

Selling Flurry Strikes Market

By T. W. Klenben (United Press Financial Editor) New York, July 21 (UP)—Heavy selling continued on the New York stock exchange today for the second consecutive session and about \$500,000,000 was pared from the value of all listed stocks. Trading was active and volume topped a million shares for the 29th consecutive full session. Selling was prompted by caution growing out of the confusion created by the fall of the Japanese cabinet and yesterday's attempted assassination of Adolf Hitler. Another unsettling factor was the announcement that U. S. Troops had landed on Guam in another step toward Japan. The action of the market was regarded as normal in the face of the week's many unexpected developments. All sections of the list joined the sell-off, which got under way in the steels and rails. Late prices in the steel group were down a point or more in Bethlehem, U. S. Steel and Wheeling Steel. Atlantic Coastline, Pere Marquette, and Southern Railway preferred were down a point or more in the carriers.

PORTLAND PRODUCE

Portland, Ore., July 21 (UP)—An acute shortage of top quality eggs is evident on the Portland dairy market today with general receipts still slipping. Most of the butter supplies are being moved to the government. Egg and butter prices remain unchanged. Prices on Dairy Products: Butter—Cube, 93 score, 42 1/2; 92 score, 41 1/2; 90 score, 42; 89 score, 41 1/2 pound. SEABEE HAS SURPRISE VISIT

Mexico, Mo. (UP)—It was a surprise to Seabee Estil Borden of Mexico when he glanced up and saw he was passing through his home town while going from the east to the west coast on a troop train recently. The excited Seabee grabbed a pencil and paper and started writing notes to his wife, Fred Roberts, Mexico resident, who was waiting to cross the tracks, noticed the notes flying out the window of the train coach. He recovered some of the messages and then dashed to the home of Mrs. Borden to rush her and her son to the station. The troop train remained in Mexico about 30 minutes, during which the Borden were allowed to visit.

LEGS CAN'T TAKE IT

Stockton Springs, Me. (UP)—New England's oldest active barber, Levi Griffen, 89, believes that if he could invent a barber chair that would enable him to sit down while he works, he could go on barbering "for another 15 years—at least."

Broken, cracked or defective metal castings, and leaks in piping and boilers, may be repaired with a new powder which, mixed with water, is applied with a putty knife and hammered into the crack; it hardens like iron.
