Tokyo Jittery

(Continued from Page One)
day and Sunday and sent swarms of planes against Formosa and the Ryukyu islands today.

B-29's from China followed through today with a daylight raid on what the war department in Washington called "military installations" on Formosa, bottleneck through which Japanese land, sea, and air reinforcements pass to the Philippines.

Other Superfortresses from the Marianas, estimated in enemy broadcasts at from 60 to 90 strong, raided industrial targets in Tokyo and elsewhere on central Honshu, the main Japanese home island.

A Pacific fleet communique said planes from Vice Admiral J. S. McCain's fast carriers in the Third fleet attacked Japanese aircraft, installations and shipping in their raids Monday (Formosa time) in and around Formosa, Ishigaki, Miyako and Okinawa, the last three along an arc stretching northeast from Formosa to within 325 miles of Japan proper.

Sgt. Huff, during his tour of duty here, was instrumental in solving numerous important crimes.

Profit Taking Weakens Mart

By Elmer C. Walzer
(United Press Financial Editor)
New York, Jan. 9 (AP)—Moderate amounts of profit-taking brought an appearance of irregularity into the stock market today although the general average managed to reach a new high since September 4, 1937.

Trading was heavy from the start when blocks of 1,000 to 6,000 shares appeared on the tape and the volume was so large that tickers for a time were unable to keep pace. First hour sales of more than 700,000 were at a rate of 3,500,000 for a full session. Later dealings lightened but the day's total crossed the 2,000,000-share mark.

The railroad average declined despite the fact that a majority of carrier issues registered gains ranging to more than a point in Santa Fe in the common stocks and to 3 points in Pere Marquette Prior preferred. The recession in the carrier average was ascribed entirely to a 6-point drop in the wide-moving Norfolk & Western.

Shot of Penicillin Given Sick Bull

Hardwick, Mass., Jan. 9 (AP)—A wheezing bull gazed through the walls of an oxygen tent today while a veterinarian administered a giant-sized shot of penicillin in an effort to save the royal guernsey prince from death by pneumonia.

The patient, Caumsett Spiffire, already has received 2,500,000 (M) units of the drug under special dispensation by the war production board at Washington, but his physician, Dr. Francis M. Austin of Belchertown, described him as "a pretty sick boy."
