

# Godfrey, Air Ace, Is Reported Safe

Cranston, R. I., Jan. 11 (U)—America's leading ace in the European theater, 22-year-old Capt. John T. Godfrey of Cranston, who is credited with 37 enemy planes destroyed, is safe and sound in a German prison camp, according to his first letter home, his mother disclosed today.

Mrs. Reginald Godfrey said she received a letter and a postcard from the captain this week.

"The postcard was dated September 11 and the letter September 14," Mrs. Godfrey said. "John wrote that he was well and that we weren't to worry. He said the football season was starting up at his prison camp and he was hoping an old knee injury would not act up to prevent him from playing."

# Manila Is Goal

(Continued from Page One)

claimed a new American landing on Lingayen gulf was attempted yesterday near Rabon, six miles north of San Fabian, but was "completely wiped out within 10 minutes" by massed artillery fire. The Japanese radio said considerable numbers of American tanks were going ashore and that "imense battles" are now being fought.

(The Japanese Domei news agency reported that American

tanks advanced east from San Fabian yesterday and drove into Japanese positions from which they were dislodged in bloody fighting. Later, said the Japanese, the Americans again attacked and infiltrated Jap positions. Other Japanese reports asserted their air forces had sunk "many large-type warships and transports" and that the Americans ashore had been "cut off" from their sea-borne supplies.)

### Report Confused

(A BBC broadcast reported by the Blue network said American troops were less than 100 kilometers—62 miles—from Manila, but this would put them far across the Agno and it appeared that the announcer confused his kilometers and miles. Blue also quoted BBC as saying that the Americans were inland an average depth of 35 kilometers, or 20 miles.)

Though the main advance south across the Luzon plains was meeting only sporadic small arms resistance, American patrols and spotting planes reported artillery fire in the hills north of San Fabian and warships were hurling salvos of shells into the area.

Other forces, expanding the beachhead along the coast to the west, reached the mouth of the Agno river, six miles beyond Lingayen, and came under artillery fire from the foothills of the Zambales mountains.

### Speed Too Great

The speed of the advance south was such that one division commander was forced to order his vanguards to slow up because they were moving too fast for communications and supplies to keep pace. The Calmay river, one to two and a half miles inland from the beachheads, and only formidable water barrier north of

the Agno, was forced in the early hours of the invasion along a broad front.

Despite the initial lack of resistance, however, the Japanese feverishly were rushing up troops, armor and supplies from southern Luzon under a deadly barrage of bombs, shells and bullets from American carrier and land-based planes.

Whole columns of vehicles were blasted into flaming wreckage and at least three of the enemy's main bridges north of Manila were knocked out. American aircraft roamed the skies unchallenged.

# Annual Boy Scout Meeting Sunday

The annual Modoc council Boy Scout conference will be held in Klamath Falls Sunday, with a delegation of at least 14 planning to attend from Redmond, Prineville and Bend. It was learned here today, Kenneth Klahn of Klamath Falls is president of the council, which embraces counties in northern California and southern and central Oregon.

Included in the midstate group planning to make the trip is P. M. Houk, Redmond, Fremont district chairman. LeRoy Fox is head of the Bend scout organization, and also plans to be present for the annual meeting.

Plans for the new year, including the summer camp at Crescent lake, will be considered at the Sunday session.

The steel industry in the United States uses approximately 3,000,000 gallons of water every minute at its present wartime production pace.

# Philip Pedersen Gets Medal, Citation for Normandy Action

Glider Pilot Philip M. Pedersen, son of Mrs. Julius Pedersen, Rt. 1, Bend, has been awarded the air medal for Normandy, and to it an oak leaf cluster for the invasion of Holland, according to a news release received by The Bulletin from an U. S. troop carrier force base in the European theater of operations. Accompanying the release is a picture of the Bend pilot and his fellow crew members standing and kneeling before a huge Nazi flag that once flew over a now flattened Luftwaffe airrome.

Flight Officer Pedersen accomplished successful glider landings in both the Normandy and Holland invasions, disregarding intense ground fire and obstacles such as logs and ditches, in the landing area, states the news release from the carrier base.

Officer Pedersen wears the American defense ribbon, the good conduct ribbon, the ETO ribbon with three battle stars and presidential citation, in addition to his recent awards. The group to which he is attached is part of the U. S. troop carrier forces headed by Major General Paul L. Williams which forms the air arm of the First allied airborne army

commanded by Lt. General Louis H. Brereton.

The young officer attended Bend high school, graduating in 1937, and entered the service on September 16, 1940.

Two brothers are also in the service. They are T/Sgt. Harold L. Pedersen, who went through the battle of Leyte, in the Philippines, without a scratch, and T/Sgt. Donald J. Pedersen, with the signal corps in New Jersey.

Harold won the distinguished service cross for his work under fire in the New Guinea jungles.

# Bills Available In Bend, Redmond

Bills introduced at the present session of the Oregon legislature will be available in Redmond at the offices of Cuning and Brewster and in Bend at the Deschutes county library and the office of Judge C. L. Allen in the courthouse. Representative William A. Niskanen has announced from Salem.

The legislature session opened this week, with seven measures introduced up to Wednesday evening.

# War Briefs - - -

(By United Press)

**Pacific**—American forces overran perhaps 30 cities and towns in 18 to 20 mile advance inland from Lingayen gulf in drive across central Luzon plains.

**Western Front**—German armies of Ardennes reported fleeing back into Reich to escape annihilation by Allied armies closing in from three sides.

**Eastern Front**—Russian forces hurl back two German relief columns 15 miles north of Budapest as resistance inside capital crumbles.

**Italy**—Activity continues limited to patrolling.

Over a hundred chemicals are used in a shotgun shell before it is ready for the hunter.
