed to Hodge that the dike systems were related to what he termed the "central cone" of Mount Multnomah; on the contrary, as we have seen, the dike-clusters are arranged radially around the conduits of the individual volcanoes.

Finally, Hodge supposed that the coarse-grained rocks found on several of the peaks "could only be found at this base or far within the body of a great volcano."

The conclusion is therefore inescapable: Mount Multnomah never existed in this region, it can only have been produced by collapse or by explosion or by a combination of these processes, and the catastrophe must have taken place late in Pliocene or in Pleistocene time.

Others Say...
FOR TAX LAW MAKERS
(Oregon Journal)
Three business men had dined well, and as it proved, expensively in a Washington, D. C. restaurant.

Lapine
Lapine, June 21 (Special)—Mr. and Mrs. Budd Capps and children left Saturday for Washington where they plan to stay for a time and pick trout.

Mr. and Mrs. Vernon Johns and children of Redmond spent the weekend at the home of Mr. and Mrs. Billy James.

Rev. Mrs. Lott of Arizona is holding revival services at the Community hall this week.

The daily vacation Bible school is being held in Lapine under the concentrated study to the makers leadership of Marjorie Van

Looks Like He Expected to Be Plenty Cool

Explorations for a Railroad Route

(Because of its local interest, the full report of Lieut. Henry L. Abbot dealing with the 1935 explorations for a railroad route from the Sacramento valley to the Columbia river is being reprinted in serial form in The Bulletin. The following article, one of the series, describes the region.

SHASTA BUTTE AND THE MOUNTAIN CHAINS OF NORTHERN CALIFORNIA
Shasta Butte, by far the most striking topographical feature of northern California, rises abruptly to a height generally estimated at 18,000 feet above the sea.

This Butte is not only the largest and grandest peak of the long range which divides the sterile interior of the country with the fertile valleys of the Pacific Slope, but it is also a great center, from which diverge the numerous chains that render northern California one mass of mountains.

Wechel of Yakima, Wash., Mable Olsen of Montana, and Louise Bunness of Tacoma. All connected with the student missionary council will hold its demonstration program Friday evening June 23, at 7:45 in the school gym.

Discovery near Ypsilanti, Mich., of a 100-foot gravel vein containing water-bearing vein ever found in Michigan, has been announced by the geological survey division of the conservation department.

Bend's Yesterdays

TWENTY-FIVE YEARS AGO (From The Bulletin Files) (June 21, 1919)

Fifteen graduating seniors of the Bend high school receive their diplomas at the Bend Amateur Athletic club. They are: Fern M. Allen, Cora C. Bates, Stanley N. Bond, Paul D. Brookings, Loreta Cook, Eyoil Cornhillussen, Marjorie Coyner, Ida Dahle, Harry H. Hayden, Robert E. McNeely, Emmett Molitor, Jennie T. Norne, Janiece Simpson, Leila Stutsman and Ethel L. Vincent.

Strikers are suspected by C. E. Nichols, chief operator for the Western Union here, for the three-day severing of service between here and Portland.

T. A. McCann returns from a Portland business trip. Mr. and Mrs. George Landis bring a carload of spring chickens to Bend from Redmond.

Gus Nystrom returns to his Bend home after serving in the quartermasters corps in San Francisco.

E. M. Pomeroy and Miss Edna E. Norris, the latter a resident of Tumalo, are married by Rev. H. G. Williams.

Mr. and Mrs. J. F. Arnold have as guests Mr. and Mrs. Z. C. Kimball, and daughter Faith, who are on a motoring trip from the Rogue River country, and Klamath to Portland.

DIAMONDS Back the Invasion Buy WAR BONDS A. T. NIEBERGALL Jeweler Next to Capitol Theater Phone 158-B WATCHES

War Briefs - - -

(By United Press)

Invasion - American assault forces, already through enemy's first defense line, storm inner fortifications of Cherbourg under hurricane bombardment and at last reports were approaching city's outskirts.

Air War - More than 1,000 Flying Fortresses and Liberators attack Berlin and other German targets; Germans step up robot bomb assaults on southern England.

Russia - Red army strikes out from newly captured Vilpuri in pursuit of disorganized Finnish columns fleeing toward capital city of Helsinki.

Italy - British 8th army troops clean Germans from Perugia and advance 3 to 4 miles beyond town while on left flank French and American troops of allied 5th army push slowly north.

Pacific - Axis reports say great naval battle is raging in far western Pacific following report by admiral Chester Nimitz that powerful Japanese units had been sighted between Philippines and Marianas.

CLAY CHAMP AT LOWRY Denver (U.S.) - There's not much question about who is going to win the tennis tournaments at Lowry field this summer. It is disclosed that Seymour Greenberg, for two years the national clay courts champion, and now a second lieutenant, is stationed at the air base.

It Didn't Work in Normandy

Germans say this huge gadget is an aircraft detector which sends out great magnetic waves which warn of approach of Allied planes. Nazi caption on photo, obtained through neutral source, did not mention whether any of the gadgets had been operating in Normandy on D-Day.

FRECKLES AND HIS FRIENDS

Comic strip panels with dialogue: 'IT'LL BE A LOT HARDER GETTING DOWN THAN IT WAS GETTING UP!', 'HOW'D IT HAPPEN?', 'I LAID THE BOTTLE DOWN SO I COULD REST A WHILE, AND IT ROLLED DOWN THE BANK INTO THE RIVER! IT BLEW ME INTO THAT TREE AND STUNNED ME! FOR A WHILE I KINDA THOUGHT I WAS OUTTA MY HEAD!', 'WHY, NUTTY?', 'WELL, I HAD THE CRAZY IDEA THAT THE AIR WAS SUDDENLY FILLED WITH FISH!'

Washington Letter

By Peter Edson (NEA Staff Correspondent)

Invasion of Europe found the office of war information achieving its absolute nadir of usefulness to the domestic press and radio.

OWI Director Elmer Davis, held a press conference on D-Day morning, but like a lot of other civilian officials in Washington, he didn't have anything important to say, too.

With Palmer Hoyt's return to his job and Lyon's departure, OWI settled down to a humdrum operation on war news.

Alexander D. Surlis, head of army public relations, began coming less frequently to Davis's noon meetings, sending a subordinate, Capt. Leland P. Lovette, head of navy public relations, did likewise.

Army and navy, giving every outward sign of co-operating to the fullest with OWI, appeared to have won the argument and were running their own shows about as they pleased.

The payoff came recently when correspondents assigned to the war and navy departments, getting a little fed up with War Department runarounds on special requests, decided to take matters into their own hands.

Forming an association, they presented demands that a competent army spokesman be appointed to succeed Colonel Fitzgerald and be available to provide information.

Army complied with the assignment of Brig.-Gen. John Magruder to this post.

The interesting detail about this is that none of the correspondents even thought about taking their troubles to OWI. It had become that dead.
